THE CALENDAR FOR 1869.

THE Time given in this Almanack is Bombay Civil Time, or that which a well-regulated Mean Time Clock will show.

MEAN TIME AT TRUE NOON.

The Mean Time of True Noon is the instant at which the centre of the Sun passes the meridian of Bombay.

SUNRISE AND SUNSET.

The Time of Sunrise and Sunset shows the instant at which the Sun's centre is on the visible horizon of Bombay, the refraction of the atmosphere being supposed to preserve a constant mean amount.

MOON'S AGE.

The Time given as the Moon's Age is the interval expressed in days and tenths of a day which has elapsed at noon of each day, since the Sun and Moon were together in the same longitude.

MOON'S SOUTHING.

The Moon's Southing is the mean time at which the Moon's centre passes the meridian of Bombay. From the "apparent time" of the Moon's meridian passage the Time of High Water is computed.

TWILIGHT.

The duration of Twilight and of Daybreak shows the Time within which the Sun's centre is not more than 9° below the horizon of Bombay. This may be termed the Civil Twilight to distinguish it from the Astronomical, which is of double the length.

TIDES.

Attention has been called in former years to the want of accuracy in the Times of Tide published for Bombay. The Times of High Water in the Calendar this year are those computed by W. Parkes, Esq., M. Inst. C. E., by authority of the Secretary of State in Council of India, which have been placed at our disposal by the author. The heights of High Water are above MEAN SEA LEVEL, which is 80 ft. 4 in. above the Town Hall Datum.

For the Times of High Water at other places along the coast, &c., the information given at pp. 34-35 may be referred to.

NATIVE HOLIDAYS.

We have failed to obtain any information from the Government Offices of the dates on which the Native Holidays are allowed, and therefore we may occasionally be in error by one day in the dates of Hindu or Muhammadan festivals.

And the 6th year of the Chinese 77th Cycle of 60 years which begins about 14th February.

Ramazan (the month of abstinence observed by the Muhammadans) commences 5th December 1869.

ADJUSTMENT OF THE CALENDAR.

Julius Cæsar was the first to attempt to adjust the length of the year with any degree of accuracy, and fixed it at 365 days 6 hours ; introducing a day every fourth year, (called Leap Year,) which accordingly consists of 366 days, while the three others have only 365 days each.

From him it was called the Julian Year, and it continued in general use till the year 1582, when Pope Gregory XIII. undertook to rectify the error, which then existed between the Julian year of $365\frac{1}{4}$ days and the solar year of 365·24222013 days. At that time the difference amounted to ten days. He accordingly commanded the ten days between the 4th and 15th October in that year to be struck out, so that the 5th day was called the 15th. This alteration has been introduced throughout Europe, except in Russia and by the Greek church, and the year was afterwards called the Gregorian Year or New Style.

In England the method of reckoning after the New Style was not admitted into the Calendar till the year 1752, when the error amounted to nearly 11 days, which were taken from the month of September, by calling the 3rd of that month the 14th, and it was settled by Act of Parliament (24 Geo. II. 1751) that the Years 1800, 1900, 2100, 2200, 2300 and every hundredth year of our Lord which shall happen in time to come, shall be computed as each consisting of 365 days only, excepting every fourth hundredth year, whereof the year 2000 should be the first.

By the same Act of Parliament the Legal beginning of the year was changed from the 25th of March to the 1st of January, so that the succeeding months of January, February, and March up to the 24th day, which by the Old Style would have been reckoned part of the year 1752, were accounted as the three first months of 1753, which is the reason we sometimes meet with such a date as—

MARCH 15TH, 1774-75,—

that is according to the Old Style it is 1774, according to the New 1775.

Easter Day, on which the rest depends, is always the first Sunday after the first full moon, which happens after the 21st day of March. If the full moon happens upon a Sunday, Easter Day is the Sunday after, Advent Sunday is always the nearest Sunday to St. Andrew's day, whether before or after.

Rogation Sunday is Five weeks after Easter.	Whit Sunday is Seven weeks after Easter.
Ascension Day is Forty days ditto.	Trinity Sunday is Eight weeks ditto.

CHRONOLOGICAL CYCLES.

Golden Number	8	Dominical Letter	C
Epact	17	Roman Indiction	12
Solar Cycle	2	Julian Period	6582

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, after which all the Dominical Letters return in the same order as they did during the 28 years before. The first year of the Christian Era was the 10th of this Cycle.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle, (from Meton, an Athenian, who invented it about 432 B.C.) is a revolution of 19 years, in which time the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the number of years elapsed in this Cycle. Before the birth of Christ 2 years of this Cycle had elapsed.

The Epact for any year is a number introduced by Aloysius Lilius, an astronomer of Naples in the time of Gregory XIII., and designed to represent the age of the Moon on the 1st of January. For the 18th and 19th centuries, it is the remainder found by dividing 11 times one less than the Golden Number by 30.

The Roman Indiction is a period of 15 years, used by the Romans for the time of taxing their provinces. Three years of one of these Cycles had elapsed before the birth of Christ.

The Julian Period contains 7980 years, and arises from multiplying together 28, 19, and 15, being the Cycles of the Sun, Moon, and Indiction. This was contrived by Joseph-Juste Scaliger in 1583, for Chronological purposes, and is assumed as a fixed era in calculations by all Astronomers and Chronologers throughout the Christian world. Its beginning is placed 710 years before the Hebrew date of the creation of the world, or 4714 before the commencement of the Christian Era.

ECLIPSES.

In the year 1869 there will be two Eclipses of the Sun, and two of the Moon.

I. A partial Eclipse of the Moon January 28th, 1869, partly visible at Bombay.

Explanation.—Look for the year in the first part of the table, and opposite it will be found the Dominical letter. When there are two letters together, the first is for January and February, the second for the rest of the year. In a line with the month, in the second part of the table, find the Dominical letter of the year, and down the same column with the letter find the day of the week, when the figures on the left will give the days of the month. Thus for the Mondays in January 1869. Opposite 1869 in the first column is C in the fifth. In a line with January find C, and descend the column to "Mon."—On the left are 4, 11, 18, and 25, the required dates.

To find the day of the year for any given date. For example :—To find the Age of the 14th day of August. Take from this table the age of the last day of July (212), and add 14—total 226. In leap years, add 1 day after February.

TIDE TABLE.

WHEN the times of High Water at one port are known those for a neighbouring place may be readily found approximately, by adding or subtracting the difference of the establishments of the two places. For the Coasts of Europe and America the establishment of almost every harbour is accurately known; but in the Indian Ocean this important element is only roughly fixed for a few of the ports on its shores and islands. For some places only a single observation exists, and that of unknown date; in others the authorities differ widely.

The following table is formed from such data as exist, and gives the constants to be added to or subtracted from the times of High Water at Bombay, according to the sign affixed to each, in order to find the time of High Water at the given place.

For example, the time of tide at Bankut on any day will be found by subtracting 40m. from the time of high water at Bombay on that day; thus,—on January 1st, the time of High Water at Bombay is 1h. 5m. P.M.; hence at Bankut it will be high water 40m. earlier,—or at 0h. 25m. P.M. So, for Damaun, the table gives + 1h. 50m., and hence high water there on the 1st Jan. will occur at 1h. 5m., + 1h. 50m., that is at 2h. 55m. P. M. of that day.

CHRISTIAN FESTIVALS AND FASTS.

JANUARY.

Jan. 1—CIRCUMCISION.—This festival was originally called the Octave of Christmas, and the first mention found of it is in the year 487. It was instituted by the Church to commemorate the ceremony, under the Jewish law, to which Christ submitted, on the eighth day of the nativity.

Jan. 6—EPIPHANY.—The word EPIPHANY signifies appearance or apparition. This festival appears to have been first observed as a separate feast, in the year 813. From the circumstance of its being twelve days after Christmas, it is vulgarly called "Twelfth-day."

Jan. 11—PLOUGH MONDAY.—Is the first Monday after the Epiphany, and received this appellation from its having been fixed upon as the period when the early English returned to the duties of agriculture, after the festivities of Christmas.

Jan. 24—SEPTUAGESIMA SUNDAY.—Is a Sunday dependent upon Lent, as that season is upon Easter. It is considered as the preparation for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by "decades" the Sunday preceding Quadragesima received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

FEBRUARY.

Feb. 2—PURIFICATION.—This day is kept in the Romish Church as a solemn festival, in memory of the purification of the Virgin Mary. The festival was originally called CANDLEMAS DAY, as well as the Day of Purification. The practice of lighting the churches has been discontinued in England since the second year of Edward VI. In the Romish Church all its attendant ceremonies are still retained.

Feb. 9—SHROVE TUESDAY.—After the people had made the confession required at this season, by the discipline of the Romish Church, they were permitted to indulge in festive amusements, although not allowed to partake of any repast beyond the usual substitutes for flesh; and hence arose the custom, yet preserved, of eating pancakes and fritters at Shrovetide.

Feb. 10—ASH WEDNESDAY.—The early Christians did not commence their Lent until the Sunday now called the first in Lent. Pope Felix III., in the year 487, first added the four days preceding the old Lent Sunday to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the names of DIES CINERUM, or Ash-Wednesday. At the Reformation, this practice was abolished.

Feb. 14—QUADRAGESIMA, OR FIRST SUNDAY IN LENT.—Ercombert, King of Kent, first appointed the fast of Lent in England, in the year 641. Succeeding generations marked the distinctions between the various foods. We find flesh to have been early prohibited during Lent, though Henry VIII. published a proclamation in 1543, allowing the use of white meats, which continued in force until by proclamations of James I. in 1619 and 1625, and by Charles I. in 1627 and 1631, flesh was again wholly forbidden.

Feb. 17, 19 and 20—EMBER-DAYS.—After the first Sunday in Lent, the Wednesday, Friday, and Saturday are Ember-days, and the week in which they occur, Ember-weeks. On Ember-days our forefathers ate no bread, but what was baked in a simple and primitive fashion under hot ashes; hence the name. The other Ember-days of the year are the Wednesdays, Fridays and Saturdays, after the Feast of Pentecost, Holyrood Day (September 14), and St. Lucia's Day (December 15).

MARCH.

March 1—ST. DAVID'S DAY.—St. David, the patron saint of Welshmen, was Archbishop of Menevy. He was a man of considerable learning, and was reputed to possess the power of performing miracles. He died in 544, and was buried in the Church of St. Andrew, but his remains were afterwards removed to Glastonbury Abbey. On this day, Welshmen wear a leek in their hats, a practice supposed to have originated from their countrymen, in a great battle with the Saxons fought adjacent to a leek field,

having adopted that vegetable as a military mark of distinction, by which they might distinguish each other from the enemy during the battle.

March 7—MID-LENT SUNDAY.—This day received its appellation because it is the middle Sunday between Quadragesima and Easter Sunday. It is by some called "Mothering Sunday,"—a term expressive of the ancient usage of visiting the Mother, or Cathedral Churches, of the several dioceses, when voluntary offerings were made, which are now called Easter offerings.

March 17—ST. PATRICK'S DAY.—A grand festival of the Church of Rome, and on which Irishmen consider it their duty to make themselves as happy as a Welshman does on the 1st of March. The Irish venerate St. Patrick as the introducer of Christianity into Ireland. He was a Scotchman by birth. The shamrock, a species of three-leaved grass, is generally worn by the Irish on this day. The favour thus bestowed upon it is said to have arisen from the saint having used it as an illustration for explaining the doctrine of the Trinity.

March 21—PALM SUNDAY.—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. The festival commemorates our Saviour's triumphal entry into Jerusalem, when branches of palms were spread before him.

March 25—THE ANNUNCIATION OF OUR LADY.—This day is more familiarly known in England as Lady-day. It is kept as a festival in the Romish Church, in commemoration of the Incarnation of Christ. In England it is one of the quarter-days on which rent and other dues become payable. The other quarter days are Midsummer Day, Michaelmas Day, and Christmas Day.

March 26—GOOD FRIDAY.—This day is held as a solemn fast, in remembrance of the Crucifixion. Its appellation of GOOD appears to be peculiar to the Church of England. Our Saxon forefathers termed it "Long Friday," from the length of the offices and fastings on that day.

March 28—EASTER SUNDAY.—Is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance, it governs the whole of the other moveable feasts throughout the year. Nearly the whole of the moveable feasts and holidays of the Church are determined by Easter-day, which is itself moveable, according to the following canonical regulation ordained by the council of Nice (A.D. 325) ; viz. Easter Sunday always falls upon the first Sunday after the first full moon after the 21st day of March. If the first full moon happens on a Sunday, then the following Sunday is Easter Sunday. The moon on which Easter depends is called the Paschal moon, and the full moon is defined to be the fourteenth day of the moon, that is, thirteen days after the preceding day of new moon. The first of the moveable feasts in the year dependent on Easter is Septuagesima Sunday, and it takes its place nine Sundays before Easter.

APRIL.

April 4—LOW SUNDAY.—So termed from the Church service being somewhat abridged or lowered from that of the preceding Sunday.

April 23—SAINT GEORGE.—Edward III., at the Battle of Calais, in the year 1349, joined to England's then supposed principal guardian St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year the Order of the Garter was established, dedicated to St. George; and the saint himself has, from that period, been considered as patron of England.

MAY.

May 1—MAY-DAY.—It has been celebrated from the earliest ages, as a kind of nature's birthday : and notwithstanding the havoc which the march of knowledge has made with the customs of our forefathers, it is probable that in rural districts May-day will long continue its hold upon human affections. May-day can hardly be said to be known in great cities.

May 2—ROGATION SUNDAY.—Rogation Sunday received and retains its title from the Monday, Tuesday, and Wednesday immediately following it, which are called ROGATION DAYS, derived from the Latin "rogaro," to beseech. The early Christians appropriated extraordinary prayers and supplications for those three days as a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated "Holy Thursday," or Ascension Day. The whole week in which these days happen is styled Rogation-week ; and in some parts it is still known by the other names of Crop-week, Grass-week, Gang or Procession-week. The perambulations of parishes were made in this week.

May 6—ASCENSION-DAY, OR HOLY-THURSDAY.—Is the day on which the Church celebrates the Ascension of our Saviour,—the fortieth day after his Resurrection from the dead.

May 16—PENTECOST OR WHIT-SUNDAY.—The seventh Sunday after Easter-day. It was on the feast of Pentecost (a great feast of the Jews), that the Holy Ghost miraculously descended on the Apostles. This and the two following days comprise Whitsuntide; and in many parts of England it is a time for hiring servants. It is named WHIT, signifying "White" Sunday, because on this day the catechumens appeared in the ancient Church in white garments.

May 23—TRINITY SUNDAY.—Trinity Sunday is a festival observed by the Latin and English Churches on the Sunday next following Pentecost, or Whitsuntide,—of which, originally, it was merely an octave.

May 27—CORPUS CHRISTI.—A festival of the Romish Church, held on the Thursday after Trinity Sunday. It celebrates, as the name indicates, the doctrine of transubstantiation, and is observed in Catholic countries with considerable ceremony.

JUNE.

June 24—ST. JOHN THE BAPTIST.—The Nativity of St. John the Baptist: a holiday of the Church of England. The Eve of St. John, variously called Midsummer Eve, was formerly a time of high observance amongst the English, as it still is in Catholic countries. There was a custom of holding vigil in the church porch.

AUGUST.

Aug. 1—LAMMAS DAY, CALLED THE GULE OF AUGUST.—It is now only remarkable as a day of term for some purposes. It was probably one of the great festival days of our heathen ancestors, and occurs exactly three months after another of them—Beltane or May-day. Lammas seems to have been held as a day of thanksgiving for the new fruits of the earth.

SEPTEMBER.

Sept. 29—MICHAELMAS DAY—A festival of the Romish and English Churches, established 487, in honour of St. Michael and all the holy angels. St. Michael is singled out for peculiar mention as being the chief of the angels or archangels. It is an ancient and extensively prevalent custom to have a goose for dinner on Michaelmas-day, which seems to have arisen simply from the goose being at its best immediately after it has had the range of the reaped harvest fields.

NOVEMBER.

Nov. 1—ALL SAINTS.—All Saints, or All-Hallows, is a day of general commemoration of all those saints and martyrs in honour of whom, individually, no particular day has been expressly assigned.

Nov. 11—ST. MARTIN'S DAY OR MARTINMAS.—Popularly this is one of the most remarkable days of the year, especially in Scotland, where Whitsuntide and Martinmas are the two great terms for leases and engagements of servants, the latter being that at which the occupation of farms usually commences. Martin is said to have been born in Lower Hungary, about 316, and to have originally been a soldier. When, as often happens, a few fine days occur about this time of the year, they are called St. Martin's summer. Formerly this was also a quarterly term day in England.

Nov. 28—ADVENT [literally "the coming"].—A term applied from an early period of ecclesiastical history to the four weeks preceding Christmas, which was observed with penance and devotion in reference to the approaching birth of Christ. There are four Sundays in Advent, the first of which is always the nearest Sunday to St. Andrew's Day.

Nov. 30—ST. ANDREW'S DAY.—St. Andrew was one of the Apostles. His history, as related by the Catholic writers, represents him as martyred in the year 66, at Patræ in Greece, upon a cross of the form of the letter X, which accordingly is still recognised as St. Andrew's Cross.

DECEMBER.

Dec. 21—ST. THOMAS'S DAY.—A festival of the English Church. It was customary in England to go "a gooding," on St. Thomas's day; that is, they went about begging money, and presenting in return sprigs of palm and bunches of primroses, with a view to the decoration of their houses against Christmas.

Dec. 25—CHRISTMAS DAY.—Observed as the nativity of our Lord. In England, Christmas-day is kept by the Church as a solemn festival, and is distinguished by the complete cessation of business—an honour paid to no other day besides Sunday and Good Friday. In many country places the celebration of Christmas begins the latter part of the previous day—Christmas Eve.

HINDU METHOD OF RECKONING.

The Luni-solar year is used for the regulation of festivals and domestic arrangements; it commences at the instant of conjunction of the Sun and Moon in the Sidereal month Chaitra. The Hindu Lunar months invariably consist of 30 Tithis, or Lunar days: and the whole month is divided into two equal parts of 15 Tithis each, the one called Shukla Paksh or Shud—the bright half or increase of the Moon, the other the Krishna Paksh, or Vad—the dark half or decrease of the Moon. The Lunar month begins on the Western side of India and South of the Nerbudda river, with the first day of the Shukla Paksh (Shudi Pratipada), or bright half of the Moon. At Benares, Oojein, and the countries North of the Nerbudda, the Lunar month begins with the first Lunar day of the preceding Krishna Paksh (Vadi Pratipada) or dark half of the Moon. The former is designated the Shukladi mode of reckoning, and the latter the Krishnadi. The Lunar year begins both North and South of the Nerbudda with the first day of the Shukla Paksh, or bright half of the Moon in Chaitra; but as the dark half of the Moon precedes the other, or Shukla Paksh at Benares, the half Lunar month of Chaitra is taken from the last Lunar month of the year preceding, and considered to belong it, so that the difference between the Shukladi and Krishnadi reckonings affects the months only, and not the commencement of the year. The Lunar months are named after the Solar month in which the conjunction occurs, so that when two new Moons fall within one solar month, the name of the corresponding Lunar month is repeated, and the year is intercalary containing 13 months. The ordinary month is called *nija*, and the additional one, which, according to the Surya Siddhanta, falls in the middle of the 60 days, *adhika*. The Tamil account makes the first month of the two the *adhika* month. Such feasts as occur are confined to the *nija* or proper month. Once in about 160 years no new Moon occurs in some one of the last six months, which, from the Earth's being in perihelion, contain only 29 and 30 days each. When this occurs the name of that month is omitted, but two others always happen to be repeated in such years. Thus in 1822-3 or 4924 K. Y. Margasirsh (Dec.) was expunged, but Aswin and Chaitra were intercalated. The ordinary year is called Samvat-sara, the common intercalary year Adhika-samvat-sara; and the double intercalary with the expunged month, Kshaya-samvat-sara.

While the Lunar month invariably consists of 30 Tithis or Lunar days,—in order to regulate the Feasts and Festivals, certain Lunar days are dropped and others are reckoned twice to make up the deficiency; the first of these are termed Kshaya Tithis (perishable days), and the days repeated twice are called Vridh Tithis (additional days).

The rule of these is ;—those Lunar days on which the sun does not rise (Suryodaya nahin) are struck out; those in which it rises twice are Vridh, or additional; and since, according to the Hindus, the Tithi is 22m. 31·9s. less than the mean solar day, it is obvious such circumstances will occur about once in 64 days, or six times in the course of the Lunar year.

The Tithis of each half month are named after the Moon's age, as follows :—

1 Prathami or Pratipada.	6 Shasthi.	11 Ekadasi.
2 Dwitya.	7 Saptami.	12 Duadasi.
3 Tritiya.	8 Ashtami,	13 Triadasi.
4 Chaturthi.	9 Navami.	14 Chaturdasi.
5 Panchami.	10 Dasami.	

The 15th from Shukla Pratapada is Purnima, or Full Moon; and the 15th from Krishna Pratipada is Amavasya or New Moon.

The Hindu Zodiac is divided into twenty-seven Lunar Mansions or Nakshatras of 13° 20′ each, probably originating in the revolution of the Moon being performed in little more than 27 days. Their names are :—

1 Aswini.	10 Maghá *or* Pitriyam.	19 Neriti *or* Mula.
2 Bharani *or* Antakam.	11 Purva Phalguni.	20 Purva Asharha.
3 Kritika *or* Aguiya.	12 Uttara Phalguni.	21 Uttara Asharha.
4 Rohini *or* Brahmam.	13 Hasta, *or* Arka.	22 Sravana.

The Hindu sidereal year, according to the Surya Siddhanta, is 365d. 6h. 12m. 36·56s., or 1·000045286 Solar years, and is measured by the return of the sun to the same point in the Zodiac, the beginning of the sign Mesha. Each month contains as many days as the Sun continues in each sign; the civil only differing from the astronomical reckoning in rejecting fractions of a day. The civil year and month begin at sunrise instead of the instant of the sun's entrance into the respective signs. If the fractions exceed half a day, the civil year or month begins with the sunrise following. The months vary in length with the sun's angular motion. The following are the signs of the Zodiac with the months and the corresponding astronomical periods :—

The Hindus have several Eras :—The Kaliyug commences from the factitious Era 18th Feb. 3102 B.C. The Era of Vikramaditya, so named from a sovereign of Malwa who defeated Soka, King of Delhi, and got possession of the chief throne of Hindustan, is reckoned from 57 B.C.; the years of this Era are luni-solar, and are called Samvat. The Era of Salivahna dates from the 14th March A.D. 78, Julian reckoning, the first year being reckoned 0, or the date indicating always the year complete: it is the most prevalent in the South of Hindustan as that of Vikramaditya is in the North and in Gujerat. The years of it are sidereal and are termed Saka,

The Vrihaspati Chakra, or Cycle of Jupiter, is employed for little else than giving the name to the year. The Cycle consists of 60 years, and according to the Surya Siddhanta, the Chakra year is to the Sidereal year as 18000 to 18211, so that to keep the Cycle in accordance with the planet's motion one year has to be expunged every 85 or 86 years. According to the Jyotistava rule the expunged year falls 13 years earlier than according

to the Surya Siddhanta computation used in Bengal. The Telinga method, followed in the peninsula and in Thibet, identifies the Vrihaspati year with the Chandra-mana or luni-solar account. This last directs to divide the expired years of the Kali-yug by 60, and the remainder is the year of the Cycle, to be reckoned from *Pramathi* the 13th of the Chakra. Thus for the year 4966 K. Y. 4966÷60=82 Cycles 46 years, or *Krodhana* the 59th will be the year sought.

The names of the Sixty Sanvatsars or years of the Vrihaspati-chakra are as follows :—

The Era of Parasurama is used in Malayala, or from Mangalore to Cape Comorin. It derives its name from a prince who is said to have reigned 1176 B.C. The epoch is 7th August 3537 Jul. Per. or 1925 K. Y. It is reckoned in cycles of 1000 sidereal years, commencing when the Sun enters Kanya (Virgo) answering to the month Aswin. The Fourth Cycle of this era began 15th September 1825, but the commencement of the new era having been overlooked and the following year dated 1001, the error has been perpetuated, and the year beginning 15th September 1869 instead of being dated the 45th of the fourth cycle, is thus dated 1045.

MUHAMMADAN METHOD OF RECKONING.

The Muhammadans reckon from the Hijra or era of the Flight, which took place on the evening of Thursday the 15th July A. D. 622 (15 Thamuz 933 A. S.), from which the Hissabî or Astronomical reckoning commences, but in the Helali, or chronological reckoning, Friday the 16th July is made the initial date. This era was introduced by the Khalif U'mar. The year is purely lunar, consisting of months of 30 and 29 days alternately, and adding a day eleven times in a cycle of 30 years, namely to the 2nd, 5th, 7th, 10th, 13th, 15th, 18th, 21st, 24th, 26th, and 29th in the cycle.*

The Lunar year is 354d. 8h. 48·57m.; and a year of the Hijra is 354d. 8h. 48m. The small error thus arising will not amount to a day in less than 2300 years. Hence a year of the Hijra=0·970223 Gregorian year; and a Gregorian year=1·03069 year of the Hijra; and thus 32 Gregorian years are about equal to 33 years of the Hijra, or, more nearly, 163 years of the former are within less than a day of 168 Muhammadan years.

It is obvious that in such a system every year will begin 10 or 11 days earlier in the season than the preceding, and in the course of 33 years the commencement of the Muhammadan year runs through the whole course of the seasons.

Muhammadan Months.

	Days.		*Days.*
1 Muharram	30	7 Rajab	30
2 Safar	29	8 Shaban	29
3 Rabiu'l awal, or Rabiu I.	30	9 Ramazan	30
4 Rabiu'l akhir, or Rabiu's sani, or II.	29	10 Shawal	29
5 Jumada'l awal, or Jumad I	30	11 Zu'l kadah	30
6 Jumada'l akhir, or Jumad II	29	12 Zu'l hijjah.....29d. & in leap years	30

The first day of the Muharram, or the commencement of the year, is ordinarily reckoned from the first observed appearance of the new Moon, or in cloudy weather from the time at which it would be visible; and this can scarcely happen earlier than 24 or later than 48 hours after the conjunction. In this manner each separate month is reckoned, and as a few cloudy days may thus retard its commencement, two parts of the same country may sometimes differ a day in their reckoning. But in chronology, history and documents they use months of 30 and 29 days alternately, as just described.

All Muhammadans reckon time in weeks of 7 days. Their days are named as follows:—

	Indian.	*Persian.*	*Arabic.*	*Turkish.*
Sun.	Itwar *or* Etwar	Yekshamba.	Yaumu'l Ahadi.	Bazar-guni.
Mon.	Pir *or* Sombar.	Do-shamba.	,, Isnin *or* Kena.	Bazar-artasi.

Thur.	Jumarat.	Panjshamba.	,, Khamis *or* Hamsa.	Panj-shamba.
Fri.	Juma.	Juma *or* Adina.	,, Juma.	Juma.
Sat.	Sanichar.	Shamba *or* Hafta.	,, Sabat.	Juma-artasi.

* Jervis gives the 8th, 16th, 19th, and 27th as intercalary, instead of the 7th, 17th, 18th and 26th, but mentions the usual list also. Ulug Beg mentions the 16th as a leap year.

We may find the Christian date from that of the Hijra thus :—Divide the number of years elapsed by 30, and the quotient A will be the number of cycles elapsed, and the remainder B the number of years in the current cycle. Let E be the number of intercalary years in B and D the days elapsed of the given year. Then the number of days that have elapsed from the Christian era is,—

$$227016+10631A+354B+D+E\text{; and } E=\frac{11B+14.}{30}$$

Divide the sum by 1461 and call the quotient Q; and divide the remainder by 365, and call the quotient R, and the last remainder S. Then the years elapsed from 1st Jan. A. D. 1 is :—

$$4\,Q+R,$$

and S is the days elapsed of the current year, Old Style. To reduce to New Style add as follows :—

For any date of New Style antecedent to March 1 A. D. 1700...10 days.
After February 28, 1700 and before March 1 1800...11 „
„ „ 1800 „ „ 1900...12 „

The reckoning may be facilitated by the following Table :—

A	Days.	B′	Days.	D	Days.	Q	Days.	Month.	Days.
1	10631	29	10277	Muharram.	0	1	1461	Jan. 1	0
2	21262	26	9214	Safar.	30	2	2922	Feb. 1	31
3	31893	24	8505	Rabiu I.	59	3	4383	Mar. 1	59
4	42524	21	7442	Rabiu II.	89	4	5844	Apr. 1	90
5	53155	18	6379	Jumad I.	118	5	7305	May 1	120
6	63786	15	5316	Jumad II.	148	6	8766	June 1	151
7	74417	13	4607	Rajab.	177	7	10227	July 1	181
8	85048	10	3544	Shaban.	207	8	11688	Aug. 1	212
9	95679	7	2481	Ramazan.	236	9	13149	Sept. 1	243
10	106310	5	1772	Shawwal.	266	R		Oct. 1	273
20	212620	2	709	Zu'l Kadah.	295	0	0 or 1*	Nov. 1	304
30	318930	B–B′		Zu'l Hijjah.	325	1	366	Dec. 1	334
40	425240	2	708			2	731		
		1	354			3	1096		

Thus : to find the date A. D. corresponding to the 6th of Zi'l Kadah A. H. 1285.

Dividing 1284, the years elapsed, by 30, we have A=42 and B=24.	
The Constant.....	227,016
For A = 40	425,240
= 2	21,262
B′ = 24	8,505
To 1st Zi'l Kadah.....	295
6th Zi'l Kadah	6
Sum of days.....	682,324

Then subtract from.....	682,324
For Q = 400	584,400
	97,925
= 60	87,660
	10,264
= 7	10,227
∴ Q = 467	37
R = Q and to Feb. 1st	31
	134
Old Style, Feb.....	6th

Hence, since Q = 467 and R = 0, the date is 4 × 467 + 0 = 1868 complete, or 1869 current; and to 6th Feb. O. S., adding 12, we have the 26th May 1868.

To find the day of the week answering to any day of the Muhammadan year. Divide the year by 210 and the remainder by 30, and with the last remainder on the left hand and the last quotient at the top of the following table, the day of the week on which the year begins will be found at the intersection of the line and column. The calendar following will show the day of the week answering to any day of the year and *vice versa*. Thus to find the day of the week corresponding to 1st Shawal 1284:— 1284 ÷ 210 gives 64 as a remainder, and 64 ÷ 30 = 2 and 4 over. Then, in a line with

* For dates between 1st Jan. and 28th Feb. 0 is to be used, and after the latter date 1.

4 on the left hand and in the column marked 2 at the top we find 'Sunday' for the first day of A. H. 1284; and by the calendar, in the 1st column, (which begins with Sunday) and in a line with 1st Shawal we find "Sunday"—the day of the week (26th January 1868) required.

Derived from the Muhammadan era, there are several others more or less in use. Akbar introduced a Fasli, or "harvest" year for the regulation of financial and other civil transactions, and adjusted its epoch to the year of his accession A. H. 963, which began 26th November 1555 N. S. The Fasli year 963 of Upper Hindustan was accordingly reckoned from the beginning of the Samvat year on the first of the lunar month Aswin, or 10th September 1555. The Vilayati year introduced into Orissa, was made to coincide with the Saka Solar year, and to begin with the Solar month Aswin, or 8th September 1555. The San-i-Bengali year 963 was likewise reckoned from 1st Bysakh or 11th April 1556.

The Shahur* Era of Maharashtra is said to have been introduced on Thursday, 6th June 1342, with the year 743 A. H. Jervis, however, found its epoch to agree with the commencement of the year A. H. 745. It begins in June at the Sun's entrance into the lunar mansion Mrigasirsh. The years are denominated after the corresponding Arabic numerals :—

1	Ahadi,	10	Ashar,	100	Mayat, or Maya,
2	Isni,	11	Ishrin,	200	Miatin,
3	Salas,	30	Salatin,	300	Suls-mayat,
4	Arba,	40	Arbain,	400	Arba-mayat,
5	Khams,	50	Khamsin,	1000	Alf,
6	Sita,	60	Sitain,	1100	Mayat-o-alf,
7	Saba,	70	Saba-in,	1200	Miatin-o-alf,
8	Samani,	80	Samanin,	1269	Tisa-sitain Miatin-o-alf.
9	Tisa,	90	Tisa-in,		(A.D. 1868-9.)

* From *shahur*, plural of Arab *shahr*, 'month'; it means literally the 'year of months.' See Jervis on Weights, Measures, &c., p. 135, &c.

The preceding names are corrupted in the native pronunciation. To reduce Shahur dates to Christian 599·424 years must be added.

The Fasli Era of the Dakhan was introduced by Shah Jehan in 1638, A. H. 1048. It begins in July and ought to be sidereal. At Madras, however, the Government fixed its commencement to 12th July.

PARSI METHOD OF RECKONING.

The ancient Persians reckoned a new era from the accession of each successive monarch, and as Yezdijird had no successor, the date of his accession to the throne, 16th June A.D. 632, (exactly ten years after the Hijra) has been brought down to the present time, thus making their current year 1238-39. In their calculations only 365 days are allowed to the year, leap year is unknown to them, though it is alleged that in every 120 years one month was added to make it correspond with the solar year. The year is divided into twelve months of thirty days each, and five days, or "Gathas," as they are called, are added at the end to make up the deficiency. The months are,—

1	Farvardin.	4	Tir.	7	Meher.	10	Deh.
2	Ardibehisht.	5	Amardad.	8	Aban.	11	Bahman.
3	Khurdad.	6	Sharivar.	9	Adar.	12	Asfandyar.

Gathas 5 days.

The Parsis do not now divide their time into weeks, but name the 30 days of their months each after a celestial being—7 Amshaspands and 23 Izads—supposed to preside over them. These are as follows:—

The 1st, 8th, 15th and 23rd days are sacred to Hormazd, and thus afford evidence of an older division into weeks.

The Parsis of India are divided into two sects,—the "Shaharsahis" or "Rasamis," and the "Kadmis" or "Churigarians," the former of whom constitute the larger portion of the race. This division originated about a hundred and fifty years ago when a Persian priest, named Jamasp, arrived in India, and found that his co-religionists differed from their brethren of Iran in their calculation of time by a full month, and in other minor points relating to their "liturgy." Serious disputes arose in consequence, which ended in the formation of the two sects,—the Rasamis adhering to their own views and the Kadmis adopting the opinions imported by Jamasp—and thus agreeing with their Persian brethren. The difference lies in their computation of time and in some slight variations in the forms of prayer. Those that begin their year a month earlier are styled Kadmis, and the rest Rasamis, *i. e.*, 'customary,' and Shaharsai, 'citizen,' for which some one substituted Shahanshahi ('of the king of kings'), and this absurd change has ever since been adopted.* The Kadmi Parsi Era of Yezdijird, or Dariyia Naoroz, or sea-reckoning is made use of in nautical calculations among Asiatic mariners, and the New Year always commences on the 1st of Farvardin, which falls about the 25th of August, one month earlier than the

* Journal Royal Asiatic Society No. viii.

commencement of the Rasami New Year. With the Rasami Parsis the New Year begins on the 1st day of Farvardin, which at present falls about the 24th of September, a month later than the commencement of the Kadmi New Year.

About A.D. 1075 Jalal'ud-din Malikshah, finding that the commencement of this year in Persia had anticipated the epoch by 112 days, ordered that, in future, the Persian year should receive an additional day whenever it should be necessary to postpone the commencement of the following year in order that it might occur on the day of the sun's passing the same point of the ecliptic. U'mar Cheyam, one of the Astronomers appointed by him to construct a calendar, is said to have discovered that 8 intercalations in 33 years very nearly adjust the Calendar, giving the length of the year 365d. 5h. 49m. 5·65s. Scaliger and others say this was the period actually adopted, though Delambre shows that the Persian intercalation combines the two periods of 29 years with 7 intercalations and of 33 years with 8 intercalations.

JEWISH METHOD OF RECKONING.

The Jews have ever marked their time by sevenths, according to the command given by God for labouring during only six days of each week and resting on the seventh, which was consequently set apart or consecrated to the service of the Creator. They not only hallowed the seventh day or Sabbath, which formed a portion of their week of days, but they had, also, their week of years, which consisted of seven years, and their jubilees, or rejoicing periods, at the end of every seven times seven years, which were celebrated by acts of justice, forgiveness, and restitution. The Hebrews, Assyrians, Egyptians, Arabians, and most other ancient nations reckoned by weeks.

The modern Jews name the days of the week thus:—

Sunday..... Yom Russian rishan, or echad.	Thursday.. Yom Chamashi.
Monday .... Yom Shani.	Friday .... Yom Shishshi,
Tuesday .... Yom Shalishi.	Saturday .. Yom Shavii, or Sabbath.
Wednesday.. Yom Rabbii, or ravii.	

Since the 15th century the Jews date their years from the creation which they reckon to have occurred 7th Oct. 3761 B. C. The year is luni-solar and consists of twelve months, each of which has 29 or 30 days. To regulate the commencement of their years and their festival days, they first employed a cycle of 84 years, but about A.D. 358 they changed this for the Metonic cycle, which was then adopted by the authority of Rabbi Hillel, prince of the Sanhedrim. The 3rd, 6th, 8th, 11th, 14th, 17th, and 19th in the cycle of 19 years is embolismic, having an additional 6th month—Ve-adar, which is introduced that Passover, the 15th of Nisan, may occur at its proper season, which is the full moon of the Vernal equinox. The ordinary years now consist of 353, 354 or 355 days, and the embolismic of 383, 384, or 385, in order that certain festivals may fall on proper days of the week for their observance.

The Calendar is constructed by assuming a mean lunation to be 29d. 12h. 44m. 3·33s., and that the year commences at the new moon following the autumnal equinox. The cycle of 19 mean solar years is also assumed to be exactly 235 lunations or 6939d. 16h. 33m. 3⅓s., so that the length of the solar year is reckoned at 365d. 5h. 55m. 25·44 s., and thus the commencement will advance from the equinox a day in 218 years.

To avoid certain festivals falling on incompatible days of the week, the new year must begin on the following day if the conjunction happen on a Sunday, Wednesday, or Friday. When the new moon happens after noon the year begins next day, unless that be one of the days just mentioned, when it must be postponed a day more. If in an ordinary year the new moon falls on a Tuesday as late as 9h. 11m. 20s. A.M., the new year is postponed till Thursday; if in a year following an embolismic year the conjunction is on Monday, as late as 3h. 30m. 52s. P.M., the new year is fixed on Tuesday.

The 297th cycle began 1st October 1864, at 8h. 15m. 46⅔s. A.M., Gr. M. T., and consequently the 1st cycle began B.C. 3761, October 7th at 5h. 11m. 33s. A.M.

INTRODUCTION TO THE CALENDAR.

In the following Calendar the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names. January, for example, partakes of the Hindu months (Maru, Gujerat, Deccan, and Konkan), Paush and Magh ; the Malabar, Dhanu and Magaram; the Parsi months (Rasami) Tir and Amardad; (Kadmi) Amardad and Sharivar, and the date of the Naoroz 132 to 162; the Muhammadan months Ramazan and Shawal; and the Jewish months Tebet and Shebat.

In the respective columns the 1st of January corresponds with the 3rd of Paush Vad, Gujerat, Deccan and Concan; 3rd Magh Vad, Maru ; the 19th DHANU, Malabar ; the 12th TIR, Rasami Parsi ; and the 12th AMARDAD, Kadmi Parsi, or the 132nd day of Naoroz; with the 17th *Ramazan*, Muhammadan; and the 18th of TEBET of the Jewish reckoning; and so on throughout the year.

We have also endeavoured to discriminate the Feasts and Festivals of each nation by different sorts of type; the Hindu, for example, we have distinguished by Roman small letters, as Paush Shud; the Malabar and Jewish by Roman capitals, as MAGARAM ; the Parsi by small capitals as AMARDAD; and the Muhammadan by Italic small letters, as *Muharram*.

* According to the Shukh Year. † Samvat commences with Kartik Shud 1st, or Pratipada. ‡ Begins with the Sun's entering Kanya about 15th September. § The year is sidereal and begins 11th April.

INDIAN AND CHRISTIAN ERAS.

Table of the Correspondence of Indian Eras with the Christian Years till the End of the XIXth Century.

For the Bengali San, subtract 515 from the Saka date or 3694 from the Kaliyug (Sidereal) date; it begins on the same day. For the Fasli year of Upper India, subtract 649 from the Samvat date; it begins on the 1st of the lunar Month Aswin. For the Buddhist era of India, Ceylon, Ava, &c. add 486 to the Samvat date; and for the vulgar era of Burmah and Aracan, subtract 695; these are also luni-solar, and though the Nirvana of Buddha is dated on the full moon of Vaisakh, or 1st April B. C. 543, they commence on the same day as the Hindu year.

NATIVE FESTIVALS, FASTS, AND OBSERVANCES.

HINDU FESTIVALS.

THE Hindu festivals are so numerous and the observances of them are so intricate, that it is often bewildering to endeavour to describe them. The writers of the Hindu legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension, and unhesitatingly say that those observances themselves will secure heaven.

MAKAR SANKRANTI.—On this day the sun enters the sign of "Makar,"—a monster having the head and forelegs of an antelope, and the body and tail of a fish—corresponding to Capricorn. It occurs on the 1st of the solar month Magh. Great rejoicings are held among the Hindus, but particularly among the Brahmans, on the feast of Makar Sankrant. From this day when the sun reaches the most southern, till the time of his arriving at the most northern point of the Zodiac, is called Uttarayana, and the time from his leaving the northern sign "Karka" or Cancer, till he again returns to Makar, is called Dakshinayana. The days of Uttarayana are reckoned lucky and those of Dakshinayana unlucky. During the days of Dakshinayana, it is said, the gates of heaven are shut, and in the Uttarayana they are open. For men to die in the Uttarayana is considered more blessed, because they are said to get immediate entrance into heaven; but if the good die in the Dakshinayana, they have to wait outside the gates till the Uttarayana sets in. In Uttarayana, Munj—the ceremony of investing youths with the sacred cord—and marriages are celebrated. On the day of Makar Sankrant, just at the time of the sun's entrance into the sign, the Hindus go to the sea, accompanied by a Brahman priest, to bathe; there they rub their bodies with tila or sesamum seed, the favourite grain of the sun, and wash themselves in the manner prescribed in the Shastra. The Brahman then repeats certain incantations suited to the occasion, and closes the ceremony by receiving adoration and a present of money for himself. On their return home they invite Brahmans, present them with cups of bell-metal, filled with tila seed and with money, according to the ability of the Yajaman or worshipper; some present copper pots, new dhotars, umbrellas, &c., and the whole family receives benediction from them, which is done by the Brahmans repeating certain words and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony they go to take their meals, which consist of sweatmeats. They invite their friends and relations to dinner; and towards evening they wear new clothes, gold and other ornaments, and frequent the houses of their friends and relations, distributing tila seed mixed with sugar. At the time of putting the tila into the parties' hands, they repeat these words: "Receive these tila seeds mixed with sugar, and be friendly with me throughout the year." All the praise and prayers offered this day are to the sun and to no other god. The second day of Sankranti is named Kar, and is generally celebrated by the women making small presents among those of their own sex.—*Vide* 12*th January*.

WASANT PANCHMI, on the 5th of Magha Shud, seems to have been instituted in honour of the spring, which season is personified under the name of Wasanta, who is fabled as attending on Kama, the god of love.—*Vide* 18*th January*.

RATHSAPTAMI (from *Ratha* a car, and *Saptami* 7th day of the month) is the 7th of Magha Shud, and is dedicated to the worship of the sun. This day is the beginning of the Manvantram or period embracing the reign of Manu, of which fourteen govern in succession during each *Kalpa* or grand period of creation and destruction. The present age is the 7th Manvantaram of this Kalpa; and at the commencement of this period a new sun is supposed to have mounted his chariot.—*Vide* 20*th January*.

SIVARATRI.—A celebrated festival in honour of Siva, held on the 14th of the Krishna paksh of Magha, during which the linga or phallus is worshipped. Vad Chaturdasi, or the 29th of every month, is kept sacred by the votaries of Siva, but Magh vad Chaturdasi has obtained the peculiar epithet of Maha Siva Ratri or the great night of Siva. The Hindu legends account for its celebrity among the rest of Siva Ratris in the following manner:—In time immemorial an archer of wicked and licentious habits went into a forest on this day to shoot deer. He spent the day in the pursuit of the game, but on a sudden, night came on, and he was left at the mercy of wild beasts. When he found himself in such a condition, he had

recourse to a Bil or Vilva tree* to secure himself from their attack. Having got into the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: the twigs fell on a Lingam of Siva near the foot of the tree, and Siva was so pleased and satisfied by this accidental worship that he forthwith sent a Vaiman or heavenly chariot, and took the hunter into Kailas, his own abode, with acclamations of joy. To commemorate the entrance of this archer into Kailas, the Hindus observe a feast this day, and worship Siva in hopes of obtaining a like reward. His votaries fast, and at night repair to the temples of Siva accompanied by a Brahman priest, who performs puja by repeating certain incantations; first he pours water over the Lingam and washes it, and then he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Siva's thousand different names are written, and reads the names, and the Yajaman,—the worshipper,—flings a leaf of the *Vilva* or Bil over the top of the Linga at each name. This kind of puja is performed four different times, and thus no sleep is obtained for whole night. This is styled the puja of the four Prahars or watches. It commences at about eight P. M. and ends at five A. M. The pagodas of Siva are thronged by devotees. Some persons engage twelve Brahmans, others four, &c., according to the abilities of the Yajaman, to perform the puja. The Brahmans must be liberally paid for their labours. On this day there is a fair at Elephanta. —*Vide 9th February.*

HOLI or HUTASHANI (Sanscrit—HOLIKHA or PHALGOTSAVA).—This most popular festival, called also Dola or Dolayatra, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian Naoroz. It commences fifteen days before the full moon of Phalgun, on which day the ceremonies are terminated, and is held in honour of Krishna's sportive swinging. It is kept as a complete saturnalia.† Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are insulted by exclamations and jests of the most ribald and impure description, persons are sent on bootless errands, and the dance of drunken devotees in commemoration of Krishna dancing with the Gopias or female cowherds, crowns the scene. The wheaten cake, which is placed on the pile, lighted in every village at the close of the festival, on the 1st of Phalgun vad, is called Poli, and the right of first offering it is considered as an honorary privilege. Neither the origin of this festival, nor the obscene manner in which it is observed in Western India can be described. Nor is the observation of it confined to the lower classes of the native community—the highest join in it with the same zest as the lowest. This festival nominally continues from the new to the full moon: but only a few of the last days are practically and openly devoted to it. From one of the names of the month in which it occurs it is often called Shimga.—*Vide 26th February.*

THE HINDU NEW YEAR (the first day, called *Guddi Padvo*, or 'the flying of paper kites') is held on the new moon, 1st of Chaitra shud. On the morning of this day a Hindu first rubs oil on his body and then bathes himself in warm water. A pole bearing a flag and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must be erected by each family to represent the banner of Indra, the king of the gods, which, on this day, is also said to be raised in honour of him by the gods. What is done on earth is therefore in imitation of what is imagined to take place in the heaven of Indra. The leaves of the bitter Limb tree (*Melia Azadirachta*) are then to be eaten, which is supposed to secure health to the body, because this tree is the offspring of the ambrosia of the gods. The Almanack for the New Year is next to be worshipped and its predictions in regard to the year just commencing are to be heard from the Jyotishis. They tell whether there is to be abundance or scarcity of rain, whether there will be unusual heat or cold, whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. All this important information is not, of course, to be obtained without compensation. And not only are presents to be given to the Jyotishis, but the poor people are taught on this day to extend their liberality also to the Gurus and Brahmans. The day is to be celebrated by fasting. This is considered an auspicious day for commencing a building, or engaging in any new undertaking.—*Vide 14th March.*

RAM NAVAMI from *Ram* the 7th incarnation of Vishnu, and *Navami*, the 9th day of the month).—On this day it is said Ramchandra, the 7th incarnation of Vishnu, was born at "Ayodhya" or Oudh, about B. C. 1400. It is celebrated from the 1st of Chaitra

Shud to the 9th. The object of the incarnation, it is said, was to effect the destruction of Rawan, the ten-headed tyrant of Lanka or Ceylon, which was at last done with the assistance of Hanuman, the chief of the monkey tribe. On the first day the temples of Rama are whitewashed and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the "Ramayana" or legendary history of Rama, is read in the temples and in the night "Kirtan" is preached by the "Haridas," who describes the so-called morality and heroic actions of Rama. The red powder called *gulal* (composed of barley meal or rice paste, or the *trapa natans*, dyed with *bakam* or sappan wood) is thrown about. Naches are not omitted during the nights. In some temples Brahmans are fed with rich and substantial dinners for eight successive days; these days are called Rama Navaratra, or nine nights of Rama. Many Hindus, both males and females, go to the temples of Rama to hear the Kirtan and Puranas. The last or principal day is Ramnavmi, when, it is said, Rama became incarnate at noon. In honour of this incarnation some Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about nine o'clock. Every temple of Rama is well furnished on this day and the images are decorated with precious ornaments and rich brocade. A Haridas is engaged to describe the birth and circumstances that attended his incarnation. He continues his discourse till twelve o'clock, when he brings a small image of Rama, nicely ornamented and well clad, and shows it to his audience, telling them that it is Rama who became incarnate; he then puts it into a small cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is the rejoicing and acclamation on this occasion; they fling gulal on each other and with great mirth at about one o'clock they go home, again to return to the temples in the evening. The feast of Ramnavmi is more particularly observed by the votaries of Vishnu.—*Vide* 22*nd March.*

VADA SAVITRI (SAVITRI VRATA)—A fast observed by women who, on the 15th of Jyeshth Shud, worship the Indian fig tree, to preserve them from widowhood.—*Vide* 24*th June.*

ASHADI EKADASI is the eleventh of the light or shudi half of the month Ashad, and is dedicated to Vishnu. On this day, which refers to the summer solstice, commences the night of the god, during which the deity reposes for four months on the serpent Shesha.—*Vide* 19*th July.*

NAG PANCHAMI is sacred to certain demi-gods called *Nagas*, in the form of serpents, and is celebrated on the 5th of Sravan Shud. Ceremonies are performed on this day to ensure protection against the bites of snakes. The serpent Kali, said to have been slain by Krishna, is worshipped at the festival.—*Vide* 12*th August.*

SHRAVAN or (NARIYAL) PURNIMA.—On this day the stormy part of the rainy season is considered to be at an end and cocoanuts are offered to the sea to gain its favour towards those who now begin to trust themselves to its mercy. It is held on the 15th Shravan Shukla.—*Vide* 21*st August.*

JANMA or GOKAL ASHTAMI (from *Janma* birth, *Ashtami* 8th day of the month).—Instituted in commemoration of the birth of Krishna, which is said to have taken place at midnight in the city of Mathura on the 8th of Shravan Krishna. Krishna is reckoned the eighth incarnation of Vishnu, in which, according to a large sect of Hindus, was manifested a greater portion of divinity than in any of the preceding ones. His mother's uncle Kans, King of Mathura, who, it was predicted by Narada, would be slain by one of his own family, endeavoured to ensure the destruction of the infant god by placing guards over his pregnant niece Devaki; but the child was preserved from this and other attempts of his relations who had given directions for the slaughtering of all newly-born infants. This holiday is considered one of the greatest among the Hindus, and is observed by almost all the community; there are two sects among the followers of Krishna, and they solemnise the feast on different days. Those belonging to the one keep the eighth day of the dark moon, and those belonging to the other, the day following—being the one on which he was removed to the house of Nanda the cowherd in Gokal or Vraja, from fear of his maternal uncle, who sought his destruction; and some even keep both days. The former fast on the day of Janma Ashtami, and the latter on the day of Gokal Ashtami. Whichever day is kept, they fast the whole day, that is abstain from their usual food, but they may eat Phalahar, consisting of fruits and certain kinds of grain—rice and other grain being prohibited on this day. At night they bathe, and worship an image of the infant Krishna, adorning it with tulsi, (*Ocymum Sanctum*,) a favourite plant of Vishnu's, and other flowers, in the manner enjoined in the Shastra; and at about ten or eleven P M. they eat their food. Next day a Brahman is called in to perform the puja, and afterwards he himself is worshipped and sent away loaded with dakshina and other

presents. The holiday is thus observed among the people of the higher castes. On the day of Gokal Ashtami gavalis (or keepers of cattle) hold a great jubilee among themselves, as Krishna is said to have been bred up among their race. They join themselves into a company, and frequent the houses of the people who follow their profession, holding each other's hands and dancing in the street, repeating the words, "Govinda, Govinda," when they are honoured either by throwing over them curds or presenting them with curds. These people are called Gopals—protectors of cows. On the night of Janma Ashtami, crowds of people, generally of the lower ranks, flock to the temple of Kanhoba, which is commonly known by the name of Matth. There they hire native music and continue shouting and making a great noise. The Bhagat of Kanhoba, or the head of the temple, who is very often of the Shudra caste, and who is considered a supernatural being, at least at the time, with great solemnity and grave countenance, makes his way through the assembly accompanied by the playing of tom-toms and acclamations of joy from his disciples, and standing before the shrine of Kanhoba, offers prayers to the idol which is richly decorated on the occasion. He is at first calm, but shortly affects to show signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his body into violent contortions, dancing and muttering strange ambiguous and wild sounds. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him thus, than believing that the spirit of the god has entered into him, they burn incense before him and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat, but does not cease quaking and trembling. His disciples, who are always near him, then commence one after another to shake themselves and dance in the same way, and the spirit of the god is believed to enter them also. This day the great Bhagat can create new disciples and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons supposed to be possessed of devils, children, &c., are brought to the temple to receive the benediction of the Bhagat and his disciples; he rubs ashes on their foreheads, passes his hand over their heads, and gives them full assurance of speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the Bhagat's promise. The Bhagat receives large presents on this occasion from his followers. He is held in great respect among the orthodox Hindus and even among people of other tribes. On the following morning the Bhagat collects his disciples in front of the temple and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies; then they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The Bhagat, in the mean time, with a scourge in his hand, and with all pretended dignity, stands in the midst, and looking in all directions in feigned solemnity, he lifts up his scourge, and putting it round the neck of one of his disciples as a token of his regard, draws him towards himself, when the disciple trembles a little, and then stands still, stretching his hands towards the sky, with his eyes closed. No sooner does he do so than the Bhagat scourges him two or three times so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated with the whole body of his disciples, and when he ceases, sweetmeats are distributed among the disciples and to the spectators. This terminates the feast of Gokal Ashtami among the people of the Shudra caste.—*Vide 30th August.*

PITHURI or PRACHI AMAVASYA (*Prachi* eastern, and *Amavasya*, produced in the new moon) is a festival observed at the new moon of the month Shravan, at which the 64 Yoginis or female attendants of the goddess Durga are worshipped, particularly by women, with the hope of obtaining issue. The 30th day of Shravan or the last day of the dark half of the moon is termed "Prachi Amas." Prachi is commonly known among the people of the Konkan and Deccan by the name of Pethuri. Wealthy Banias and other people of Gujerat go to Walkeshwar, in Bombay, on the previous evening, with their families, to remain in the Dharamsala during the night, and next morning bathe in the tank called by the natives Ban-ganga, i. e. the Ganges produced by an arrow. They say when Rama visited this place, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence. On the margin of the tank they perform *Shradhas* or ceremonies for procuring the deliverance of their departed ancestors from the thraldom of Yama, the king of the infernal regions,—if they still remain at his court or in his dominions. They afterwards repair to the temple of Walkeshwar and worship his

image, and then take their meals. The remaining part of the day is spent in amusements but particularly gambling. Booths are erected in the locality of the temple and furnished with all kinds of articles that please the fancy or delight the taste. Many Hindus on this occasion squander hundreds of rupees in hiring vehicles and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Deccan. It is kept up chiefly by those women who lose their children in infancy. They fast on this day, and worship an image of Pethuri, adorning it with various kinds of fruits and flowers through the medium of a Brahman priest.—*Vide 5th and 6th September.*

GANESH CHATURTHI or CHAUTH.—On this day was born Ganpati, or Ganesh, who is regarded as the god of wisdom who removes obstacles, and is invoked at the commencement of all undertakings. The manner of his birth is differently told; one story relates that as the god Kartikvirya was created by Siva without connubial assistance, in like manner Ganpati was formed by his consort Parvati from the turmeric and oil scraped from her body while bathing. The loss of his human head and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Siva, when he endeavored to prevent the god from entering the chamber of Parvati when performing her ablutions. According to others it was reduced to ashes by a glance from the eyes of Shani, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of this deity are formed, and after having been worshipped mostly for two days, or for nine or ten days, are thrown into the water. The Chinchore or Chinchwad (properly Deo) man-god who resides at the village of that name near Poona is supposed to be an incarnation of this god, who granted to a holy Gosain or ascetic named Moroba, who lived in the time of Sivajee and had won his favour, that he would continue in human shape in his family for seven generations; and though Dharmadhar, the 7th in descent from Moroba, died without issue, the deceit is perpetuated by the Brahmans from self-interest.* It is commonly said among the Hindus, that the Shastra enjoins on its followers the worship of Mrittika (earth) in the following forms, three times a year: The first of them is Nagpanchmi, on which day a snake of clay is made and worshipped; the second is Gokal Ashtami, when a clay image of the infant Krishna is made and worshipped; and the third and last is Ganesh Chaturthi, on which day a clay image of Ganesh is worshipped. This being the last day of the worship of Mrittika, it is observed with greater pomp and more ceremonies, conviviality, and music, than the other two. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being Ganpati's favourite vehicle, is sometimes placed beside his image, richly saddled and bridled. The image of Ganpati is either made in the house or purchased from an artist; it is gilt with the finest gold and painted with superior and variegated colours; and much labour and ingenuity are bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of Bhadrapad shud is the period appointed for the celebration of this feast in honour of his birth. On the previous day the worshipper cleans and whitewashes his house and furnishes it with all sorts of costly furniture that he can procure. The profusion of light is the first thing that would attract the eye. On the following morning, i. e. on the day of Ganesh Chaturthi, they bring the image home (if it is bought) with great display, accompanied by native music, and with all the honours of a god. A place where his godship is to be seated is prepared, either in the form of a covered shrine or open space which is adorned with fruits and flowers strewed round it, and twigs of trees hung over it in clusters; after which commences the business of the officiating priest. He sits near the master of the house and begins consecrating the idol by reciting incantations or mantras from his book and throwing over it red coloured rice; after performing many consecrative ceremonies, he pretends to bring the god into the image. Being installed, the devotee places before him Naivedya (food), which consists of sweetmeats, and invokes the god to partake of the offering. Afterwards he falls before him and prays him to be gracious to him and his family. By the generality of the people, Ganpati is kept one day and a half; but by some five or ten days according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his exploits by a Haridas in his presence, at which friends and relatives are invited to attend. A large party of Brahmans are entertained at a sumptuous dinner in honour of Ganesh, and then dismissed with the usual dakshina. On the last day preparations for his departure are made. Evening is the time appointed for parting, when the master of

the house performs Uttarpuja through the priest, who takes away the pretended divinity with which the image was invested by repeating certain mantras; flowers, fruits and sweetmeats are offered to the idol; *arti*, that is, lighted wicks, are moved before him, accompanied with music and hymns; and he is invoked to bless the owner and his family and remove any calamity that may befall them throughout the year. Afterwards the Brahmans are presented with dakshina, and the image is seated in a palanquin, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or a tank in a procession which consists of the master of the house, his children, and relatives, attired for the occasion. When they reach the place, they take out the image and commit it to the water, with expressions of regret for its absence till next year. There is a legend, that one day Ganpati, while riding on his favourite Mouse, had a fall, at which the Moon laughed. Enraged at such an insult the god of prudence cursed the moon and all who should look at her: but afterwards amended the matter by restricting any from looking at her on his birthday. Thus, on the day of Ganesh Chaturthi, the Hindus are prohibited by the Shastra from looking at the moon, and are afraid to look at it this evening, for fear of incurring any calamity during the year; and if by any accident they happen to see it, they try to provoke their neighbours to revile them and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse and removed by it.—*Vide 9th September.*

RISHI PANCHAMI.—The day following Ganesh Chaturthi is observed in honor of the seven Rishis or sages, who are supposed to be the seven bright stars in the Great Bear. It is especially observed by females who are strictly prohibited from eating anything but articles produced by manual labour.—*Vide 10th September.*

GAURI-VAHAN (*Gauri* a virgin, one of the names of the goddess Parvati). This festival occurs two days after the last, or on the 7th Bhadrapad. Parvati, the wife of Siva, is worshipped as a tender maiden. It is specially observed by females. Cakes are made in the shape of pebbles, and eaten at night. Servants keep it with songs which they rehearse at night two months before the holiday. It lasts for three days.—*Vide 11th September.*

WAMAN DWADASI (from *Waman*, a dwarf, *Duadasi*, 12th day of the Paksh) is a festival held on the 12th of Bhadrapad Shud in commemoration of the 5th incarnation of Vishnu, in the shape of a dwarf, to prevent Bali from obtaining dominion over the three worlds through the effects of his religious austerities. Bali promised the dwarf, at his own request, to grant him as much land as he could compass at three steps. On the ratification of this promise, the first two strides of the incarnate deity are said to have embraced the heaven and the earth: there being now no place for him to put down his foot for the third time, Bali magnanimously told him to put it on his head, which the dwarf having done, crushed him down to Patal, the dominion of which was conceded to the monarch.—*Vide 17th September.*

ANANT CHATURDASI—Is kept on the 14th of Bhadrapad shud in honor of the god Anant. An Anant Dora, as it is called, made of gold lace and silk so formed as to be tied round the elbow, is bought and worshipped. It is not much observed.—*Vide 19th September.*

PITRA PAKSH.—(*Pitra*, paternal ancestors.)—The Krishna Paksh of the lunar month Bhadrapad or the last day of it or new moon of Aswin is sacred to the Pitras, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which are considered particularly proper during this season. Offerings of fire and water are made to the manes.—*Vide 5th October.*

DASARA.—(*Dashan*, ten.)—This festival is held on the 10th of Aswin Shud. It is called Durga Puja or Durgaochchawa, and is supposed to relate to the autumnal equinox. On this day, in commemoration of the victory of Devi, the wife of Siva, over the buffalo-headed demon Maheshasur,—her image, after having been worshipped for nine days, is thrown into the water. On this day also Rama marched against Ravana, the demon king of Ceylon, on which account the Marathas seem to have selected it as a proper period for commencing their plundering excursions. Early in the morning the Hindus having washed themselves perform the Puja of their household gods in conjunction with that of all their shastrical granths or religious books. Marathas and Kshatriyas, or those who consider themselves of the military race, worship the implements of war and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. At noon they take dinner in company with their relatives. In the afternoon they go to the temples in procession, with friends, relatives and children. Mammadevi and Bhuleshwar are the principal scenes. Both of these places are thronged by Hindus, bearing each in his hand flowers and a branch of the *Apta* or *Palas* tree (*Butea Frondosa*), which is regarded as representing *sona* (gold), and is held highly sacred and indispens-

able in commemorating this day. On entering the temple they offer the *sona* and flowers to the image, accompanied with a prayer, they also give dakshina to th Brahmans. On returning home, they visit their friends and relatives, present them with a leaf or two of the imaginary gold, concluding with an embrace, and receive similar treatment in return. The vicinity or front of the temples are surrounded by the vendors of *sona* who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindus most auspicious for sending their children to school. The nine preceding days of the Dasara are called *navratra*, a compound word for nine nights. During these days, the devotees of Durga engage a Brahman to read hymns before her, in which her exploits are extolled and her rewards to her votaries described. On the ninth day, at every temple of Durga, Havan or sacred fire is created, and fed with rice and clarified butter, and adored by repeating certain mantras. It is customary among the Bania women to keep up a dance during these nine nights, called Garba, which is accompanied with religious songs. The celebration of the Dasara is also said to owe its traditional origin to the Pandavas—the five sons of Pandu having selected this day, after completing their exile of twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins the Kauravas, of which the Mahabharat gives an account, occupying the whole volume. The Hindus decorate their horses with flowers this day, putting garlands of flowers round their necks. It is said that Parth, the most invincible of the five Pandavas, who had a peculiar fondness for horses and pre-eminent skill in the art of chariot-fighting, and from their being great auxiliaries in the matters of battle, washed his favourite milk-white horses, put garlands of flowers round their necks, and patted them with his own hand in token of fondness and approbation. Owing to this legend it seems the decorating of horses with flowers on this day is observed.—*Vide 15th October.*

DEWALI (*Dipa* a lamp, and *Ali* a row), "the feast of lamps," is a festival on the new moon of *Kartik* celebrated in honor of the goddess Kali, or Bhawani, who was formerly propitiated by human sacrifices, and of Vishnu's victory over the demon Taraki. The festival, however, seems to be more peculiarly consecrated to Lakshmi, or the goddess of prosperity. The feast begins on the 13th day of Aswin vad termed Dhanatryodasi (from *Dhan* wealth, *Tryodasi* 13th,) and saukars now count their stores and perform puja to their wealth. It is celebrated for a period of five days, during which houses are cleaned, whitewashed, and illuminated; a quadrangular floor called Ranguli is made in front of the house and painted with different coloured powders. Gambling is vigorously carried on and is the chief recreation of the feast. All the treasure in the house is collected and worshipped under the name of Lakshmi, the goddess of wealth; a light is made and dedicated to Yama, the god of the infernal regions, and every preparation made for the succeeding morning. Fire-works, crackers, spouters, &c. are displayed. The 14th is Nark Chaturdasi (*Nark* hell, *Chaturdasi*, 14th) on which Vishnu is fabled to have killed Narkasur, a giant, and entered his city early in the morning, when the people illuminated the city and received him with great joy and acclamation; and the women having adorned themselves went before him with lighted lamps. The Hindus keep this day to commemorate this great conquest. They get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed, new clothes and ornaments are put on, and the children are decorated. When this is done, the mistress of the house performs a sort of ceremony called *Arti*—placing wicks either in silver or brass dishes, symbolical of the removal of all their difficulties and of a happy year—when each male member makes her a present of money; sweetmeats are distributed and friends are invited to dinner. The 30th, Amavasya or the last day of the moon, is the day of Sarasvati, the goddess of learning, the same as Lakshmi, the goddess of wealth. It is known by the name of Vadhipujan, or the worship of the shops. This day the Vikramaditya Samvat year ends. All the merchants close their accounts this evening. New journals, ledgers, and day-books are brought and worshipped through a Brahman priest; new entries are made in the account books; writers are sent to different shops with money to credit in their names on this auspicious evening: Sarasvati is invoked to render the subsequent year prosperous and to be with them throughout it; then the Brahmans are sufficiently paid for their labours and the servants receive a present of money according to their rank. This day is celebrated by all classes of people—Banias, Parsis, Muhammadans, &c.—*Vide 2nd and 3rd November.*

BALI PRATIPADA.—The first day of Kartik Shud is Baliraj, the day of king Bali. On it Bali was sent to Patal or the lower regions, by Vishnu, for his great merit. The Hindus rise very early in the morning, prepare lights, clean their houses, wash their bodies, and fill a basket with all the rags and rubbish in the house, put a lighted lamp over it, and throw it outside of the house, repeating the words—"Let all misery and

troubles go, and the kingdom of Bali come." After ablution, the women make an image of Bali Raja and worship it; and presents are given to the Brahmans and other mendicants. *Vide 4th November.*

BHAU BIJA.—The 2nd day of Kartik Shud is Yama Dwitiya, which is commonly known by the name of Bhaubij. This day it is said Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of money or gold ornaments, and thus please the king who, they imagine, will save them from the punishment of their sins.—*Vide 5th November.*

KARTIK EKADASI—Is the eleventh day (in some years the twelfth) of the light half of the month Kartik, and is celebrated in honour of Vishnu. On this day the god is supposed to rise from his slumber of four months—a fable which has reference to the sun being at the winter solstice.—*Vide 15th November.*

KARTIK PURNIMA—Is the full moon of the month Kartik. On the fifteenth of this month as well as of Magh, Ashad, and Vaishakh, which days are called "Dhanumasya Kuru," gifts to Brahmans are considered indispensably necessary. Siva is said to have gained his victory at this season over the monster "Tripurasura,"—"the demon of the three cities." This demon is said to have become so powerful that he defeated almost all the gods and drove them out of their habitations, when they went to Kailas, the abode of Siva, and represented to him their grievances. Siva assured them that the evil would soon be removed and sent them back to their homes. He made a car of the earth, the wheels of which were the sun and the moon; Brahma was chosen his charioteer, the mountain Himalaya formed his bow, and Wasuki, the king-serpent, his bowstring; Vishnu himself became his quiver. Thus equipped, Siva rode out and, after a struggle, destroyed the mighty giant. To perpetuate the memory of this event, the Hindu women get up in the morning about two o'clock, wash themselves in cold water, repair to the temple of Siva, and worship his image. Afterwards they return home and present a Brahman with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and dakshina—a present in hard cash; this is called Dipdan or present of a lamp. On the evening an illumination is made in the temples of Siva, and a pillar of stone is built in front of each of them for this special occasion. A great fair is held in Bombay at Walkeshwur and kept for three days. The Hindus, both the rich and poor, Brahmans and Shudras, go there and worship the image of Siva, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days in the Dharmshala, or inns built by them, but the poor return the same evening. During these days hundreds of rupees are uselessly spent in hiring conveyances and purchasing sweetmeats and toys.—*Vide 19th November.*

CHAMPA SHASTI—Is held sacred to Khandoba on the 6th of Margasirsh Shud. Fairs are held wherever there is a shrine of that idol. At Jijooree in the Deccan, between Saswad (Sassoor) and Satara, a great meeting from distant places annually takes place, where hook-swinging used to be practised. *Bhandar*, a mixture of powdered turmeric and another substance, and *Champa* flowers are held sacred on this day. Pretended exorcists keep shouting "Elkot," and give *bhandar*, as of supernatural efficacy, to their followers. The devotees of Khandoba are prevented from eating brinjals previous to this day.—*Vide 9th December.*

DATTA JAYANTI—Is held as the anniversary of the birth of Datta on the 14th of Margasirsh Shud. At night a Haridas preaches kirtan, narrating the traditional circumstances of the birth of his godship.—*Vide 14th December.*

HINDU BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shastras to be observed at the period of conception, and in the different stages of pregnancy. "Jat-Karan" is to be performed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel-string. When a father first sees his son he is required to take a piece of gold in his hand, offer a sacrifice to Brahma, and smear the forehead of the child with the *ghi* left on his fingers on finishing the sacrifice. A string of 7 or 9 threads and 5 blades of *Durba* grass is to be bound by the father round the child's wrist. Other rites are to be observed on naming the child twelve days after birth, on bringing him outside the house when three months old—on feeding him with the hand at six months—and if a male, on shaving his head at the age of three years.

HINDU MARRIAGE CEREMONIES.

Among the Brahmans the male may be married at any time after the "Munj" or investiture with the sacred thread, which is done within the age of eight years, and

among other castes at any age. The female should not be ten years old and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shastras mention eight kinds of marriage, but only one is observed by the higher castes, named "Bramha," when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmans are the *Lagnapatrika* or writing by the Joshi or Astrologer of the names of the parties and the day and hour at which the wedding is to take place, the *Saptapadi* or walking round a fire three times, at each time seven steps, and tying together the garments of the parties, and the "*hom*" or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctions of the planets are prescribed for the celebration of marriages in different castes; as also the same castes in different provinces have their peculiar ceremonies. *Phallasambandh* is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

HINDU DEATH CEREMONIES.

On the death of a man the performance of his funeral obsequies (*Kriyas*) and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing "Sradh" are eleven days after death; secondly, every month; and thirdly, on the anniversary of the death. Brahmans are unclean only for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen —but Shudras for thirty. Among the Hindus, generally, the body of the deceased is burnt, but that of an infant under two years of age is buried. The "Sradh" consists in the offering of rice, flowers, water, &c. to the deceased and to his manes, in order to enable his soul to ascend to the heaven of the Pitras, or great progenitors of the human race.

MUHAMMADAN FESTIVALS.

MUHARRAM.—(Ar. *Muharram*, most sacred).—A celebrated mourning held annually in remembrance of the first alleged martyrs of the Shiah Musalmans—Hasan and Husain, from whom the whole race of Sayids are descended. Hasan and Husain were the two sons of Ali, the cousin, and Fatima, the daughter of Muhammad; and after the murder of their father A. H. 40 by the contrivances of the Kaliph Yazid, the son of Muawiah, they with their families removed from Shawn, or Kufa, the capital, to Medina. The elder Hasan was poisoned by an emissary of the usurping Kaliph A. H. 49; and after several years, the people of Shawn, being tired of king Yazid's tyrannical rule, invited Husain to return to the capital and assume his lawful right as Imam (leader of the faithful). Before accepting this invitation, Husain sent Moslem, his cousin, as a messenger, to report the true state of affairs to him; but on his arrival with his two sons at Shawn he was murdered with all his retinue at Karbala in Turkish Arabia on the 10th day of the Arab month Muharram A. H. 61 (9th October A. D. 680). Zain-ul-Abidin, the eldest son of Husain, alone escaped. This forms the subject of the ten days' wailing during the Muharram. The Muhammadans are divided into two distinct sects, called the Shiahs and the Sunnis. The former regard Ali and his descendants Hasan, Husain, Zain-ul Abidin, Muhammad Bauker, Jafar Sidak, and Ismail-bin-Jafar-Sidak, as the lawful leaders after Muhammad; and the latter the Kaliphas, as Abubakr, Omar, Osman, &c.,—hence quarrels, animosities, and dislikes are hoarded up to be avenged during the Muharram. The festival begins when the new moon of the first month (Muharram) becomes visible. Including the *Ziyarat*, or "visiting the grave," it lasts till the 12th; but the fast is only for 10 days, and is hence called *Ashura*, from the Arabic word signifying ten. Houses are appropriated for the mourning ceremonies, and called, *Ashur Khana* 'ten day house'—*Taziya Khana*, 'house of lamentation,'—and *Astana*, threshold or *fakir's residence.* The mourning assemblies of the rich are held morning and evening in the Imambaras during the Muharram, when the head priest or preacher recites a subject for each day's service, from the various books descriptive of the life and sufferings of Hasan and Husain. The Marsiah, a poetical composition embracing the whole of the subject commemorated, is chaunted; the names of their lawful leaders are recounted with blessings, and that of the usurpers, the Kaliphas, with curses. Taziyas (a term signifying grief, applied to a representation of the mausoleum erected over the remains of Imam Husain at Karbala,) made of ivory, ebony, sandal-wood, cedar, and sometimes wrought in silver filigree,—and indeed of

every variety of material. from pure silver to bamboo and paper, according to the rank and wealth of the party,—are exhibited and conveyed in procession through the streets. The moment the new moon is seen a spade is struck into the earth; this is called *kodali marna*, and at this spot a pit is dug two or three days afterwards, in which a bonfire, called *allawa*, is kindled. At night men dance round the fires, fencing with swords, and springing through the flames, crying Ya Ali! Shah Hasan! Shah Husain! Dulha! "bridegroom," &c.

On the night of the 7th a representation of *Burak*, the horse or mule on which Muhammad is said to have ascended to heaven, is brought out. On the 10th the bier called *tabut* or *taziya* is carried in procession. Before this incense is burned and other rites are performed. The Tabuts, it is said, are peculiar to India. They are not built by the inhabitants of Persia and Arabia. Many Muhammadans regard them with strong disapprobation but in Bombay the larger portion of them unite in building Tabuts. These are taken out, and, accompanied with music, carried in procession through the Bhendi Bazar from midnight of the ninth until three o'clock of the morning of the tenth day, and again from two till six o'clock on the afternoon of the same day, on their way to the beach in Back Bay, where the greater part of the Tabuts, after being stripped of whatever is of value, are cast into sea. The Indian Shiah Muhammadans who do not unite in building the Tabuts are accustomed to go on this occasion to the mosks for five successive evenings to listen to the account of the death of Husain. On the morning of the 10th of Muharram they resort to the open court of the Imambara. A *Mulla* reads the story of the martyrdom and as he becomes eloquent the auditors beat their bared breasts and weep aloud, every now and then giving utterance to cries of lamentation—"Wai! Wai! Husain kush ta shud!" A kind of ring is meanwhile cleared among the devotees, for the passage of a procession; and then amid intense excitement three horses are led in. Little children representing the children of Husain, with blood-stained clothes, are mounted on these horses, surrounded by large numbers of mourners, wailing and chanting, and as the procession moves forward, headed by six banners—among which is the green standard of Ali,—the riders of the horses throw ashes over their heads. A figure borne on a bier, representing the decapitated body of Husain, covered with blood and wounds, is brought in, from which broken arrows stick out, with a white dove hovering above it. The profoundest grief is now exhibited by the spectators. Walking round and round the ring, the mourners now and again form circular groups of a dozen or twenty, and bending inwards to the ground, beat their breasts, crying "Wai! Wai! Husain!" Their demonstrations of grief, however, are not equal to those of the Moghuls and Persians, who while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Musjid in Mirza Muhammad Ali Khan street. Some two or three horsemen, bearing flags, enter the large yard adjoining the Imambara with loud wailings, and are followed by two horses caparisoned, to represent those which were for the use of the fallen Husain. One person on horseback, with a long sword apparently run through the head, and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut straw upon her head, in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying "Hai Hasan! Hai Husain!" This festival is with the Sunnis a mere farce. Before the martyrdom of Hasan and Husain this fast was observed as a feast and is still reckoned one of the lesser *'Ids.—Vide 13th to 23rd April.*

Akhiri Chahar Shambah.—A lesser *'Id* or festival held on the last Wednesday of *Safar* on account of Muhammad having, it is said, recovered a little on this day during his last illness, and taken a bath for the last time. It is usual to write out seven benedictions, wash off the writing while the ink is fresh and drink it. It is proper to bathe, put on new clothes, prepare sweetmeats, walk in gardens, and repeat prayers on this day. —*Vide 6th June.*

Bari Wafat.—(Urd. *bari*, great, Ar. *wafat* death.)—A fast held on the 13th of *Rabi-ul-awal*, in memory of the death of Muhammad A. H. 11. The *Kadam-i-rasul*, (Prophet's foot) the impression of a foot on stone, or the *mu-i-mubarak* (the sacred hair of Muhammad) is brought forth and honored. On the nights of the 11th and 12th processions take place.—*Vide 23rd June.*

Pir-i-dastgir.—Is a festival held on the 11th of *Rabiu's sani* in honour of Sayid Abdul Kadir Ghilani or Pir Piran, a celebrated saint who has 96 names. He was a Sufi doctor, born in Ghilan, who taught at Bagdad, where his tomb is still revered as sacred. Sadi, who studied under him, mentions him in his Gulistan. On this day and during the ravages of cholera or any plague it is customary to carry a large green

flag in his name. Vows are made to him for offspring. His sister's son Sayid Ahmad Kabir is the patron of the remarkable religious mendicants called *Gurzmar*.—*Vide* 20*th July*.

CHIRAGAN-I ZINDAH SHAH MADAR.—A festival held on the 17th of *Jumadi-al-awal* in honor of Badi-ud-din, a Syrian saint who is said to have dwelt at Makkhanpur in Oudh, and to have lived to a great age, or to be yet alive, whence he is styled *Zindah*, living. A fair that lasts 17 days is held at his tomb or cenotaph, which is visited annually by about a million of pilgrims. *Dam Madar*, "the breath of Madar," is supposed to be a charm against snakebites, the violence of fire, and all other evils. His flag is black, and black cows are sacrificed in his name.—*Vide* 25*th August*.

URS-I KADIR WALI.—A festival in honour of *Khwajah Mu'in-ud-din Chishti, or Kadir Wali*, is held on the 11th of Jumada'l-akhir. This Sunni Saint was born in Sijistan A.H.527, and came to Ajmeer in the reign of Kutb-ud-din Ibak (A.H. 602-607), where he married the daughter of Sayid Husain Mashhadi though a Shiah. A magnificent mosque was built by the Emperor Jehangir, A.H. 1027, near his tomb at Ajmeer, where he died A.H. 628. He has also a shrine at Nagar near Nagapatnam. He is held in special reverence by the Mapillas.—*Vide* 18*th September*.

MIRAJ-I MUHAMMAD in commemoration of the alleged ascension of Muhammad when the Angel Gabriel mounted him on Burak and conveyed him to heaven. The ascent is referred to in the 17th Sura of the Koran. It is held on the 27th of Rajab, though Katib al Wakidi says the Miraj happened on the 17th Ramazan.—*Vide* 2*nd November*.

SHAB-I BARAT or 'Night of Record' is one of the three lesser *'Ids*, and is held on the 16th Shaban, when, they say, the actions of men for the ensuing year are recorded. It is passed in mirth with illuminations and fireworks. The whole night should be spent in reading the Koran and a fast observed next day.—*Vide* 21*st November*.

RAMAZAN-KA-ROZAH.—This Muhammadan fast commences from the morning after the new moon of Ramazan is first observed, and is kept each day throughout the month of this name, from 4 A.M., or when the first streak of light borders the eastern horizon, till the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not a single drop of water, or any other liquid, should pass the lips. Each day during the fast is passed in occasional prayers, besides the usual *namaz*, and in reading the Koran or the lives of the prophets. The fast is first broken by a cooling draught called Dandhi, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber, and melon, with coriander, well pounded, and afterwards diluted with cold water; rose water, sugar, syrup of pomegranate, and kurat, are also added; the whole preparation is made in the zenana, and then drunk by basinsful by all true Rozedhars. Plain boiled rice, with dhi (sour curd) and sugar, forms the first morning's repast of the *'Id*; and dried dates are eaten with it in remembrance of the prophet's family, whose greatest luxury was supposed to be the dates of Arabia. On the 20th or 21st the Shiahs celebrate the night of Ali, the nephew and adopted son of Muhammad, who is said to have died on one of these two nights. They perambulate the streets carrying a *tabut* and beating their breasts. The night of the 27th is called *Lailat-ul Kadir*, 'or night of power,' because it is said the Koran descended from heaven on that night. It should be observed as a vigil. On this night the Ghair Mahdis or the Pathan sect who assert that the 12th Imam, Mahdi, has come and gone, used to have encounters with the Sunnis and Shiahs, and those killed were supposed to be rewarded as martyrs—*Vide* 5*th December and* 10*th January*.

'ID-UL-FITR.—"The festival of breaking fast," called also *Ramazan-ki-'Id*, and "the feast of alms" is celebrated on the 1st Shawal. On this day Muhammadans are required to bathe, put on new clothes, apply antimony to the eyes, and perfume themselves; then to distribute the *fitr* or *sadkah*, which is 2½ sers of wheat, dates, or any grain used for food, given to the poor or religious mendicants. All then proceed to the *'Idgah* repeating "God is great. There is no God but God." The mulla ascends the *mimbar* or pulpit, and after a short thanksgiving reads the *Khutbah* or Friday sermon. He then descends to the lowest step (which with the Shiahs is the third, but the fourth with the Sunnis) and recounts the virtues of the king and prays for him. Then a general prayer is made, and the congregation rise with a shout of *Din!*—"Faith!" and fire off muskets. The evening is spent in rejoicing and merriment. In every house the same dainties are provided, every amusement that can be thought of is indulged in; the nach women in the apartments of the men, and the *domini*, a class of singers who exhibit before females only, in those of the women, are in great request on the last day of Ramazan, when the matron of the mansion sits in state to receive nazars from inferiors, and to grant favours to others.—*Vide* 15*th and* 16*th January*.

CHARAGHAN-I BANDAH NAWAZ—A festival on the 16th of *Zil Kadah*, is held in honor of a saint called Bundah Nawaz, "the slave-cherisher," and "Gizu daraz," "the long ringletted," whose shrine is at Gulburga in the Nizam's territories.—*Vide 28th February.*

BAKARI 'ID or 'ID-I KURBAN.—(Ar. *Bakar* a bull, *Kurban* a sacrifice.) This is a feast held on the 10th Zil-Hijjah in honor, it is said, of Abraham's intending to offer up Ismail, who, they aver, was chosen as the offering to the Almighty, and not Ishak, grounding their assertions on traditions which they deem conclusive evidence on the subject. The offering thus made is annually commemorated by the sacrifice of animals, such as camels, cows. sheep, goats, kids, or lambs according to each person's means, which answer the double purpose of honoring the memory of Abraham and Ishmael and also of assisting as a meal. The followers of Muhammad believe that the entrance to Paradise is guarded by a bridge Pul-sirat as narrow as a scythe, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the animals they have sacrificed at the *'Id* will be present to lend their aid in helping them over with lightening celerity. This festival, called by the Arabs *'Id al Zoha*, 'day of sacrifice,' and the *'Id-ul fitr*, are the two great festivals of the Muslims. In A. H. 1 Muhammad kept the Ashor or Jewish fast of the Atonement on the 10th day of the 7th month, but next year his relations with the Jews being altered, he substituted for it the *'Id al Zoha*, grounded on the ceremonies then current at Makka, and on the 12th of Zil-Hijjah he sacrificed two fatted sucking kids with building horns,—the one for his followers and the other for himself and his family (see Leviticus xvi.)—*Vide 24th March.*

MUHAMMADAN BIRTH CEREMONIES.

After the 7th month of pregnancy, families that have the means celebrate the *satwasa* (seventh month) with great rejoicings, dress the woman in new clothes, and deck her with flowers. In the 9th month the *Ratjaga* (from *rat*, night, and *jagna* to watch) is similarly kept. A *kathar*, (dagger) a lemon, and Limb leaves are placed near her head to ward off misfortune and her drink is boiled water in which a piece of red hot iron has been plunged. After the birth, she is allowed only *achwani* (caudle) for the first six days. An iron plate and a broom is placed in a corner of the room as a spell against evil spirits and if any stranger enter on the 6th and 40th days rue is thrown on the fire to prevent evil. Dogs and cats are carefully kept away, and the latter must not even be named. After swaddling, the summons to prayer must be uttered aloud in the infant's right ear and the Muslim creed in the left. Before it is put to the breast some pious man must dip his finger in honey and put it into the infant's mouth. The mother's relatives and friends go together to the house and place blades of grass in the father's hair, for which he has to make them a present. Until the *chilla* (40th day) the mother is regarded as unclean, and may neither pray, touch the Koran, nor enter the Masjid. Certain ceremonies are then performed for her purification, and the sacrifice of two he-goats for a boy, or one for a girl, is sometimes offered. The child is also shaved, the hair is placed on a raft, a prayer repeated over it in the name of Khizr or Elias, and then launched into the stream. A lock of hair is sometimes allowed to grow in honor of some saint.

MUHAMMADAN MARRIAGE CEREMONIES.

Betrothal takes place at a very early age and the marriage is celebrated when the bridegroom is 18 and the bride at most 13 or 14. *Madawatniyan*, female emissaries, are employed to report the charms or wealth of certain eligible girls. Astrology is then consulted. The ceremonies of betrothal are such as the distribution of betel-nut leaves, the bridegroom going on horseback with musicians to the house of the bride to offer presents, sending sweet cakes from the bride to the bridegroom, treading the threshold when the bride's mother gives the bridegroom a gold ring, money and a handkerchief, and tasting salt in the bride's house—previous to which the bridegroom must only eat sweet things there. Then follow ceremonies of anointing and bathing and the preparation of the wedding garments. Among the marriage ceremonies are the conveying of the bridegroom's gifts to the house of the bride, and of the wedding finery to the bridegroom's. Then the bridegroom gaily dressed rides first to the Masjid, and, after repeating three prayers there, to the bride's house, where, before he is allowed to enter, he must give presents to her friends. He is carried in by a man whose advance is resisted till further presents are made. The Kazi or his sub-

stitute, after taking two veils from the bridegroom's face, makes him repeat in Arabic certain suras of the Koran,* &c. The bridegroom next repeats the marriage contract, and the hand of the bride is joined in his, the Kazi repeating a prayer that the couple thus wed may be as loving as Adam and Eve, Abraham and Sarah.

MUHAMMADAN DEATH CEREMONIES.

When a Muhammadan is dying a reader of the Koran is brought to read the *Surai-yasin* and two creeds. Sweet sharbat is then poured into the throat of the dying person, with the belief that it facilitates the exit of the spirit. After death the body is placed in a coffin, and with parade suited to the rank of the departed, it is carried to the burial ground, where a tent or *kanat* is pitched near the tomb. Here the body is bathed and dried, and powdered camphor rubbed on the hands, feet, knee, and forehead, the parts which daily touch the ground in prayer. The body is then wrapped in a calico windingsheet on which certain suras of the Koran have been written. The religious Musalman generally prepares his own sheet in his life time, adding passages of the Koran from time to time. The coffin is carried to the grave by the relations repeating as they go, "There is no god but God, and Muhammad is the prophet of God." The Kazi reads the funeral service for the poor, and the nearest relation or other friends for the wealthy: it consists of four confessions of faith and one benediction. The body is then placed in the grave on its back with the head to the north and the face towards Mecca or the west. Each person takes up a little earth, and repeating the 112th sura or the passage—"We created you of earth, and return you to earth, and we shall raise you out of the earth on the resurrection day," then puts the earth gently into the grave. The *Fatihah* "I offer this prayer for such a one," is then said first for the person just buried and then for all in the graveyard. Then the 1st and 111th suras are recited and alms distributed. On the 3rd day the whole Koran is read through, and on the 10th, 20th, 30th, and 40th days various ceremonies are gone through. *Fatihah* is repeated after every three months for a year.

PARSI FESTIVALS.

The festivals of the Parsis are celebrated with little outward pomp. Their holidays are mostly occupied in prayers in the morning, and festivities and rejoicings during the rest of the day. The Emperor Akbar adopted their "Naoroz," and fourteen other festivals of the Parsis, for the observance of those who were attached to his favourite doctrines of the *Ilahi Din* or the "Religion of God," which he fruitlessly endeavoured to introduce among his people.

GAHS.—The day is divided into five watches or *Gahs* or *Gehs* (in winter *four*): 1 *Havan*, from sun-rise till noon, which is under the protection of Mithra; 2 *Rapithwan* or *Rapitan* (omitted in winter) from noon till about 3 o'clock, under the protection of Asha-vahista or Ardibehisht, &c.; 3 *Uzayerin* or *Oziran* from about 3 o'clock till sunset, or till the stars appear; 4 *Aivishruthrem*, from sunset till midnight, under the especial care of the Fravashis or faruhars; and, 5, *Ushahin* from midnight till the disappearance of the stars, or till sunrise, which is under the care of Sraosh or Serosh, the Heavenly Watcher as its *hamkar*. For each gah there are special prayers appointed.

MEDIOSHAM, (*Maidhyo shema*, mid-winter), is the second of the six 'heads' or seasons of the year. These are believed to have been instituted in commemoration of the six periods of creation. They are now called Gahambars, and the second is held in commemoration of the creation of the waters. It is celebrated from the 11th to the 15th of Tir, the 4th month.—*Vide 1st and 31st December.*

TIR JASAN.—In the middle of Mediosham, on the 13th of Tir, this festival occurs. It is kept in honour of the star *Tistrya*, (Tashtar in Parsi) or the planet Mercury, the Watcher of the East, as Satavaesa is of West, Vanant of the South, and Haptoiringa of the North. Tistrya is called the giver of wealth, and is said to bring down the water from celestial ocean *Vouru-kasha* to the earth to fertilize it. He defeats and expels the Pairikas (fairies), who fall like "worm-stars" between heaven and earth into the sea Vouru-kasha (to prevent the waters coming out); but Tistrya enters it in the shape of a horse, and causes the waters to overflow on the earth. He is opposed by the Deva *Apaosha* in the shape of a black horse, and is powerless to defeat him unless he is addressed by the prayers of men.† Hence his worship was compulsory in times of drought.—*Vide 3rd December and 2nd January.*

AMARDAT JASAN.—This feast is held on the 7th day of Amardat, the 5th month in honour of the Amshaspand Amardat.—*Vide 27th December and 26th January.*

SHAHREVAR JASAN— Is held on the 4th day of the 6th month, in honour of Shahrevar (*Kshathrya vairya*) the Amshaspand presiding over hills and mountains, and over mines, gold and silver.—*Vide 23rd January and 22nd February.*

PETASHAM, (*Paitis-haya*, spring) is the 3rd of the Gahanbars, held from the 26th to the 30th of the 6th month, in commemoration of the season of the creation of the earth.—*Vide 14th to 18th February and 16th to 20th March.*

The NAOROZ.—The Naoroz-i-Jamshid, or the Naoroz-i-Sultan,—the king's day. This festival falls about the 21st day of March, and corresponds with the Vernal Equinox. This day is observed by the modern Persians, the Arabs, the Turks, and several other Asiatic nations for the computation of the solar year, and for State purposes, such as the collection of revenue, and the arrangements for the agricultural operations of the year. In Persia this festival is kept for several days with unusual pomp by all the inhabitants, whether Muhammadans or Parsis. In India it is simply a day of rejoicing.—*Vide 20th March.*

MEHER JASAN.—The angel or Izad presiding over, and directing the course of the sun is called *Mithra*, (Pers. *mihir*, i. e., friend). He also presides over truth and friendship and woods. His chief efficacy is at dawn, and he is the ruler of the watch Havanim. This feast is held on the 16th day of the 7th month.—*Vide 6th March and 5th April.*

EIATHREM (*Eyathrema*, the rainy season) is the fourth Gahambar commemorating the season of the creation of trees. It is celebrated from the 26th to the 30th of Meher.—*Vide 16th to 20th March and 15th to 19th April.*

ABAN JASAN or AVA ARDUI-SUR JASAN.—On the 10th day of the 8th month. In the Zend text, the name of the Angel who presides over the sea is *Ardui Sura Anahita*, the mighty goddess Anaitis of the ancient Persians, corresponding to the Mylitta of the Babylonians. The epithets which form her name refer to the celestial waters represented by her,* and over which she presides as well as over births. This festival is held in her honor, and the Parsis are required on this day to approach the sea shore, or any stream of water and chant the Zend prayers. Offerings of sugar, cocoanuts, flowers, &c. to the sea are common. In Bombay a fair is held on the Esplanade on the occasion of this festival.—*Vide 30th March and 29th April.*

ADAR JASAN.—Adar, another synonym for fire, is the name by which the ninth day of the month and the ninth month of the Parsi year is called. This is the most sacred of the twelve months, and the ninth day of it is held in great respect. On this day the fire temples are very much crowded, and offerings of sandal-wood are made to the sacred flame, and money distributed among the priests.—*Vide 28th April and 28th May.*

FARVARDIN JASAN—Is held on the 19th of Adar, and celebrated as the festival of the same name in the first month.—*Vide 8th May and 7th June.*

DEH JASAN—Is held on the first day of the month Deh.—*Vide 20th May and 19th June.*

ZARTHOST DISO.—On the 11th of Deh is held as the anniversary of the death of Zoroaster.—*Vide 30th May and 29th June.*

MEDIAREH, (*Maidhyairya*, the middle of the year), is the 5th of the Gahambars during which season they say the animals were created. It is held from the 16th to the 20th of Deh.—*Vide 4th to 8th June and 4th to 8th July.*

BAHMAN JASAN.—On the 2nd of the 11th month is sacred to the Amshaspand presiding over the increase of mankind and useful animals. He is called in Zend Vohumano.—*Vide 20th June and 20th July.*

ASFANDYAR or SPANDARMAD JASAN.—Spenta Armaiti is one of the seven Amshaspands, who presides over the earth as its genius, and is represented as the protector of animated beings. This festival in her honour is held on the 5th day of the month Asfandyar or Isfandarmat.—*Vide 23rd July and 22nd August.*

The MUKTAD is the name of a ceremony performed at the end of the Parsi year in honour of the Faruhars. It consists in keeping a place in the house neat and clean for ten days, where is placed a pile of brass or silver vessels filled with water, and raised from the ground on iron stools. Flowers and fruits are also placed there for the satisfaction of the faruhars, and religious ceremonies in honour of the dead are performed before the Muktads, The Parsi scriptures appear only to require that the last ten days of the year should be spent in deeds of charity, prayers, &c.; the ceremony of the brass and silver vessels, &c. is borrowed from the Hindus. It begins on the 25th day of Asfandyar.—*Vide 12th August and 11th September.*

MAHARASPAND JASAN.—Maharaspand is the Izad said to preside over paradise, and this festival, held on the 29th day of the last month, is kept in honour of him.—*Vide* 16*th August and* 15*th September.*

HAMASHPATMADIM or *Hamaspathmaedaya* is the last of the Gahambars and is held on the five days added at the end of the 12th month, and usually called the Gatha Gahambars from the five Gathas of the Yasna, which with the Afrigan Gatha are specially employed on these days, and give separate names to each of them. The first Gatha is styled Ahunavaiti, whence the day is usually called *Ahonuad* or *Ahunavat*, the second is called Ustavaiti, from the opening words *usta ahmai* (hail him!) and hence the second day *Ostuad*; the third Gatha is Spenta Mainyus (from the first words of it) and the corresponding day is *Sapantomad*; the fourth Gatha is Vohukhshathra (good possession), and the day *Vohukhasthar*; and the fifth Gatha and day are styled *Vahistoisti.* On the Gatha days the Parsis rise early, and dress themselves in new suits of clothes, and those piously disposed say the prayers in their private residences or attend the fire-temples. The performance of the *Afrigan Gahambar* is required at each of the six Gahambar seasons, as the *Afrigan Rapithwin* is on the Rapithwin Jasan. Unless they duly perform these, they believe their souls will not be allowed to pass the bridge Chinvat which leads to heaven. The last of these five days is called Pateti. This 6th Gahambar commemorates the creation of man.—*Vide* 18*th to* 22*nd August, and* 17*th to* 21*st September.*

NAOROZ, or NEW YEAR'S DAY.—The 1st of Farvardin.—This day is celebrated in honour of the accession of Yezdijird, the last king of the Sassanid dynasty, who was dethroned by the Khalifa Omar about A. D. 640. After prayers the Parsis visit their friends and relations, when the "Hama-i-jur" or "joining of hands" is performed. This ceremony is a sort of greeting corresponding to the wishing each other a happy new year. Their friends and relations are invited to breakfast. They spend the rest of the day in feasting and rejoicing. Alms are also given to the poor in the course of the day and new suits of clothes are presented to servants and dependents. —*Vide* 23*rd August and* 22*nd September.*

RAPITHWIN or RAPITWAN.—The 3rd day of Farvardin is sacred to Ardibehisht, the Ashaspand presiding over light and heat. On this day is performed the *Afrigan Rapithwin*, devoted to the genius presiding over the southern quarters, and who is guardian of the paths to Garotman (*Garo-demana*) or paradise.—*Vide* 25*th August and* 24*th September.*

KHURDAD-SAL—Is the supposed anniversary of the birth of Zoroaster, who they say was born in the city of Reh, in the North of Persia, in the reign of Darius Hystaspes about 520 years before Christ. The Parsis themselves, however, differ as to the exact time of birth of their prophet; a part of them fix the period at B. C. 389; others at B. C. 638. Religious ceremonies are performed in the morning by the women of the family and the priests, the men, as usual on such occasions, limiting themselves to private prayers. On this day a great victory is said to have been gained over *Zahak.* Khurdad is an Amshaspand presiding over water, vegetation and all kinds of fruits and produce; in Zend he is called Haurvatat.—*Vide* 28*th August and* 27*th September.*

AMARDAT-SAL or VALAVA.—This holiday, which falls on the 7th, the day and immediately after the preceding festival, appears to have no origin in the books of the Parsis. It is merely kept up as the continuation of the "Khurdad- Sal;" no religious ceremonies are required, and the day is spent in the enjoyment of epicurean pleasures. Amardat or Ameretat is the Amshaspand presiding over trees, and is usually coupled with Khurdad.—*Vide* 29*th August and* 28*th September.*

FARVARDIN—Is the 19th day of the month Farvardin, and whenever the name of the day and of the month coincide it is sacred to the angel said to preside over the month. Farvardin, (from *Farvar* or *faruhar*, meaning 'soul' or 'spirit') is the Izad who presides over the souls of men. This day is specially set apart for the performance of ceremonies for the dead. The people attend on the hills at Chowpatee, where their "dakhmas" or "towers of silence" are situated, and there perform prayers for the dead. The Parsis are enjoined by their religion to preserve the memory of their dead by annual religious ceremonies performed in the house, but such of their friends as die on long voyages or in unknown places, and the date of whose death cannot be positively ascertained, are honoured by sacred rites on this day. The ceremony consists in preparing small round pieces of baked bread called "daruns," which are put on a tray or other copper vessel, along with fruits and flowers over which the priest performs the prayers of the Baj.—*Vide* 10*th September and* 10*th October.*

ARDIBEHISHT.—Falls on the 3rd of the 2nd month, and is sacred to the Amshaspand

Ardibehisht, the angel controlling the sacred fire,—that element being one of the objects of worship.—*Vide 24th September and 24th October.*

MEDIOZEREM, *Maidhyo zaremya*, mid-summer), is the first of the Gahambars, in which it is said heaven was created, and is celebrated from the 11th till the 15th day of Ardibehisht, the 2nd month.—*Vide 2nd to 6th October and 1st to 5th November.*

KHURDAD JASAN—Is a feast held on the 6th day of the 3rd month in honour of the Amshaspand Khurdad.—*Vide 27th October and 26th November.*

JEWISH FESTIVALS.

The PASSOVER was instituted to commemorate the departure out of Egypt, because on the night preceding that departure, the destroying angel who slew the first-born of the Egyptians passed over the houses of the Hebrews, they being marked with the blood of the lamb, which for this reason was called the Paschal Lamb. It was celebrated on the 14th day of the first month (Abib) of the ecclesiastical year, and lasted seven days. A lamb, or, if that would not be found, a kid without blemish, was killed, roasted and eaten with unleavened bread and bitter herbs. The first Passover was eaten with their loins girded, their shoes on their feet, and their staves in their hands, that they might be in readiness for their journey. It is now kept on the 15th and 16th of Nisan.—*Vide 27th and 28th March.*

The FEAST OF PENTICOST or SEBUOT was celebrated on the fiftieth day after the Passover, or the 6th and 7th of Sivan, and was a feast of thanksgiving to the Lord, wherein they acknowledged his dominion over their country and their labours, by offering to him two loaves, as the first fruits of all their harvests. It also commemorated the giving of the law from Mount Sinai two years and fifty days after their departure from Egypt. The Hebrews counted seven weeks from the Passover, beginning on the second day of that solemnity, and hence called it the Feast of Weeks; but by the Christians it was called Pentecost, a name which signifies the Fiftieth Day.—*Vide 16th and 17th May.*

The FEAST OF TRUMPETS was celebrated on the first day of their civil year (September), its commencement being proclaimed by sound of trumpet, and the day was kept solemn, all business being forbidden and certain sacrifices appointed to be offered.—*Vide 6th and 7th September.*

The FEAST OF TABERNACLES was instituted as a memorial of their fathers having dwelt in tents for forty years during the passage through the wilderness. It was kept from the 15th of the first month (Tisri) of the civil year, and lasted eight days, the first and seventh being the most solemn. During its continuance they lived in booths, tents, or arbours constructed of the branches and leaves of trees. On the first day they cut down branches of trees, with their fruit, which they carried in ceremony to the synagogue. Holding in their right hand a branch of a palm-tree, three branches of myrtle, and two of willow, tied together, and having in their left hand a citron and its fruit, they waved them singing songs and crying "Hosanna!"—*Vide 20th and 21st September.*

The FEAST OF DEDICATION or HANUKA was appointed to celebrate the re-establishment of Divine worship in Jerusalem, after Antiochus Epiphanes had been vanquished and the temple purified. It is observed for eight days from the 25th of Kislev, the third month (December), and is also called the Feast of Lights, from the illuminations which the Jews make during these days in their houses.—*Vide 29th November.*

KIPUR.—The 10th of the first month of the civil years is the DAY OF ATONEMENT, on which they observe a fast from evening to evening, and bewail their sins.—*Vide 15th September.*

The FEAST OF PURIM falls on the 14th and 5th of the 6th month (Adar), and commemorates the defeat of Haman. On these days they give alms to the poor and presents to their friends.—*Vide 25th and 26th February.*

Other fasts were also instituted in later times connected with the siege of Jerusalem (10th of Tebet, 14th December); the capture of the city (17th of Tamuz, 26th June); the burning of the temple (9th of the Ab, or the 10th if the Civil year begin on a Thursday, 17th July); and the death of Gedaliah on the 3rd of Tisri (8th September), or the 4th if the 3rd be a Sunday.

Every seventh year was to the Jews a Sabbatical year; and Alexander the Great granted them an exemption from tribute on that year. After seven weeks or Sabbaths of years, that is, after seven times seven years, the great Festival of the JUBILEE was celebrated. On this fiftieth year every one resumed possession of his inheritance, whether it were sold, mortgaged, or alienated in any way.

INDIAN COINS, WEIGHTS AND MEASURES.

EXISTING SYSTEMS.

MONEY.

SILVER is the legally constituted medium of exchange in all money transactions throughout the British-Indian Possessions. Gold coin was intended to be a legal tender, at a fixed value of 16 rupees for the Gold-mohur of Calcutta, and 15 rupees for the Gold rupee of Madras and Bombay; but it is not demandable in payment, and is left to find its current value in the market.

An order in council was promulgated January 1841, authorizing officers in charge of public treasuries freely to receive gold coins struck in conformity with the provisions of Act XVII. of 1835 establishing the 15 rupee pieces. This continued till December 1852, when the swelling tides of California and Australia began to pour their rich treasures over the globe, and, in apprehension that India would be inundated with gold, the proclamation of 1841 was hastily rescinded, and gold debarred from entrance into any of the public treasuries. Since then the English Sovereign has been made a legal tender at 10 rupees.

100,000 Rupees	= 1 Lakh	..... £10,000	0 0
100 Lakhs	= 1 Crore	..... £1,000,000	0 0

The value of a Rupee is generally assumed as equal to 2*s.* sterling At the Calcutta Mint price of silver it is worth 2*s.* 0·035*d.*; at the Commercial par of Exchange 1*s.* 11·51*d.*; and at the London Mint price of silver it is worth 1*s.* 11·04*d.*

The Rupee weighs 180 grains troy, or one tola, and consists of 11 parts of silver and 1 of alloy. The Gold Rupee is of the same weight and standard. The Copper coins are the half anna weighing 200 grains; the quarter anna or paisa 100 grains; the half paisa, 50 grains; and the pie 33$\frac{1}{3}$ grains.

In Bombay, accounts are still often kept in Rupees, quarters, and raes, 25 raes making one anna.

In Madras, accounts were formerly kept in Star Pagodas, fanams, and cash.

80 Cash or Kasu..... = 1 Fanam or panam.

The Pagoda was of gold 19$\frac{1}{2}$ carats fine, and intrinsically worth 7*s.* 5$\frac{1}{4}$*d.*

INDIAN WEIGHTS AND MEASURES.

The British-Indian weights established by Regulation VII. of 1833, and now for upwards of a quarter of a century in use in Bengal, are founded on the tola of 180 grains as a unit.

1.—BAZAAR WEIGHT.

4 Siki, or quarters	= 1	Tola	6$\frac{192}{175}$ drs.	Av.	180	grs.	Troy.
5 Tola	= 1	Chittak	2$\frac{2}{35}$ oz.	„	1$\frac{7}{8}$	oz.	„
4 Chittaks	= 1	Pauwa	8$\frac{8}{35}$ oz.	„	7$\frac{1}{2}$	oz.	„
4 Pauwa	= 1	Ser or Seer	2$\frac{2}{35}$ lb.	„	2$\frac{1}{2}$	lb.	„
5 Seers.....	= 1	Passeri .....10$\frac{2}{7}$	lb.	„	12$\frac{1}{2}$	lb.	„
8 Passeri,or 40 Seers	= 1	Mun or Maund..82$\frac{2}{7}$	lb.	„	100	lb.	„

The standard seer weighs 80 tolas or rupees, or 36 annas in copper coins.

Also 35 seers are equal to 72 lbs. avoirdupois ; and 49 maunds are equal to 36 cwt.

The pound avoirdupois weighs 38⅜ tolas ; and the pound troy 32 tolas.

The tola weighs 11·6638 French grammes ; the maund 37·3242 kilogrammes ; the gramme weighs 0·08573526 tola ; and the kilogramme 1·0716908 seer.

The Factory weight, adopted by the Bengal Government in 1787, was subdivided as in Bazaar weight, only lighter ; 49 of any denomination of Bazaar weight, being equal to 54 of the same denomination of Factory weight ; and 1½ Factory maunds being equal to 1 cwt., or 1 Factory maund equal to 74⅔ lbs. or ⅔ cwt. Hence 1 Factory maund = 0·9074074 Bazaar maund. It is now disused.

Bombay Local Weights.

The Khandi for Cotton is 28 maunds or 784 lbs. avoir. or 7 cwt.

The "pukka seer" is 1 1⅗ lbs. avoir. or 72·59 tolas. At Panwel the seer weighs 72·83 tolas.

The British Indian or Imperial seer and maund are 2·9387755 Bombay seers and maunds respectively ; and the Bombay maund is 0·3402778 Imp. maunds.

The Bombay seer weighs 317·51485 grammes, and the maund 12·700594 kilogrammes

Poona.

The seer is 80 Ankushi rupees or 76·66 standard tolas, or 1·9714 lbs, avoir., or 2·33604 lbs. troy = ·9583 B. I. seers. The weights are the same as the British-Indian, only about 1-24th part lighter.

4½ Tanks	= 1	Chhatank ...	1·9714	oz.	av.	0·958	Imp. chhat.
4 Chhatanks	= 1	Pau-ser.....	7·8856	,,	,,	3·833	,, ,,

20 Ditto	= 1	Khandi.....1577·12		,,	,,	19·165	,, ,,

Kachcha maunds of 12½ and 14 seers are also used in the district.

In the Khed, Poorundhur and Bhimathadi talookas, the seer weighs 76 tolas ; in Shiwner and Indapore, 76½ ; in Pabal 77 ; and in Mawal 75 tolas.

Ahmednuggur and Sholapore.

The British Indian or Imperial Weights are in use at these places.

At Ahmednuggur the Palla is 2½ maunds.

At Sholapore : 1 Manki = 4 dharas = 12 seers.

Satara.

The seer varies in different localities from 92·75 tolas at Koley to 115 tolas at Mandapore ; in Satara city it is 93·25 tolas.

Sind.

The British Indian Weights were declared by proclamation 1st August 1853 to be the only legal standard.

8 maunds = 1 khandi = 658⅔ lbs. av. = 23·510204 Bombay maunds.

Surat.

The Súrat seer of 35 Surat tolas is variously stated from 36·4583 to 37 tolas, and the maund from 37½ to 38 lbs. avoirdupois, the former being probably the more accurate determination; from which—

1 Surat seer = ·455729 Brit. Ind. seers.	1 Brit. Ind. seer = 2·1942857 Surat seers.
1 „ „ = 1·339286 Bomb. seers.	1 Bomb. seer = ·746667 „ „

The Khandi for Cotton is 21 maunds or 7 cwt. 3½ lbs.

Khandesh, &c.

The British Indian system is authorized in these districts.

Broach, &c.

At Broach the seer is	40	tolas.
„ Ahmod „ „ „	38·5	„
„ Jambusur and Anklesur ...	38	„
„ Wagra	37·5	„
„ Hansot	38·8125	„

8 Viss or 40 Seers = 1	Maund.....	25 lb.	„	972·222 „
20 Maunds..... = 1	Khandi	500 lb.	„	6·0764 Imp. maunds.

The Madras maund is 0·303819 British Indian maunds, and the Brit. Ind. or Imp. maund is 3·2914286 Madras maunds; 1 Bomb. maund = 1·12 Mad. maunds, and 1 Mad. maund = 0·892857 Bomb. maund. The Madras maund is sometimes stated at 30 lbs. troy or 0·3 Brit. Ind. maund, equal to 24·6857143 lbs. avoir., which makes the pollum exactly 3 tolas and the khandi 6 Brit. Ind. maunds.

The Mangelin for pearls is 6 grains. 18 Mad. Chows=55 Bombay Chows.
The Pagoda Weight=52·56 grains.

2.—NATIVE JEWELLERS' WEIGHT.

1 Dhan	1⅝	gr.	Troy.
4 Dhan..... = 1 Rati	1⅞	„	„
8 Rati ..... = 1 Masha	15	„	„
12 Masha ..... = 1 Tola	180	„	„

A Dhan is 0·46875 gr. troy, or 0·0303745 French grammes.

Goldsmiths' Weight.

2 Gunj ..... = 1 Wal..... =	3·8282	gr.	Troy.
4 Wal..... = 1 Masha..... =	15·3128	„	„
12 Masha ..... = 1 Tola..... =	183·7536	„	„

Mashas, rati, dhans are employed in the native evaluation of assay of the precious metals: thus "10 mashas fine," signifies 10-12ths pure, or the same as "10 oz. touch."

3.—MEASURES OF LENGTH.

The gaz or unit of lineal measure not only differs in different provinces of India, but also, like the seer, in the same province for different purposes. The English yard, however, is rapidly becoming the only standard unit, especially where English education has obtained a firm footing.

3 Jau ..... = 1	Angli.....	¾	in.	or 19·05	mm.
4 Angli ..... = 1	Muthi	3	„	76·2	„
12 Angli ..... = 1	Big'hath or Bilisht ...	9	„	228·6	„
2 Big'hath or 24 Ang. = 1	Hath or Cubit	18	„	457·19	„
2 Hath ..... = 1	Gaz or yard	3	ft.	914·38	„
4 Hath ..... = 1	Danda or Bam.....	2	yds.	1·8287	metres.
2000 Danda ..... = 1	Kos or Kros	4000	yds.	3657·5	„
4 Kros ..... = 1	Yojan	9 1/11	m.	14630·	„

In Bombay the half hath is called Vent; and the measuring rod or Kathi for land, according to Jervis, is 9·3644 feet. In Gujerat 5 hath make 1 Vaso or Kathi. In Western India almost every village has its own Kathi.

The Kos of the Ayin-akbari was about 2·58 miles, or 4540 yards, or 4150 metres.

The Bengal Kos contains only 1,000 danda or dhanu. In surveying, 80 hath=1 Rassi.

In the N. W. P.,—Delhi, Loodianah, Ferozpore, and part of Berar:—33 inches = 1 Ilahi gaz, 3 Il. gaz=1 Bans or ganteh, and 20 bans=1 Jarib. In Benares and Ghazeepore the gaz used by Mr. Duncan in the settlement of 1795 was 33·6 inches. The true Ilahi gaz probably measured 32·6 to 32·8 inches; in Bareilly, Bulanshahr, Agra, &c. it is reckoned at 32·5 inches.

In Orissa the padika or rod is 10·4355 feet: in Tirhoot the lagi is 9¾ feet: and in Jyntiah the dastidari hath is 18·87 inches, and 16 haths make 1 null.

Bombay Cloth Measure.

2	Angali	= 1	Tasu	1⅛ inch.
24	Tasu	= 1	Gaz	27 ,,

In Poona the gaz is 34⅕ in., but English Cloth is sold by the yard.

Bengal.

3	Ungal or Angli	= 1	Girih	2¼ inch.
8	Girih	= 1	Hath	18 ,,
2	Hath	= 1	Gaz	36 ,,

4.—MEASURES OF SURFACE.

Bombay, Poona, &c.

34 $\frac{1}{8}\frac{1}{6}$	Square Haths	= 1	Kathi.	
20	Kathiyo	= 1	Pand, or Vaso.	
20	Pand	= 1	Bigha.	
6	Bigha	= 1	Rukeh.	
120	Bigha	= 1	Chahur.	

If the Bombay Kathi of 5⅝ haths be exactly 9·3644 feet as stated by Jervis, this Bigha will contain 3897·422 sq. yds. = 0·805253 acre, but in other places it varies with the Kathi, which is the only real measure ever used in the central and southern part of the Bombay Presidency. In some places the survey chain of 33 feet has taken its place, and—

16	Annas or links	= 1	Gunta or chain.
40	Guntas	= 1	Acre.

Gujerat.

20	Khunt	= 1	Padtal.
20	Padtal	= 1	Padat.
20	Padat	= 1	Vishwashi.
20	Vishwashi	= 1	Vaso.
20	Vasa	= 1	Vingho, Bigha or Dori.

North-west Provinces.

In Delhi, Patna, Shahabad, Saran, Bhagulpore, and Monghyr, the bigha of square Ilahi gaz=3025 sq. yards or 0·625 acre prevails, and is divided as follows:—

20	Uswansi or Nanwansi	= 1	Saswansi	24·5025	sq. in.
20	Saswansi or Tanwansi	= 1	Kachwansi	3·40312	sq. ft.
20	Kachwansi	= 1	Biswansi	7·56125	sq. yds.
20	Biswansi	= 1	Biswa	151·25	,, ,, to be
20	Biswa	= 1	Bigha	3025	,, ,,

1 Acre = 1·6 Delhi bigha. The Orissa bigha is 1 acre or 4840 square yards. The Tirhoot bigha is 400 sq. lagi = 4225 sq. yds. = ·872934 acre.

5.—LIQUID AND DRY MEASURES.

India, properly speaking, does not possess dry or liquid measures. Where these are employed they represent the seer or the maund weight. The value of any vessel of capacity rests solely on the weight contained in it. In S. and W. India an equal mixture of the principal grains is taken, and a vessel formed to hold a given weight of it.

Bengal.

In Bengal, the following are used for grain :—the conversion into English measure being derived from the capacity of a vessel holding a maund of water or $1\frac{1}{8}\frac{1}{5}$ bushels.

PROPOSED NEW SYSTEM OF WEIGHTS AND MEASURES.

In the latter part of 1867 Colonel Strachey and the Hon'ble M. J. Shaw Stewart published proposals relating to the introduction of a new system of weights an measures, differing from that of Regulation VII. of 1833. M. J. Shaw Stewart's was essentially the rejection of all existing Indian weights and measures and the scales on which they are based, and the substitution in their place of the old English Avoirdupois system of weights and the corresponding measures of capacity. Colonel Strachey's proposal for a system of weights was the following:—

"In the first place, for Upper India, the kilogramme could be adopted as the new seer, with a sub-division into 16 chittacks, each of 62½ grammes. The chittack might be divided into 5 siccas of 12½ grammes; or if the rupee weight were altered to 12½ grammes the name tola might still be retained instead of sicca for the purposes of ordinary trade; no lower sub-division than the chittack would be needed. For goldsmiths and jewellers the gramme might probably be substituted for the masha, now 1-12th of the tola, with a further sub-division into 10 ruttees. This seer would answer for all Bengal, for the North-Western Provinces, and probably for the Punjaub and Central India.

"The half-kilogramme would be nearly the seer of Guzerat. A maund of 40 such seers would be suitable for Bengal and Northern India, 25 maunds going to the ton of 1,000 kilos.; and a maund of 20 such seers for Guzerat and Malwa, 50 going to the ton of 1,000 kilos. For the town of Madras, the viss might become 1¼ kilogramme; the Madras small seer would then be ¼ of a kilo., and the maund 10 kilos., the candy 200 kilos., 5 candies going to the ton. Or the maund might be made to agree with the Bombay maund of 12½ kilos; in which case the viss would be 1 9-16th kilos., the seer 5-16th kilo., and the candy 250 killos., 4 going to the ton. The Bombay maund might be taken to be 12½ k ilos, unless it were made 10 kilos., so as to assimilate it to the half of the maund of Guzerat, and the quarter of the maund of Northern India."

'A Committee was next formed at Calcutta to consider the proposals and report on the subject. A majority decided very much in accordance with Mr. Shaw Stewart's scheme, but Col. Strachey and Mr. Harrington protested against the introduction of a system that would change the scales as well as the denominations and weights, and bring the system into accordance with the present English system only, which Col. Strachey and others expect to see assimilated with the decimal system now so prevalent on the continent of Europe and already to some extent legalised in England by Mr. Ewart's bill. Nothing has been heard of the matter since.

FOREIGN COINS.

The Governments of France, Belgium, Italy, and Switzerland have concluded a Monetary Convention, by which they bind themselves to use exclusively an identical coinage. The Commissioners-Plenipotentiary assembled at Paris in 1866 agreed upon Articles of which the following are the most important:—

Belgium, France, Italy, and Switzerland are constituted a Union as respects the weights, values, form, and currency of their respective coinages in gold and silver. No change is made at present in the legislation relating to the copper money of each of the States.

The high contracting parties engage not to coin nor to allow to be coined, bearing their impressions and designs, any gold moneys in any other forms than those of gold pieces of 100f., 50f., 20f., 10f., and 5f., fixed as to weight, values, allowance for loss, and diameter.

They shall receive without distinction into their public treasuries gold pieces coined according to the foregoing conditions in one or other of the four States, with the reservation, nevertheless, of excluding all coins whose weight shall have beer, reduced by wear to the extent of ½ per cent. below the allowances mentioned above, on where the stamped impressions shall have become effaced.

The contracting Governments bind themselves not to make, nor allow to be made, silver pieces of 5f., except according to the conditions of weight, standard allowance, and diameter fixed as follows:—

Full weight,	Allowance.	Full Standard.	Allowance	Diameter.
25 grammes	3-1000ths	900-1000ths	2-1000ths	37 millimetres.

They shall mutually receive the said coined pieces into their public treasuries, with the right of excluding those which shall have lost weight by wear to a greater extent than 1 per cent. below the allowance above-mentioned, or where the stamped impression shall have become effaced.

The high contracting parties henceforth shall not manufacture silver pieces of 2f., 1f., 50c., and 20c., except according to conditions of weight, standard allowance, and diameter agreed upon.

The silver pieces of 2f., of 1f., of 50c., and of 20c. manufactured otherwise than according to the various conditions specified in the foregoing Article, shall be withdrawn from circulation before January 1, 1869. This period is extended until January 1, 1878, in respect of pieces of 2f. and 1f. issued in Switzerland by virtue of the law of January 31, 1860.

Each of the contracting Governments undertakes to receive back from individuals or from the public treasuries of the other States the old coinage which it has issued, and to exchange it for an equal value in current coin (gold pieces or five-franc pieces in silver,) upon condition that the sum presented for exchange shall not be less than 100f. This obligation shall be prolonged for a period of two years from the date of the expiration of the present treaty.

The high contracting parties shall not issue silver pieces of 2f., of 1f., of 50c., and of 20c. struck according to the conditions mentioned beyond the ratio of 6f. in value for each inhabitant.

The date of coinage shall hereafter be stamped upon pieces of gold and silver struck in any of the four States.

The contracting Governments shall communicate to each other annually the total amount of their issues of gold and silver coins, their position as to the withdrawal and remelting of the old coinage; all the arrangements and all the administrative documents relating to coinages. They shall also give to each other information of all facts which concern the reciprocal circulation of their gold and silver moneys.

The right of acceding to this Convention is reserved to any other State which shall accept its obligations, and which shall adopt the monetary system of the union in whatever relates to gold and silver specie.

The execution of the mutual engagements contained in the present Convention is subject, as far as may be necessary, to the fulfilment of formalities and regulations prescribed by the Constitutional laws of those of the high contracting parties which have determined to obtain their application, and which they bind themselves to do with the least possible delay.

The present Convention shall remain in force until the 1st of January, 1880. If one year prior to that date notice to determine it shall not have been given (*dénoncée*), it shall remain obligatory in full force for a further period of 15 years, and, in like manner, for further periods of 15 years in the absence of denunciation.

The present Convention shall be ratified, and the ratifications thereof shall be exchanged at Paris within the space of six months, or sooner if possible.

GOLD AND SILVER FOREIGN COINS.

The relative value of Gold and Silver varies in different countries where both metals are employed in coinage. Thus,—

In Britain, Gold is to Silver...	as 14·28 to 1
In France	as 15·5 to 1
In Belgium	as 15·79 to 1
In Spain	as 15·75 to 1
In Portugal	as 15·48 to 1
In Russia	as 15·00 to 1
In the United States....	as 15·98 to 1

I.—The following are some of the principal foreign gold coins with their approximate values in Rupees, reckoning gold at 15 times the value of silver of the same degree of purity.

USES OF THE PRECEDING TABLE.

1.—When Government 4 per cent Securities sell at 76, what are the equivalent values of the 5 and 5½ per cent. loans?

In the table opposite 76 in the first column are 95, the value of the 5 per cent. loan, and 104½ the value of the 5½ per cent loan,—the interest in all the three cases being 5·263 or 5 5/19 per Cent.

2.—At what price should I purchase 4 per Cents. to obtain 5½ per Cent. for my money?

In the fourth column opposite 5½ or 5·5 in the column for 4 per Cent., stands 72·727, or 27 8/11 the price required.

3.—What would I gain, by selling out Rs. 10,000, 5 per Cent. Government loans at 104 and purchasing 5½ per Cent. at 112?

In the third column opposite 104 in the 2nd is .....114·4
112

Gain on Rs. 100 of Capital..... 2·4

And in the fourth column, opposite 112 in the 3rd, is.....4·911 per Cent.

„ „ „ 104 „ 2nd, ...4·808 „

Difference, or gain per cent per annum on capital .....0·103 „ or fully 1/10 per cent., being Rs.10-5 on every Rs.1,000 invested.

4.—To find the equivalent values of 4 and 5½ per Cent. Securities when 5 per Cents. are selling at 103⅜ or Rs.103-6.

Opposite 103 in the second column are 82·4 and 113·3 in the 1st and 3rd, and among the "proportional parts" corresponding to ·375 or 6a. in the 5 per Cent. col. are 0·3R. in the 4 per Cent. and ·413 in the 5½ per Cent column.

Hence 82·4 + ·3 = 82·7, the equivalent price of 4 per Cent. and 113·3 + ·413=Rs. 113·713, or Rs.113-11-5, the equivalent price of 5½ per Cents.

Other uses of this Table will readily occur to brokers and others.

THE STAMP ACT.

THE following are the Schedules to the Stamp Act (No. X. of 1862) as amended by Act 18 of 1865 and Act 26 of 1867:—

SCHEDULE A

Containing a specification of the Deeds, Instruments, and Writings which require to be stamped under this Act, and of the proper Stamps for such Deeds, Instruments, and Writings.

1. AGREEMENT or any Minute or Memorandum of an Agreement, not being of the nature of a Bond or other Obligation for the payment of money, or of a Conveyance, or of a Deed of Mortgage, Gift, or Dower, and not being otherwise provided for in this Schedule, whether the same be only evidence of a contract or obligatory upon the parties:—1 Rupee.

NOTE.—If two or more letters are offered in evidence to prove an Agreement between the parties who shall have written such letters, it will be sufficient if any one of such letters be stamped as an Agreement.

If the Agreement, or Minute, or Memorandum be of the nature of a Bond or other Obligation for the payment of money, or of a Conveyance, or of a Deed of Mortgage, Gift or Dower:—the same Stamp as prescribed by this Schedule for such Instrument.

2. Agreement for an annual or periodical payment not otherwise charged for in this Schedule:—the same Stamp as for a Bond for the amount of ten years' payment, or of the total sum secured if less.

3. Agreement, or Minute, or Memorandum for a LEASE, or of the terms and conditions on which any land, house, or other real property is let, held or occupied:—the same Stamp as for a Lease for the same property on the same terms and conditions. Provided that any lease afterwards made of the same land, house or other real property in pursuance of such Agreement, Minute, or Memorandum, shall be chargeable with a Stamp duty of 8 annas only, to be denoted by a Stamp, which shall be affixed to such lease by the Collector of Stamp Revenue of the District upon the production of the Agreement, Minute, or Memorandum bearing the proper Stamp, and not otherwise.

4. Agreement to cultivate, manufacture, produce, provide, or deliver any article in consideration of advance made—

If it exceeds 100 Rs. and does not exceed 1,000 Rs.:—1 Rupee per 10 Rs. or fraction of 10 Rs. Where the amount or value is Rs. 485-8, the duty is Rs. 49.

Exceeding 1,000 Rs. and not exceeding 20,000 Rs.:—100 Rs. *plus* 5 Rs. per 100 Rs. or fraction of 100 Rs. of the difference between 1,000 Rs. and the amount or value sued for. Where the amount or value is Rs. 1,250-8, the duty is Rs. 115.

If it exceeds 20,000 Rs. and does not exceed 1,00,000 Rs.:—1,050 Rs. *plus* 1 Rupee per 100 Rs. or fraction of 100 Rs. of the difference between 20,000 Rs. and the amount or value sued for. Where the amount or value is Rs. 43,450-8, the duty is Rs. 1,285.

Exceeding 1,00,000 Rs.:—1,850 Rs. *plus* 8 annas per Rs. 100 or fraction of Rs. 100 of the difference between Rs. 1,00,000 and the amount or value sued for. Where the amount or value is Rs. 5,93,150-8, the duty is Rs. 4,316.

If the suit be instituted in a Military Court of Requests, or in the Court of a Cantonment Joint Magistrate under the said Act III. of 1859, or in a Court of Small Causes established under Section 6 of Act XXII. of 1864 *(to make provision for the administration of Military Cantonments)* and the amount or value claimed does not exceed 8 Rs.:—4 annas.

If it exceeds 8 Rs. and does not exceed 16 Rs.:—8 annas.

If it exceeds 16 Rs. and does not exceed 30 Rs.:—1 Rupee.

If it exceeds 30 Rs., the same Stamp as for a suit in any other Court.

In suits for possession instituted under Section 15, Act XIV. of 1859, and application for immediate possession under Section 1, Clause 2 of Act No. XVI. of 1838, and Act No. V. of 1864, passed by the Governor of Bombay in Council: a Stamp of one-fourth the value prescribed in the foregoing scale.

NOTE.—(*a*) In suits for immoveable property whether paying or not paying revenue to Government, the amount of stamp duty payable shall be computed according to the market-value of the property in suit. In suits for immoveable property paying revenue to Government, where the settlement is temporary, eight times the revenue so payable, and where the settlement is permanent, ten times the revenue so payable, and in suits for immoveable property not paying revenue to Government, twenty times the annual net profits of such property, shall be taken to be the market-value thereof, unless and until the contrary shall be proved.

SPECIAL RULES FOR THE BOMBAY PRESIDENCY.

(1.) In the case of lands held on a settlement for a period not exceeding thirty years, and paying the full assessment to Government, a sum equal to eight times the survey assessment shall be taken to be the market-value.

(2.) In the case of lands held on a permanent settlement or on a settlement for any period exceeding thirty years, and paying the full assessment to Government, a sum equal to ten times the survey assessment shall be taken to be the market value.

(3.) When the whole or any part of the annual survey assessment is remitted, the valuation calculated by the preceding rules shall be increased by ten times the portion of assessment remitted.

(*b.*) In all other descriptions of suits, the amount of stamp duty payable shall be computed in the following manner:—

(1.) In suits for moveable property (other than money), according to the market-

value of the subject-matter of the suit at the date of filing the plaint, or where the subject-matter has no market-value, as, for instance, in the case of documents relating to title, or accounts:—the amount at which the subject-matter shall be estimated in the petition of plaint or appeal.

(2.) In suits (other than suits under Act No. XV. of 1865 or Act No. XXI. of 1866,) in which it is not possible to estimate at a money-value the subject-matter of the suit:—Rs. 10.

(3.) In suits for money (including suits for damages and compensation):—according to the amount claimed.

In order to ascertain the market value or the annual net profits of any such property as is described in Note (*a*) and in Note (*b*), the Court may either of its own motion or on the application of any party to the suit, issue a commission to any proper person, directing him to make such local or other investigation as may be necessary, and to report thereon to the Court, and the decision of the Court as to market-value or annual net profits shall be final. If in the result of any such investigation, the Court shall find that the market-value or net profits has or have been erroneously estimated for the purpose of computing the stamp-duty, the Court shall either (as the case may be) refund the excess paid as such duty, or require the plaintiff to pay so much additional stamp duty as would have been payable had the said market-value or net profits been correctly estimated, and in such case the suit shall be stayed until the additional duty shall have been paid.

Section 180 of the Code of Civil Procedure shall be construed as if the words "the market-value of any property in suit or" were inserted after the word "ascertaining," and as if the words "or annual net profits" were inserted after the word "damages."

(*c.*) In suits for mesne profits or for immoveable property and mesne profits, if the profits decreed are in excess of the profits claimed, the decree shall not be executed until the difference between the stamp duty actually paid and the stamp duty which would have been payable had the suit comprised the whole of the profits so decreed, shall have been paid to the proper officer. Such difference shall be calculated by the Court according to the rules above mentioned, and shall be costs in the suit.

(*d.*) If an appeal or plaint, which shall have been rejected by the lower Court on any of the grounds mentioned in the Code of Civil Procedure, shall be ordered to be received, or if a suit shall be remanded in appeal on any of the grounds mentioned in Section 351 of the same Court, for a second decision by the lower Court, the Appellate Court shall grant to the appellant a certificate, authorizing him to receive back from the Collector the full amount of stamp duty paid on the petition of appeal. Provided that if, in the case of a remand in appeal, the order of remand shall not cover the whole of the subject-matter of the suit, the certificate so granted shall not authorise the appellant to receive back more than so much duty as would have been originally payable on the part or parts of such subject-matter in respect whereof the suit has been remanded.

(*e.*) When any appeal shall be presented to a Civil Court, not against the whole of a decision, but only against so much thereof as relates to a part or parts of the subject-matter of the suit, and, on the hearing of such appeal, the respondent shall take, under Section 348 of the Code of Civil Procedure, an objection to any part of the said decision other than the part appealed against, the Court shall not hear such objection until the respondent shall have paid the additional stamp duty which would have been payable had the appeal comprised the part of the decision so objected to. Such additional stamp duty shall be calculated by the Court according to the rules abovementioned, and shall be costs in the suit.

GENERAL RULE.—If the subject matter of any plaint, written statement, petition or copy of a decree or order cannot be conveniently comprised within one Stamp Paper of the value prescribed by this Schedule, one or more additional pieces of paper may be used bearing a Stamp of the value required for petitions. This rule does not apply to copies of judgments; and additional pieces of paper required for such copies need not be stamped.

When the first or only examination of a person who complains of the offence of wrongful confinement, or of wrongful restraint, or of any offence other than an offence for which police officers may arrest without a warrant, as specified in the third column of the Schedule annexed to the Code of Criminal Procedure, and who has not already presented a petition stamped as required by Article 10 of Section 6 of this Act, shall be reduced to writing under the provisions of the Code of Criminal Procedure, such examination shall be written upon stamp paper of the value of one rupee, to be supplied by the complainant unless the Court shall think fit to write such examination upon plain paper.

No boat or other vessel is allowed to carry more passengers than the number for which such boat is licensed subject to a penalty not exceeding Rs. 50, or two months' imprisonment.

Boats plying for hire must not anchor within 30 yards of the Bunder.

REGULATIONS OF PUBLIC CONVEYANCES.

(Abridged from Act X. of 1863.)

SEC. 1. Every conveyance which plies for hire, and every boat or other vessel carrying passengers, is deemed a public conveyance.

2. All public conveyances to be licensed: land conveyances by the Commissioner of Police, water conveyances by the Master Attendant; the number of the license to be painted on each conveyance, together with, in the case of land conveyances, the number of passengers they are licensed to carry; and all conveyances to have a list of fares attached thereto; subject to a penalty not exceeding Rs. 100, or imprisonment for three months.

3. No attendant of any public land conveyance to ply for hire without a badge granted by the Commissioner of Police; such badge to be worn conspicuously, and not to be lent to any other person. Penalty, not exceeding Rs. 20, or imprisonment for one month.

5. The licensee to give notice of any change of address, subject to a penalty of Rs. 20.

6. Licenses to be granted usually on January 1st of each year, but at other times also when necessary; and the Commissioner of Police or Master Attendant may refuse licenses, at their discretion, if the conveyances are insufficiently found, or the applicant unsuitable.

7. License fees:—Omnibuses, carrying more than five passengers, Rs. 2; Omnibuses carrying not more than five passengers Rs. 1; Buggies, 8 as.; Bullock carts, 4 as.; Palkees, 4 as.; Bunder boats, Rs. 1; Dhingies, 8 as.; Tonies or Canoes, 8 as.; Labour carts, for goods only, 4 as. The balance of such fees, after paying all expenses, to be paid to the Municipal and Port Funds.

8. Licenses to be renewed on the 1st of January in each year.

9. The Commissioner of Police or Master Attendant to have the power to revoke licenses; and the owner of any unlicensed conveyance allowing the same to ply for hire, to be liable to the penalty contained in Section 2.

10. Revoked licenses to be delivered up within 24 hours, subject to imprisonment not exceeding two months.

11. Half-fees to be charged for duplicate Licenses, if they are accidentally lost or destroyed.

12. Licenses not to be transferred without the sanction of the Commissioner of Police or Master Attendant.

13. Licenses not to be used other than for the conveyances for which issued, subject to the penalty contained in Section 2.

15. Not more than the licensed number of passengers to be carried by any public conveyance subject to a fine not exceeding Rs. 50, or two months' imprisonment.

16. Concealing the number of the license, or preventing any person noting it—a penalty of Rs. 20 or two months' imprisonment.

17. No licensee or attendant to let any person ride in his conveyance without the consent of the hirer, subject to a penalty not exceeding Rs. 20 or imprisonment for two months.

18. The driver or attendant in charge of any public conveyance to produce, when called upon to do so, a list of fares in English and the Vernacular, subject to the penalty in the previous section.

19. Lists of fares, with regulations, to be prepared in the offices of the Commissioner of Police and Master Attendant, and to be issued at four annas for each copy.

20. Public conveyances to give way to private conveyances, and not to hinder other public conveyances in taking up or setting down passengers, subject to the penalty contained in section 17.

21. If the driver or attendant of a public conveyance be intoxicated, or refuse to obey reasonable orders, or keeps the inside of his conveyance dirty—the penalty contained in section 17.

22. If the driver or attendant of a public conveyance (not being a labour cart) demands prepayment of his fare, refuses to convey any person desirous of hiring his conveyance, refuses or delays to proceed with any reasonable expedition, exacts or demands more than the regulated fare, or plies for hire other than at the appointed stands,—the penalty contained in section 17.

23. The driver or attendant may be arrested for causing hurt or damage through negligent misconduct; and in addition to the punishment inflicted by the law, the Magistrate may award compensation, and in default of payment simple imprisonment not exceeding six months.

24. In case of a dispute the hirer *or* driver may require the other to proceed to the nearest Police Court; or to the nearest European Constable should the Court be closed.

25. Licensees of any public conveyance are bound to cause the same to ply for hire, when called upon to do so by the Police, subject to a penalty not exceeding Rs. 50

26. The Licensee to produce before a Magistrate, the driver or attendant of any public conveyance, if summoned to do so, subject to a penalty not exceeding Rs. 50.

27. Fines, &c. may be levied by distraint of the property of the attendant or his employers.

28. If the hirer refuse to pay the lawful fare, a Magistrate may fix the amount and award compensation to the driver or attendant for loss of time; and in default of payment sentence the defaulter to imprisonment not exceeding one month.

29. Wilfully or negligently injuring a public conveyance—a fine not exceeding Rs. 20 and compensation for the injury.

30. If a driver or attendant of a public conveyance is wrongly summoned for refusing to carry any person, and does not improperly conduct himself in making such refusal, the Magistrate may award him compensation for loss of time.

31. Property found in public conveyances to be delivered to the Commissioner of Police, subject to a penalty not exceeding Rs. 50 or one month's imprisonment, or both. The Commissioner of Police will, on application, restore such property to the owner, on payment of all reasonable expenses, and of such reward to the driver or attendant as the Commissioner may award.

32. Police officers may arrest, without warrant, for any offence against this Act, and take possession of the conveyance until judgment.

35. No conviction under this Act to be open to appeal.

36. Attendants include drivers, conductors, hamals, tindals, syrangs, and boatmen.

The Bombay Postal Circle comprises a section of the Continent of India upwards of 1,000 miles in length, and 800 miles in width, and extends over nearly 13 degrees of latitude and 11 of longitude, from the Toongbhudra river at Hurryhur in the south, which is the boundary between the Bombay and Madras Presidencies, to Joudpore in Rajpootana in the North. The postal boundary to the East is the river Wurda, which separates the Central Provinces from Berar, and to the west, the Runn of Kutch at Lucktur, the S. Eastern limit of the province of Scinde. The above district includes the 13 Collectorates and 3 Sub-Collectorates of the Presidency of Bombay, the provinces of Guzerat, Kattiawar and Kutch, a great portion of Marwar, and also the Assigned Districts of the Nizam in the Deccan, known as East and West Berar. On the line of the Sea Coast, the Post Offices of the Bombay Circle reach from Byndoor in Canara to Bushire in the Persian Gulf. In the Circle above described, there are 350 imperial and 80 District Post Offices, and 11,682 miles of Post road. The mails are despatched from the General Post Office, Bombay, for the interior by three lines of Railway, to the north, north-east, and south-east, each of which is between 300 and 500 miles long.

The Town and suburbs of Bombay are divided into ten Postal Districts, and a directory of the streets in each Division has been made to aid posters in addressing their letters according to Divisions, a copy of which may be obtained on application at the Bombay Post Office. The public are recommended to add to the address of letters the number of the street, and of the Postal Division in which the addressees reside, which will expedite delivery and prevent mistakes. The Divisions are as follows:—

Southern (S.)—Bounded on the North by the Mallet Basin; on the South by the Arthur Pier; and on the East and West by the Sea.

South Eastern (S.E.)—Bounded on the North by Thakoordwar and Bhooleshwar Road; on the South by the Esplanade Road; on the East by the Sea; and on the West by Shaik Memon Street.

South Western (S.W.)—Bounded on the North by Poyodonee Road; on the South by the Esplanade Road; on the East by the bunders to Clare Basin; and on the West by Shaik Memon Street.

West Central (W.C.)—Bounded on the North by Grant Road to Gowalla and Chinchpoogly; on the South by Thakerwaddy Road; on the East by the Falkland Road to the Theatre; and on the West by the Sea.

Postal Divisions continued :—

East Central (E. C.)—Bounded on the North by the Baboola Tank Road; on the south by Poyodonee Road; on the East by the Clare and Wady Bunders; and on the West by the Obelisk and Falkland Roads.

Eastern (E.)—Bounded on the North by Chinchpoogly Road to the Police Chowkey; on the South by the Baboola Tank and Val Packady Roads; on the East by the Sea; and on the West by Parell Road.

Western (W.)—Bounded on the North by Mahaluxmee; on the South and West by the Sea; and on the East by Chowpatty and Tardeo Road.

Central (C.)—Bounded on the North by the Byculla Flats; on the South by the Grant and Bellasis Roads; on the East by the Railway line; and on the West by the Mahaluxmee and Tardeo Roads.

Northern (N.)—Bounded on the North by Dadur and Nyagaum; on the South by Chinchpoogly and Sion Road; on the East by the Sea; and on the West by the Railway line.

Colaba.—The whole island south of Arthur Pier.

DELIVERY OF INLAND MAILS AT BOMBAY.

The number of deliveries in Bombay are six, viz., at 8 A.M., 10 A.M., 11-30 A.M., 12-30 P.M., 2 P.M., and 5 P.M. At the Bombay Post Office, they take place a few minutes earlier, as the mail carts leave the General Post Office so as to ensure issue at the same hours from each of the Branch Post Office. There are two deliveries only for *unpaid* letters, at 10 A.M. and 2 P.M. and one delivery for Parcels at 11-30 A.M., and the latter will also be sent round in light carts instead of being delivered on foot. On Sundays there are two deliveries of letters, viz., at 8 A.M. and 2 P.M.

Letters posted half an hour before the prescribed time at Branch Post Offices, and an hour before at detached Letter Boxes, are susceptible of delivery within the same Postal Division within an hour, *i. e.* by the first issue after posting; but, if addressed to another Division, they will be issued by the next following delivery.

DESPATCH OF INLAND MAILS FROM BOMBAY.

The hours of closing the Inland mails are liable to frequent changes; but they will always be found in the columns of the *Times of India.*

Registered Letters and Banghy Parcels are received daily, Sundays excepted, from 7 A.M. to 8 A.M., and from 12 noon to 5 P.M. Parcels and Registered Letters are not received on Sundays.

THE OVERLAND MAIL EXPRESS.—Letters may be posted for despatch to Calcutta, places in Bengal, N. W. Provinces and Central Provinces by the express mail train which usually leaves Bombay about six hours after the arrival of the English mail. A fee of four annas must be prepaid in stamps on each letter, in addition to the usual postage. Express letters must be put into the box which will be placed in the south verandah of the General Post Office, Bombay, when the mail steamer is signalled, and the hour at which the box will be closed will be notified over it. Express letters posted in any of the other boxes will be liable to detention.

MAILS DESPATCHED BY SEA FROM BOMBAY.

OVERLAND MAILS.—The OVERLAND MAILS for the United Kingdom, the Continent of Europe, and America, leave Bombay every Saturday throughout the year, except during the monsoon season (May 26th to Sept. 15th), when they are despatched on Tuesdays. The hours at which the mails close are published regularly in the *Times of India.*

CHINA MAILS.—The latter remark applies also to the fortnightly mails forwarded from BOMBAY to POINT DE GALLE, SINGAPORE, PENANG, HONGKONG, and SHANGHAI, &c.

AUSTRALIAN MAIL.—And also to the monthly mail to the Australian Colonies.

UNITED STATES.—In addition to the Overland Mail route, mails are forwarded to the United States, monthly, *viâ* Hongkong and San Francisco; the American packets being timed to leave Hongkong on the 15th or 16th of each month.

MAILS FOR MAURITIUS.—The Mail Packets formerly plying between Galle and Mauritius having been discontinued, correspondence for the Seychelles, Mauritius, and Réunion may be forwarded by the French Packets which leave Calcutta on the 3rd, and Madras on the 7th, of each month, reaching Aden in time for the French Packets, leaving that place on the 23rd; or *viâ* Bombay by the Overland Mail steamer to Aden, and thence by French Packet.

CAPE OF GOOD HOPE MAILS.—The Mail Packets between Mauritius and Natal having been discontinued, correspondence for Natal, the Cape of Good Hope, St. Helena, and Ascension is sent *viâ* the United Kingdom.

MAILS FOR KURRACHEE AND PERSIAN GULF.—The B. I. S. N. Company's steamers leave Bombay for Kurrachee with the mails every Monday at noon, proceeding every alternate week, from Kurrachee to the Persian Gulf. Post Offices now exist at the following stations in the Persian Gulf and Turkish Arabia, to and from which Letters, Papers, and Packets can be forwarded at the Indian Inland rates:—Guader, Muscat, Linga, Bunder Abbas, Bushire, Bussorah and Bagdad. During the monsoon the steamers leave Bombay on Saturdays.

COAST MAILS.—The B. I. S. N. Co. despatch steamers from Bombay on every alternate Tuesday calling at the principal ports between Bombay and Calcutta. The ports at which the steamers call and the hour at which the Mail closes can always be ascertained from the *Times of India*. Letters, 4 as. per half ounce; Newspapers (not exceeding 4 oz.), 2 as. each; Books and Patterns, 2 as. for every 4 oz.

*** *For Regulations and Rates of Postage to Great Britain, the Colonies, and Foreign Countries, see page* 134 *and following pages.*

GENERAL POSTAL REGULATIONS.

Any person who, for the purpose of defrauding the Post Office revenue, certifies what is not true in respect to the contents thereof, incurs a penalty not exceeding Rs. 200.

It is unlawful for any person, unless acting by an express order of Government, to detain, except for a criminal offence, a Post Office messenger conveying the mails or on any pretence to open a mail packet in transit.

Any person knowingly sending any explosive or dangerous substance by post is liable to a fine not exceeding Rs. 200.

Any person refusing to deliver up a letter or other article delivered to him by mistake by the Post Office, is liable to fine and imprisonment, with hard labour, for two years.

Letters or other articles, suspected of containing contraband articles, or articles liable to duty, may be opened by a Post Master, under the provisions of the Postal Act, Section 60, within 48 hours of arrival, in the presence of the addressee.

No information will be given respecting letters or other articles which pass through the Post Office, except to persons to whom they are addressed.

Persons not belonging to the Department are not allowed admission into the interior of any Post Office, nor permitted to examine the records, without the special permission of the Post Master General, to whom, or to the Inspecting Post Master of the Division, or to the Post Master, applications for information or redress must be made, either in person or in writing.

Postal Officers are not bound to weigh parcels for the public except when at leisure, or when the parcels are received for despatch, as it interferes with their current duties.

Letters directed to Native Officers, or men of Regiments or Detachments, are to be delivered to an Orderly or any other fit person, who shall be deputed by the Officer Commanding the Regiment or Detachment, to receive the same; but letters on which postage may be due, shall not be delivered to such person, unless the postage be first paid.

POSTAGE STAMPS.—Indian Postage stamps only are recognized in India in payment of India postage. Receipt or other Inland Revenue stamps cannot be used as postage stamps, except by the special order of Government, nor can postage stamps that have been torn, cut, or otherwise rendered imperfect. Postage stamps should be affixed to the right hand upper corner of all letters, &c. On re-directed letters care should be taken not to place fresh stamps over any part of the stamps that have been previously used. The crossing of postage stamps, affixed to letters by the initials of the posters, is recommended, as the sale of such stamps is thus rendered almost impossible, but the only obliteration of a stamp recognized by the Post Office is that made by a Post Office obliterator, bearing the number of some Post Office. No Post Master is allowed to fix a postage stamp to a letter brought unstamped to his office. Any Government Stamp vendor refusing, or unnecessarily delaying, to sell Stamps or Postage Labels, is liable to a penalty not exceeding Rs. 100; and when convicted of cheating, or of extortion, is liable to imprisonment for not more than six months, or to a fine of Rs. 100, and also to refund the amount taken in excess.

EXCLUSIVE PRIVILEGES OF THE POST OFFICE.—Wherever postal communicationis established in British India, the Government have the exclusive privilege of conveying by Post, from one place to another, all letters, and of performing all the incidental services of receiving, collecting, sending, despatching, and delivering all letters except in the following cases:—(1). Letters sent by a friend without reward. (2). Letters sent by a special messenger. (3). Letters solely concerning goods or other property, sent either by sea or land, to be delivered with the goods or property which such letters concern, without reward for carrying or delivering such letters. But it is unlawful to make a collection of such excepted letters.

The following persons are *expressly forbidden* to carry letters although they may not receive hire or reward for so doing:—(1.) Common carriers of passengers or goods and their drivers, servants, or agents, except letters solely concerning goods in their charge. (2.) Owners and Commanders of ships, steam boats, or other vessels, passing on any river or canal, or to or from any port in British India, and their servants or Agents, except letters solely concerning goods on board. The above privileges do not extend to newspapers or books, the means of sending being optional to the sender.

The conveyance of letters by private persons, not exempted from the exclusive privilege of carrying them, is illegal, and punishable by a fine of Rupees fifty for every letter. The making a collection of letters to transmit in clubbed packets by post, is punishable by a similar penalty.

The Post Office possesses no exclusive privileges regarding the despatch of Newspapers, Books, and Parcels.

UNPAID LETTERS.—The person to whom any unpaid letter or other article shall be delivered, shall not be bound to pay the postage if he forthwith return the same *unopened*; it will then be recovered from the sender. If any person shall refuse to pay any postage which he is legally bound to pay for any letter, the same may be legally recovered, and it is lawful for the officer in charge of any Post Office to withhold from the person so refusing, until such postage be paid, any other letter or other article addressed to that person, not being on Her Majesty's Service. The postage, however, may be remitted if it shall appear to the satisfaction of the Post Master of the office of delivery, that the letter or other articles has been maliciously sent for the purpose of annoying the person to whom it is addressed.

The postage charged on any letter or other article maliciously sent for the purpose of annoying the addressee may be remitted by the Post Masters at the office of delivery.

CURRENCY NOTES.—Entire Currency Notes should never be sent by Post; if halved and despatched in registered letters on different dates, their safe arrival will generally be secured.

REGISTERED LETTERS.—Letters, Newspapers, and Books, posted in India for delivery in India, can be registered by the payment of 4 annas in addition to the postage, both of which must be prepaid by Stamps. Letters containing remittances or valuable documents ought to be registered, but it must be remembered that the registration of a letter is no security against the abstraction of the contents, though it may ensure delivery, and it thus becomes practicable to trace it from one Post Office to another.

The Post Office is bound to give receipts for registered letters, bearing the address of the letter and the stamp of the Post Office at which it is posted. On the delivery of registered letter a receipt must be given to the letter carrier, upon a printed form

supplied by the Post Office. Registered letters should be enclosed in a substantial envelope, must always be sealed with wax, and be presented at the Post Office window, not thrown into the Letter Box.

The Government are not responsible for any loss or damage which may occur in respect of anything entrusted to the Post Office for conveyance; and no person, employed in the Post Office Department, is responsible for any such loss, unless that person causes such loss or damage, negligently, maliciously, or fraudulently.

The Post Office is not bound to give receipts except for registered letters or parcels; but if written receipts for *parcels* are presented, the Post Office Stamp will be affixed.

MODE OF ADDRESSING LETTERS.—The address of letters should be legible and complete. The primary sorting of letters is by Post towns, not alphabetically, according to the name of the addresses: hence the last word on every letter should be the name of the town to which the letter is to be sent; if it is not at a Post town, the name of the nearest Post town should be given. The name of the District, when necessary, should also be written in a separate line; this latter is often essential owing to the similarity of names of Post towns in different parts of India. Letters posted in one Presidency of India and intended for another, should always have the name of the Presidency added.

The name of the suburb of the Town, and the number of the house also if in a street, are a great assistance. It must not be supposed that because a letter will eventually reach its destination without this information, the omission is not a cause of delay in the process of sorting for delivery, and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the country as well as the Town or City should be given in full. Attention to this precaution will often assist in deciphering the name of the Town or City, and will prevent the letter from being mis-sent when there are Towns of the same name in different countries. Every letter should contain inside the full name and address of the writer, to ensure speedy return if the addressee be not found.

LETTERS TO PERSONS WHO CANNOT BE FOUND.—A list of all letters, &c., addressed to persons who cannot be found, is prepared daily in every Post Office, and exposed to public inspection; and all such letters, &c., which have remained three weeks unclaimed in any Post Office, are (if the sender's name and address be written on the cover) returned to the Posting Office to be delivered to the sender free of all charges. All letters and other articles of which the sender's name and address cannot be ascertained unless they be opened, are, after remaining unclaimed for three weeks, forwarded to the Dead Letter Office. The officer in charge is bound immediately to open all such letters, &c. and if possible return them to the senders. All letters, &c. of which neither the person addressed nor the sender can be found, after they have remained unclaimed in the Dead Letters Office for one year, are destroyed. All money and the proceeds of property thus found in any unclaimed letter are paid into the Public Treasury.

RE-DIRECTED LETTERS.—Every letter or other article re-directed at any Post Office, or forwarded by post from any place to which it shall have been conveyed by Post, will be charged, *in addition to all other postage paid or due thereon*, with the rate of Postage to which it would be liable if posted and prepaid by stamps at the place where it may be re-directed or from which it may be forwarded.

CHANGES OF ADDRESS.—All communications should be made in writing to the Post Master of Bombay, or other Post Masters, and *not* to the Post Master General. The name of the Post Town to which letters will be found addressed should be stated in the application. A separate instruction is required for every change of address, and no instruction is attended to for more than three months after its receipt. Verbal instructions or such as may be of a complicated or conditional nature will not be attended to. In every requisition the station to which letters, &c. are expected to be addressed should be particularly mentioned, otherwise the instruction cannot be attended to. As signatures are sometimes illegible, the full address of the writer should be given in the letter of instruction. No instructions will be received while a mail is in course of issue. A form will be supplied for this purpose at the enquiry window of the General Post Office.—*See also following para.*

RE-DIRECTION OF OVERLAND LETTER.—At one time the Bombay Post Office, as a favour, attended to instructions from the Public for the interception and re-direction of Overland Letters addressed to the interior. The introduction of sorting the Overland Mails, on board steamers between Suez and Bombay, necessitated the abandon-

ment of this system, as letters now reach Bombay ready packed for transmission up-country. Those expecting a change of residence, are recommended to have their letters consigned to some one in Bombay.

SHIP LETTER POSTAGE.—All letters received or despatched by a private ship are charged with an extra postage of one anna upon each letter in addition to all other postage, which is levied on delivery of the letter. Letters intended for dispatch by private vessels should always be marked on the cover "per ship," and in the absence of such direction they will be forwarded by land where land communication exists.

Unless specially superscribed for first despatch by land or sea, or by some particular ship, letters and other articles will be sent by such route as shall appear to the Post Master to afford the means of most speedy and secure transmission.

Commanders of vessels must deliver their mails as soon as possible after arrival under a penalty of Rs. 1,000; and any person on board retaining letters which ought to be delivered to the Post Office, renders himself liable to the same penalty.

Letters once posted cannot be re-called or returned to the senders except by an express order of Government, the Director General of the Post Office, or a Post Master General.

COMPLAINTS on all subjects, especially of surcharge of postage, missending or delay in the delivery of letters, should be made in Bombay to the Post Master, and in the Mofussil to the Inspecting Post Master of the Division; an appeal always lying to the Post Master General. Information as precise as possible regarding all the facts of the case, should accompany the complaint, and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error are supplied.

WINDOW DELIVERY.—No person living within any town free delivery or within the limits of a rural post free delivery, unless he rent a private box, can claim to have his letters delivered at the office window, if a delivery by Letter Carrier or a despatch by Messenger is about to take place; but letters which arrive by a mail, after which there is no immediate delivery by Letter Carrier or Messenger, may be obtained by any person on application at the office window so long as the office is open for delivery. But in order to prevent the additional trouble which is sometimes caused by letters being directed to a Post Office, although for persons residing within a free delivery from such office, but who have no private box, a Post Master is authorized, when such letters arrive by a mail for which there is a delivery from house to house, to refuse to deliver them at the window (even though initials may be substituted for the name), and to send them out by the Letter Carriers.

PRIVATE LETTER BOXES.—Any person can rent a private box, and receive his letters, &c. at the Post Office window, who is willing to pay the appointed fee of twelve rupees per annum—to be paid in advance, and for a period of not less than a year. The same also are the terms for a private bag, except that in addition a charge is made for the cost of the bag itself, and for conveyance,—the maximum of the latter being five rupees per annum if the bag be conveyed by a rural messenger, and ten rupees if by a contractor for a mail cart or other Horse Post. The weight of a private bag when empty is limited to one pound. No private bag shall be allowed without the permission of the Inspecting Post Master. A Window Ticket Holder is entitled to receive, in business hours, all letters and newspapers to his address as soon as they are sorted, independent of the issue of Letter Carriers from the Post Office. Overland letters and papers are, as an exception, given at any hour of the day or night as soon as they can be got ready. A ticket taken by a firm is authority for the delivery to their messengers of all letters for the firm or addressed to the care of the firm, but if not so superscribed they will be sent out with the ordinary delivery peons. Letters, &c., addressed to Window Ticket Holders, will be delivered at the window only and not sent out with Letter Carriers. Window Tickets are applicable only to the Pos, Office at which they are taken out.

DUTIES OF LETTER CARRIERS.—Letter Carriers are prohibited from distributing any letters or newspapers except such as they receive from a Post Office, and are not allowed to demand or receive any payment beyond the postage marked on the unpaid letters or postal articles under distribution; they are liable to punishment of two years imprisonment if any wrong mark is fraudulently put on letters or other articles, or if

any Post Office marks or stamps are erased from such letters or articles by them ; they are also subject to imprisonment for 7 years if they break open, mutilate, or make away with any postal articles or their contents, and are punishable by law for loitering or delaying the delivery of letters, &c., entrusted to them. Letter Carriers are also forbidden to deliver any letter, newspaper, or other article, without requiring *immediate payment of the exact amount of postage.* They are not bound to give change. If the amount of postage due is not at once tendered, and a Letter Carrier is subject to detention, the letters, &c., upon which postage is due, shall be taken back to the Post Office for the next delivery. Letter Carriers are forbidden to deviate from their prescribed route. Whatever postage is marked on a letter, paper, or parcel, must be paid at once on delivery, after which any complaint of overcharge will be duly attended to. Delivering Peons are required to obtain the endorsement of addresses on covers refused by the latter, especially on registered letters, such being necessary for the satisfaction of the senders when the letters are returned to them through the Dead Letter Department and for the protection of the Letter Carriers. When any complaints are preferred against a Letter Carrier, the number on his badge should be specified.

OFFICIAL FRANKING.

On the 1st of August 1866 the authority to frank letters on Her Majesty's Service only, which was given to the Officers and others, was withdrawn, and the following Rules for the payment and settlement of accounts of postage on official correspondence substituted :—

PRIVILEGED OFFICES.—The Public Offices, enumerated in the annexed List, are privileged to send and receive (without actual payment of postage) all letters and packets *bona fide* and exclusively on Her Majesty's Service. The Post Office will keep an account of the Postage due on the official correspondence of each privileged office. Official covers despatched from a privileged office must be properly tied up, faced, and enclosed in a bag sealed with the seal of the office. Each cover must be endorsed, "On Her Majesty's Service only," under the full signature (autograph or stamp) of the head clerk or some other principal officer of the establishment. The address must include the official designation of the office to which the cover is directed. The bag, when made up, must be sent before the hour fixed by the Post Office for the closing of the mails for which it is intended. Official covers addressed to a privileged office by any office not included in the privileged List must be endorsed "On Her Majesty's Service only," under the full signature and official designation of the person by whom they are despatched. The address must include the official designation of the office to which the cover is directed. The official covers for each office are enclosed in the official bag, and sealed and sent out with the ordinary delivery, or given to the messenger of the office, should one be in attendance.

NON-PRIVILEGED OFFICES.—Official covers which are not sent by, or addressed to, a privileged office, are treated in all respects like private covers. Postage labels, marked with the word "Service," are made available for the prepayment of such covers. Service labels are never to be used in payment of the postage of any letter which is not *bona-fide* and exclusively on Her Majesty's Service. Every cover prepaid by service labels must be endorsed, "On Her Majesty's Service only," under the full signature and official designation of the person by whom it is despatched. The address must also include the official designation of the office to which it is directed. If the above conditions be not observed covers (even though stamped with Service labels) will be treated as ordinary unpaid covers. Service labels are procurable at the Treasury or local Stamp Depot of each District; officers requiring such labels must purchase the number required, paying for the same in cash as if they were ordinary postage labels. A receipt for the amount to be given by the officer in charge of the Stamp Depot, will serve as a voucher for the charge to be made in the contingent bill of the purchaser. Service labels are not to be attached to letters addressed to, or despatched from, any privileged office. All officials who do not belong to privileged offices, and who have official correspondence with other than privileged offices, must make arrangements for supplying themselves with service labels either by direct purchase or through their departmental superiors.

CORRESPONDENCE OF LOCAL OFFICIALS WITHIN THE LIMITS OF THEIR RESPECTIVE DISTRICTS.—For the present no change will be made in the arrangements under which the public correspondence of local officials is conveyed, within the limits of their respective districts, by District Post or by General Post.

INDIAN INLAND LETTER POST.

By this post letters and other articles are conveyed between any two Post Offices in India at the following rates :—

Not exceeding...	...¼ Tolah.	½ Tolah.	1 Tolah.	1½ Tolah.	2 Tolahs.
Postage... ...	...6 Pies.	1 Anna.	2 Annas.	3 Annas.	4 Annas.

For every half tolah or fraction of a half tolah above one tolah an additional anna is charged. If the weight be exceeded to the smallest extent the letter becomes liable to the higher rate.

Pre-payment of postage on letters is optional, but unpaid letters are charged double postage at the prepaid rates ; and insufficiently-paid letters double the deficient postage.

Postage can only be paid by means of postage stamps, which should properly be affixed at the upper right hand corner of letters on the address side.

Letters and other postal articles may be registered, but the Registration Fee (4 annas) in addition to the postage, must be prepaid by stamps.

Letters addressed to different parties cannot be enclosed in one cover, and any person collecting, conveying, and delivering letters is liable to a penalty of Rs. 50 for every letter.

* Includes Oriental Translator to Government and Members of Council.

INDIAN INLAND NEWSPAPER AND BOOK POST.

Packets forwarded by this post are transmitted between any two Post Offices in India at the following rates, irrespective of distance, postage to be prepaid by stamps:—

Not exceeding 10 tolahs...	One Anna.
Above 10 and not exceeding 20 tolahs...	Two do.
Every additional 10, or fraction of 10 tolahs...	One do.

NEWSPAPERS.—A Newspaper includes any periodical publication published at regular intervals not exceeding thirty-one days.

Newspapers must be without covers or in short covers open at the ends.

Newspapers, if prepaid, are sent by letter post, but they must not contain any writing except the name and address of the addressee and sender, otherwise they will be charged as an unstamped letter of equal weight.

An extra or supplement to any paper, bearing the same date as the Newspaper and transmitted therewith under the same cover, will be deemed part of the Newspaper.

"Proof Sheets," marked as such, may be sent by the letter post at the rates prescribed for Newspapers, provided "the contents be correctly certified on the cover by the signature in full of the sender;" otherwise the same will be charged with postage at the rate which would be charged on an unstamped letter of equal weight.

BOOK POST.—There is *no restriction* to the articles which may be sent by "Book" or "Packet" Post, excepting letters or communications of the nature of a letter which are not printed, and explosive or dangerous materials.

Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being examined; for the greater security of its contents it may be secured with string, but in such cases the Post Master is authorized to cut the string, although if he do so he must again tie up the packet.

No Book packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the Book, &c., or to whom it is given, are not regarded as a letter. As respects the name and address of the sender, it is recommended, in order that, if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned to the sender.

No Book packet must exceed one foot and half in length, or one foot in width or depth.

No Book packet, exceeding 200 tolahs in weight, can be received for despatch, and any packet exceeding that weight found in any letter box, will be forwarded as a Banghy parcel, if addressed to any place in India.

If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the enclosure will be taken out and forwarded to the address on the packet, charged as an unpaid letter, together with an additional rate; and the remainder of the packet, if duly prepaid, will then be forwarded to its address.

Samples of seeds, &c. may be enclosed in boxes, or in bags of linen or other material, fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they are transparent, so that the officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed the packet will be treated as a letter or banghy parcel, as the case may be.

Scissors, knives, razors, forks, steel-pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like, may be forwarded provided that they be packed in a manner to afford complete protection to the contents of the Mail Bags and Officers of the Post Office, while at the same time they may be easily examined. If any such packet is found not to be sufficiently guarded, it will be stopped, and a notice of its detention sent to the person to whom it is addressed, or to the sender, who may then obtain it upon personal application; but the packet will be charged with a fine equal in amount to the postage to which it was liable.

To prevent obstacles to the regular transmission of letters, a Post Master may, when necessary, delay forwarding any book packet, not a newspaper, for a period not exceeding twenty-four hours beyond the ordinary time.

If the postage chargeable on Books, Packets of Newspapers, &c. be not prepaid as above, they will be subject to Banghy rates of postage, but if partially prepaid, *i.e.* by stamps of the value of one rate, double the deficient postage will be charged.

All book-packets, not exceeding ten tolahs in weight, sent through the Post Office, are conveyed by Letter-Post, and charged with letter postage, *unless specially directed to be sent by Banghy or Book-packet Post.*

The Post Office possesses no exclusive privileges regarding the despatch of Newspapers and Books.

Postage must be paid by Stamps, but prepayment is optional.

The transmission of Books and other parcels by Banghy Post during the Monsoon months, unless they are originally packed so as to be water-proof, is attended with much risk, especially on roads on which the Banghy Mails are conveyed by Runners, and which are often during the rains intersected by deep water-courses through which the Runners have to wade. Parcels not made water-tight are liable to receive damage from wet, for which the Post Office is not responsible.

No Parcel can be received for transmission by Banghy Post unless it be securely packed in cloth, wax cloth, or tin, and, even when so packed, not unless seals bearing distinct impressions of some device (not that of a current coin) be fixed at intervals not exceeding 3 inches, along the line of sewing by which the covering is secured.

No Banghy parcel may exceed 3 feet in length, one in breadth, one in depth, or 2,590 cubic inches in bulk.

Not more than one letter can be enclosed in a Banghy parcel, under a penalty not exceeding fifty rupees.

All Banghy Parcels not exceeding 10 tolahs in weight sent through the Post Office are conveyed by Letter Post, and are charged with Letter Postage, unless specially directed to be sent by Banghy Post.

Receipts for Parcels, when presented ready written, either in Books or on separate slips of paper, along with the parcels, will be stamped with the Post Office stamp.

No Parcel exceeding 2,000 tolahs in weight shall be received for despatch at any Post Office, and no parcel exceeding 600 tolahs on any line of road on which the Banghy Mails are carried by Foot Runners.

Parcels received from seaward exceeding the weight which may be sent by Banghy Post will be made over to the Collector of Customs.

Where there is no Banghy Post established on any line of road, parcels, books, and other articles are received and transmitted by the Letter Post, and are charged with Banghy or Book postage as the case may be, if it be certified in writing, on such parcel, book packet, or other article, under the full signature and address of the sender, that it does not contain any letter or other written communication on which a higher rate of postage is chargeable. If any such certificate be false, any such letter or other written communication contained in such certified parcel, will be charged with letter postage as if sent separately, and the sender will be liable to a heavy penalty.

Parcels once posted cannot be recalled by the senders.

Parcels cannot be forwarded to England at Banghy rates of postage.

Parcels cannot be posted on Sundays, and on week days there are fixed hours for posting at every Post Office. In Bombay they must be posted between 7 and 8 A.M. and 12 A.M. and 5 P. M.

Parcels for stations on lines of Railways cannot be transmitted by Banghy Post, but must be made over to the Railway Companies for conveyance.

SHIP POSTAGE RATES ON PARCELS CONVEYED BY MEANS OF HER MAJESTY'S INDIAN POST.

FOREIGN POSTAL REGULATIONS.

The rates of postage to Great Britain, the Colonies, and to foreign parts, will be found on pages 134 to 147.

The rates by British or French Packet are alike unless otherwise specified.

The registration fee is the same for Newspapers, Books, and Parcels, as for Letters.

Any periodical published at intervals not exceeding 31 days is considered a Newspaper, and any number of papers may be sent under one cover provided Postage is prepaid in stamps for each Newspaper according to weight of each.

Newspapers must have either no cover or a cover open at the ends.

Newspapers must not contain any enclosure.

Where no rates are given, Newspapers, &c., can only be forwarded at the letter rate of postage.

Newspapers for places marked ‡ in the tables on pages 135 to 147, cannot be fully prepaid in this country, but are liable to Indian Inland postage, which must be prepaid.

AFTER-PACKET letters are not forwarded unless an 8-anna stamp is affixed to the letter, in addition to the postage.

BOOK AND PATTERN POST.

GREAT BRITAIN.

Under the following conditions as to mode of packing, exclusion of all communications of the nature of a letter, and prepayment of Postage by means of stamps, packets of books, patterns, publications, or works of literature or art, whether British, Colonial or Foreign ; and all packets consisting of printed votes and proceedings of the Imperial Parliament or any Colonial Legislature, may be transmitted between any part of India and the United Kingdom, at the rates of Postage on page 147 :—

No packet may exceed 5 lbs. (200 tolahs) in weight, and the postage *must* be prepaid by means of stamps affixed outside the packet or its cover.

Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the enclosures being removed for examination. Samples, however, of seeds, &c. may be enclosed in boxes or in bags of linen, or other material fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they are transparent, so that the officers of the Department may be able to satisfy themselves as to the nature of the contents. If this rule be infringed, the packet will be treated as a letter.

A book packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass), prints or maps, and any quantity of paper, parchment or vellum, and the books or other publications, prints, maps, &c. may be either printed, written, engraved, lithographed or plain or any mixture of these; but no printed matter or prints will be allowed, except such as may be printed on paper, parchment or vellum. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, will be allowed, whether such binding, &c. be loose or attached ; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books ; and in short whatever is necessary for the safe transmission of such articles, or usually appertains thereto ; but the bindings, &c., must not be sent as a separate packet.

The packet must not contain any letter closed or open, or any enclosure sealed or otherwise closed against inspection, nor must there be any letter or any communication of the nature of a letter written or printed in any such packet or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. In the case of packets of patterns, the address of the sender, a trade mark and numbers, and the prices of the articles, may be written, not on loose pieces of papers, but on the cover, or on small labels attached to the samples or bags containing them.

No book or pattern packet can be received, if it exceeds two feet in length, width or depth.

The prohibition which previously existed to the transmission, as patterns, of articles of intrinsic value by the Post between the United Kingdom and India, has been withdrawn.

The rule which forbids the transmission through the Post of an article which might injure the contents of the mail bags, or the officers of the Post Office, is so far relaxed as to permit the transmission of scissors, knives, razors, forks, steel-pens, nails, keys, watch machinery, metal tubings, pieces of metal or ore, and such like as samples; provided that they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags and the officers of the Post Office, while at the same time, the samples may be easily examined. If any packet containing such article as these be posted, which is found not to be sufficiently guarded, it will be stopped.

Samples of seed and similar articles may be sent in the bags entirely closed if transparent, so that the officers of the Post Office may satisfy themselves of the nature of the contents.

In exception to the rule permitting *articles of intrinsic value* to be forwarded, it must be understood that such articles *cannot be forwarded in the Mails viâ Marseilles.*

Any packet which shall not be open to examination, or shall have any letter or any communication of the nature of a letter written or printed in it or upon its cover, will be charged with letter postage.

If a packet be found to contain any letter not wholly printed, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional book rate, that is, with the postage chargeable on a book weighing not more than half a pound—the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

MALTA, GIBRALTAR, CEYLON, CHINA, AND THE AUSTRALIAN COLONIES.

Subject to the conditions under which packets of books, patterns, publications, &c., are forwarded to Great Britain, they can be sent to Mauritius, Ceylon, Hongkong, Singapore, Penang, and the Australian Colonies.

FOREIGN COUNTRIES.

The regulations are the same as to Great Britain, with the following exceptions:—

The patterns or samples must *not* be of intrinsic value. This rule excludes all articles of a saleable nature, and, indeed, whatever may have a value of its own, apart from its mere use as a pattern or sample; and the quantity of any material sent ostensibly as a pattern or sample must not be so great that it can fairly be considered as having on this ground an intrinsic value.

Unless otherwise specified in the preceding tables, the weight of a parcel is limited to 3 lbs.

GERMAN STATES.

The following is the list of German States referred to on pages 138 and 139:—Baden, Bavaria, Birkenfeld, Bremen, Frankfort-Sur-Maine, Hamburg, Hesse Darmstadt, Hesse Electoral, Hesse Homburg, Hohenzollern, Lippe Detmold, Lubeck, Luxemburg, Nassau, Reuss, Saxe-Coburg Gotha, Saxe-Meiningen-Hildburghausen, Saxe-Weimar Eisenach, Schaumburg Lippe, Schwartzburg Ruderstadt, Schwartzburg Sonderhausen, Wurtemburg.

UNPAID AND INSUFFICIENTLY PAID COVERS.

1. *Letters.*—Where pre-payment of letter postage is compulsory, (*i. e.*, places or routes marked with a * in the preceding Table), unpaid or insufficiently paid letters cannot be forwarded. Where prepayment of letter postage is optional, unpaid letters are forwarded subject to the recovery on delivery of such postage as may be chargeable under the regulations of the country to which they are sent; and insufficiently paid letters are treated as if wholly unpaid, except in the case of insufficiently paid letters addressed to the United Kingdom, which are charged with the deficiency, together with a fine of the same amount as that levied on unpaid letters. Unpaid letters for the United Kingdom are charged on delivery at prepaid rates, together with a fine of 9*d.* in the case of ordinary letters; 6*d.* in the case of officers' letters; and 1d. in the case of soldiers' letters.

2. *Newspapers.*—The pre-payment of Newspaper postage is compulsory, and no unpaid or insufficiently paid cover can be forwarded; except in the case of Newspapers addressed to the United Kingdom, which, if they are paid to the extent of at least 8 pie, are forwarded *via* Southampton charged with the deficiency, together with a fine of one penny.

3. *Packets of Books and Patterns.*—The pre-payment of postage on Packets is compulsory, and no unpaid or insufficiently paid covers can be forwarded; except in the case of Packets addressed to the United Kingdom, which, if wholly unpaid, are forwarded, charged with double postage, and if insufficiently paid, are forwarded, charged with the deficiency, together with a fine of 4*d.*

CHARGES ON DELIVERY IN INDIA.

4. Covers which may be re-directed in India, whether at the place of address, or at the Port where the mails are landed, are charged with ordinary Indian inland postage in addition to any other postage which may be due.

5. *Letters.*—Paid letters received, the payment on which includes Indian postage, or on which Indian postage is not levied, are delivered in India without charge. Under this head come paid letters received from the places and by the routes mentioned in the following statement, which shows also the mode of treating insufficiently paid and unpaid letters received from the places in question, *viz*:—

Letters received from other places or by other routes do not bear payment to destination in India, and are therefore chargeable on delivery at ordinary inland (forwarded) rates according to weight in Tolas. In this class are included letters received from the following places by the routes mentioned: Foreign Europe *via Trieste*, by British Packet; Greece, Turkey in Europe, or Austrian Post Offices in Turkey, *through Austrian Post Office at Alexandria*, by British Packet; Spain, Portugal, Madeira, Cape de Verd or Azores *via Gibraltar*, by British Packet.

* In these cases the delivery is free, owing to an arrangement under which double Indian postage is charged on letters despatched.

6. *Newspapers and Packets of Books and Patterns.*—Paid Newspapers and Packets of Books and Patterns received, the payment on which includes Indian inland postage, or on which Indian inland postage is not levied, are not chargeable with additional postage on delivery in India. Under this head come paid Newspapers and Packets from the places and by the routes mentioned in the following statements, which show also the mode of treating insufficiently paid and unpaid Newspapers from the places in question:—

From	Paid Newspapers Received.	Insufficiently paid Newspapers Received.	Unpaid Newspapers Received.

POSTAL REGULATIONS FOR THE ARMY AND NAVY.

COMMISSIONED OFFICERS.

The following Rules and Table of Rates are based on a Treasury Warrant, bearing date the 27th September 1867 (with a subsequent modification made by Her Majesty's Post Master General, under which the scale of charges increases after the first ounce by half ounces, instead of by whole ounces), and on a Treasury Warrant bearing date the 1st May 1868:—

Letters Posted in India.

The sender must be a Commissioned or Warrant Officer, or a Superintending or 1st Class School Master of the Army, actually employed (otherwise than in Civil employ) in Her Majesty's service in India.

The letter must be one addressed to the United Kingdom.

The letter must bear by way of superscription—

1. The signature of the officer who sends the letter;
2. The signature of the Commanding Officer of the Regiment, Corps, or Detachment in which the sender is serving, or of the local head of the Department to which he belongs;
3. A specification by the Commanding Officer or local head of the name of the Regiment, Corps, or Detachment in which the officer is serving, or of the Department to which he belongs.

The superscription on letters posted in India should be given in the following form, care being taken by the Commanding Officer, or head of the Department who countersigns the cover, to write his name, &c., crossways as shown below:—

Viâ Southampton

(A. B.) Colonel. Commanding Her Majesty's 1st N. I.

Mrs. Jones,
37, Regent Street,
London.

From
(Signed) A. Jones, Captain,
Her Majesty's 1st N. I.

or

Viâ Southampton

(Countersigned) (C. D.) Colonel, Quarter Master General.

Mrs. Jones,
37, Regent Street,
London.

From
(Signed) A. B., Major,
Deputy Quarter Master General.

Letters Delivered in India.

The letter must be one which has been posted in the United Kingdom.

It must be addressed to a Commissioned or Warrant Officer or a Superintending or 1st Class School Master of the Army, actually employed (otherwise than in Civil employ) in Her Majesty's service in India.

It must bear by way of superscription—

1. The rank of the addressee; and
2. The Regiment, Corps, or Detachment in which he is serving, or the Department to which he belongs.

As regards the term "Civil employ," all Military Officers serving under the orders of the Civil Administration (*i. e.*, not under the orders of the Commander-in-Chief) are regarded as being in Civil employ. For instance, Military Officers belonging to the Survey, Public Works, Education, Telegraph, Post Office, Police, Jail, and other similar Departments, as well as Secretaries to Government, Cantonment Magistrates, Commissioners, Deputy Commissioners, Civil Surgeons, Chaplains,* &c. are regarded as being in Civil employ.

The condition that the officer must be "actually employed" in Her Majesty's service in India, excludes officers who may be on leave from a title to claim the privilege.

The term local head of a Department is regarded as meaning the chief officer of the Department in the station where the letter is posted. It has been ruled under this head that a Brigade Major at a station where there is a General Commanding Officer, must have his letters countersigned by the General.

Letters for which the privilege may be claimed, but without complete fulfilment of the above conditions, will be treated as ordinary covers.

The privileged rates, subject to the above-mentioned condition, are as follows :—

Letters sent "by French Packet" are not entitled to any privilege, being chargeable at the same rates as letters sent by that route from or to the public generally.

Unpaid letters, or insufficiently paid letters, will be liable to the deficient postage, together with a further rate of 4 annas, or 6d., as a fine.

Officers' letters received in India from the United Kingdom, if addressed to the care of an Agent or any other person, are not entitled to the foregoing privileges, but are liable to the ordinary rate of postage.

Officers' letters received in India from the United Kingdom which have to be redirected to another place in India, are liable to the ordinary Inland charge for redirection; but if the officer has removed *upon service* to the United Kingdom or any other station abroad, the letter will be re-directed without any additional charge for British Packet Postage.

SOLDIERS' AND SEAMEN'S LETTERS.

Subject to the subjoined Regulations, Non-Commissioned Officers, Band Masters, Army School Masters (not being Superintending or 1st Class Schoolmasters), Army School Mistresses, Private Soldiers, or Seamen belonging to Her Majesty's ships, can send and receive letters by British packet for a postage of 8 pie; but if any such letters

*Some Highland Regiments in India have Presbyterian Chaplains attached to them. Such Chaplains are entitled to the same privileges under the Warrant as Regimental Officers.

have to pass through a foreign country, they are subject, in addition, to the foreign postage, whatever that may be. Thus, the postage to the undermentioned countries (including the British packet charge of 8 pie) is as follows :—

By British Packet.	*viâ* Southampton.			*viâ* Marseilles.		
	R.	A.	P.	R.	A.	P.
To or from the United Kingdom	0	0	8	0	3	4
To or from Chili, Peru, or any other place in the South Pacific, Vancouver's Islands, or British Columbia	0	1	4	0	4	0
To or from Canada	0	0	8	0	3	4

To or from Malta, Gibraltar, China, Ceylon, or Australia, 8 pie.

To or from Mauritius, *viâ* Bombay by British packet to Aden, and thence by French packet—4 annas 8 pie.

The person claiming the privilege must at the time be actually employed in the service of Her Majesty, and must not be either a Commissioned Officer, or a Warrant Officer, or a Superintending or 1st Class School Master.

The postage must be prepaid, except in respect of letters addressed to the United Kingdom, or other places to which the prepayment of letter postage on ordinary letters is optional. Unpaid letters received in India are charged, on delivery, 1 anna 4 pie, together with any foreign postage which may be due.

The letter *must not weigh more than half an ounce.*

It must relate entirely to the private concerns of the Soldier, Seaman, &c.

The name of the Soldier, Seaman, &c., with his class or description, must appear on the direction, and the officer having the command must sign his name and specify the Ship or Regiment, Corps, or Detachment to which the Soldier or Seaman belongs : the name of the Ship or Regiment being entered in full. The foregoing particulars should be given in one of the following forms :—

For Seamen.

If the letter exceed half an ounce (the foregoing regulations being in other respects complied with), it will be forwarded, charged with the same postage as a Commissioned Officer's letter if addressed to the United Kingdom, but if addressed to any other colony or place abroad it will be treated as an ordinary letter.

Soldiers' or Seamen's letters received in India from abroad, if addressed to the care of an agent or any other person, are liable to the ordinary rate of postage, the privilege of receiving letters at reduced rates being confined to such letters as are addressed directly to them.

Letters received in India from abroad for Soldiers or Seamen who may have removed *upon service* to another place in India, are not subject to any charge for re-direction, provided that the foregoing conditions have been fulfilled, and that the letter does not exceed half an ounce. Subject to the same proviso, letters will be re-directed to Soldiers and Seamen who may have removed *upon service* to the United Kingdom, or any other station abroad without any additional charge for British packet postage.

CUSTOMS DUTIES.

An Act to amend the law relating to Customs Duties in India received the assent of the Governor General in March 1867, the Act being entitled the "Indian Customs Duties Act, 1867." This Act provides that the duties specified in the two following schedules shall be levied in every port in British India, and that all articles other than those specified in the said schedules shall (with the exception of Salt and Opium) be duty free.

TRANSHIPMENT RULES.

The following Rules for the Transhipment, without payment of duty, of goods imported into Bombay by steamers under the provisions of Act XX. of 1867, received the sanction of Government on October 1st, 1867 :—

1. Transhipments of goods imported by steamers at the port of Bombay, and intended for other ports will be allowed under Act XX. of 1867.
2. The Steam Navigation Company importing goods by steamers for such transhipment is required to prepare a separate manifest of such goods in duplicate.
3. The original to be attached to the General Manifest, and the duplicate to be presented to the Custom House officer, who boards the steamer.
4. The Custom House officer will then allow all goods so separately manifested to be transhipped on board another steamer without delay.
5. The Agent or Manager of the Steam Navigation Company will, immediately on such transhipment, pay at the Custom House the authorized Fee of Annas Two for every bale, package, or parcel so transhipped, and obtain a receipt from the Custom House.
6. Goods so transhipped will then be included in the Export General Manifest of the steamer on which the goods have been transhipped, to enable the authorities at the port of destination or import to levy customs on dutiable goods.

GOVERNMENT WHARFAGE FEES.

The following periods are allowed for removing goods, free of Wharfage Fees, from the Government Wharves, Piers or Sheds, or other authorized landing places of the Custom Houses within the Town and Island of Bombay:—

Town Custom House.

Dutiable Goods.

On the Pier..... 24 hours } From the time of depositing or landing.
Import side ..... 7 days }
Export side ..... 3 days from the time of depositing.

Free Goods.

Import and Export sides ... 2 days from the time of depositing or landing.

All other Government Bunders.

Dutiable Goods.

Import side ..... 7 days from the time of depositing or landing.
Export side ..... 3 days from the time of depositing.

Free Goods.

Import and Export sides ... 2 days from time of depositing or landing.

On all goods not cleared and removed beyond the Custom House premises within the periods above specified, wharfage fees or warehouse rent will be charged according to the rates specified below.

The day of landing or depositing and that of removal will be reckoned as one day Sundays and holidays will be allowed in addition to the other rent-free periods, and when delay is caused by the inability of the Custom House Officers to examine and pass goods after application made in due course for that purpose, the days of such delay will not be reckoned in any term.

The scale specified below is generally in excess of that hitherto in operation: it is now raised not with any view of Government deriving an increased revenue from wharfage or warehouse rents, but solely that parties landing or shipping goods may be induced to do so with despatch, and that goods may not be left for long periods within the Custom House premises, to the great obstruction of business, merely because the owners may find it cheaper to deposit them there than elsewhere.

Government Wharfage Fees or Warehouse Rent, per Week.

Articles not enumerated in the following table are assessed as follows:—

CONDITIONS, REGULATIONS, AND GENERAL INFORMATION.

PASSENGERS.

The Company's Rates of Passage Money are for the sea passage only. They include Stewards' Fees, Table, Wines, &c., for First-class Passengers. Bedding, linen, and all requisite Cabin Furniture are provided in the Steamers at the Company's expense, together with the attendance of experienced male and female servants.

Servants soliciting gratuities will be dismissed from the Company s service.

Passengers not embarking after engaging passage, forfeit the deposit of half the amount of passage-money. In case, however, of a passenger being unavoidably prevented from availing himself of a passage at the period for which it is taken, a transfer of the passage can be effected to a subsequent Steamer, on sufficient notice being given, without forfeiture of any portion of the deposit paid.

Passengers have to comply with the regulations established on board the Steamers for general comfort and safety.

No berth or Cabin can be occupied by a passenger without application to the Agent on shore, or to the Purser on board. It is understood that a passenger occupying a cabin of two or more berths, on the departure of the vessel (unless he shall have paid an additional sum for its exclusive occupation) is not to object to the vacant berth or berths being filled up at the intermediate ports if required.

Passengers from Bombay for Madras, Calcutta and Australia, are transferred to the Calcutta and Sydney steamers at Point de Galle, and will be required to defray their own Hotel expenses in the event of any detention.

The intermediate rates of passage-money for reserved accommodation between Bombay and ports in India, China and Australia is regulated according to the accommodation required.

The Company do not undertake to convey Second-class passengers in their vessels from Bombay, except under special circumstances; but when conveyed, they have to accept such accommodation as circumstances may enable the Company to provide for them.

The rates for Native servants, between ports in India and China, include a passage back to the port of embarkation should the First-class passenger be desirous of sending the servants back at once. A reduction of one half is made in favour of Native servants returning from England within three months after arrival from India.

Passengers are at liberty to remain at one or more intermediate ports, and proceed by the succeeding steamer, upon application to the Agent, who will give written permission on the passage ticket.

Passengers from Australia, China and the Straits for Europe can book their passage via Bombay, staying a fortnight (at their own expense) without extra passage-money.

The passage tickets are granted by the Company, subject to certain conditions and regulations which are endorsed thereon; and before the tickets can be made available, the passengers have to subscribe to the conditions by affixing their signatures thereto.

The Company do not hold themselves liable for detention or delay of passengers arising from accident or from extraordinary or unavoidable circumstances, or from circumstances arising out of or connected with the employment of the Company's vessels in Her Majesty's Mail Service, nor do the Company hold themselves liable for damage to or loss or detention of passengers' baggage, or for any consequences arising from the restriction of quarantine wheresoever imposed. In all cases in which the Company's steamers may be placed in quarantine, First-class passengers are charged Ten Shillings, and Second-class passengers Five Shillings per diem for their maintenance on board during the detention of the ship.

TRANSIT THROUGH EGYPT.

Railway tickets for the journey through Egypt are issued by the Agents of the Company on behalf of the Egyptian Government; or it is optional with the passengers to pay the Company for the sea passage only, and to pay their own transit through Egypt upon arrival at Alexandria or Suez as the case may be.

Passengers booked through by the P. & O. S. N. Co., or their Agents, are conveyed from ship to ship between Alexandria and Suez by the Transit Administration of the Egyptian Government, as follows:—

By Steam Tender between the Ship and Shore.

By Omnibus or Carriage conveyance between Hotels and Railway Stations.

By Rail between Alexandria and Suez—1st Class passengers, their Children, and Servants in charge of the latter, being conveyed in 1st Class; and 2nd Class passengers and their Children in 2nd Class Carriages.

First Class Passengers	Rs. 45
Second „ „	„ 22½
Children above 3 and under 10 years	Half Fare.
„ under 3 years	Free.

The time occupied in transit between Suez and Alexandria (225 miles) will, under ordinary circumstances, be about ten hours.

Passengers will be charged for the refreshments they receive during the journey,

Passengers passing through Egypt are charged by the Transit Administration 10s. per cwt. for conveyance of baggage through, should it exceed, for First-class passengers 336 lbs. each, and Second-class 168 lbs. each; Children, paying half fare, are allowed half the quantity of baggage for adults. This amount is collected on board the Company's steamers, for the convenience of passengers.

BAGGAGE.

The attention of passengers by the Overland Route to and from India, China, &c. is requested to the undernoted Company's Regulations in reference to baggage; much trouble and loss is occasionally caused by their neglect or non-observance. These regulations are equally important to passengers performing the land journey between Suez and Alexandria, for the Egyptian Transit Administration do not accept any responsibility unless they are strictly complied with :—

All baggage should be addressed in paint in full, and, in addition, passengers will be supplied on board the steamers with printed "Destination Labels," which should be affixed to all packages, however trifling, before arrival at Suez.

All baggage should be packed in leather portmanteaux or trunks, and fastened securely with case locks; padlocks and leather straps being liable to damage or removal. The Transit administration will not be responsible for the safe conveyance of deal cases, band-boxes, carpet bags, or other unsuitable and insecure packages.

Passengers using canvas covers for their trunks, &c., should be careful to have the package as well as the cover properly addressed.

Packages containing Jewellery, Plate, or other valuables must be specially booked, and Freight paid thereon.

Packages containing Parcels, Specie, or Merchandise, are liable to seizure and confiscation in Egypt, and to detention for Freight by the agents of the Company.

First-Class passengers are allowed 336 lbs. *of personal* baggage free of freight, and Children (over three and under ten years) and Servants, 168 lbs. each.

A passenger taking a whole cabin will be entitled to take in the steamers, free of Freight, 4½ cwt.; and a married couple, paying for reserved accommodation, will be entitled to take 9 cwt.

The charge for conveyance of extra baggage, should there be room in the vessel, will be at the rate of Rs. 5 per cwt., between Southampton, Gibraltar, Marseilles, Malta, or Alexandria; Rs. 10 per cwt. between Suez, India, China and Australia; with Rs. 5 per cwt. for transit expences through Egypt. This is collected on board the steamers for the convenience of passengers.

Passengers proceeding via Marseilles can have their baggage conveyed to Southampton free of charge.

Passengers requiring information respecting their baggage during the voyage can obtain it by application to the Officer in charge.

Passengers who may miss any package of baggage on arrival at their destination, are recommended to apply, *without delay*, to the Company's Agent, giving full particulars, *in writing*, when application will at once be made to the Missing Baggage Depôts at Bombay or at Southampton.

Baggage can be occasionally had up from the Baggage-room during the passage, by application to the Officer in charge.

No trunks or boxes allowed in the Saloon or Cabins, but only small portmanteaux or carpet bags.

The insurance of baggage can be effected on very moderate terms.

The Egyptian Transit Administration have issued a notice that they will decline to take charge of any packages of baggage, intended for despatch through Egypt, that are not properly secured; passengers are therefore required to see that all portmanteaux, boxes, &c., shipped by the steamers of this Company for Europe, are thoroughly efficient in this respect, and thus obviate the probability of any plunder or delay in Egypt.

Passengers homewards proceeding via Trieste, who have been conveyed to Suez in the Peninsular and Oriental Company's steamers, can ship their baggage by the Company's vessels from Alexandria to Southampton subject to the following charge inclusive of the charge of transport made by the Transit Administration of Egypt payable in advance:—

For the regulated allowance of 3 cwt., Rs. 10 per cwt
For any excess over 3 cwt., Rs. 15 per cwt

RATES OF FREIGHT FROM BOMBAY.

LIGHT PACKAGES AND PARCELS.

From Bombay to Malta, Marseilles, Gibraltar, and England.

The Company reserve to themselves the right of charging freight by value, weight, or measurement, and will not be answerable for leakage, breakage, or consequences arising from insufficiency of address or package, or for any loss, damage, detention, or over-carriage, which may arise from the following regulations not being strictly complied with :—

When the value of a package exceeds Rs. 1,000, Bills of Lading will be issued on the Company's black or red form, at the shipper's option. In the latter form all insurable risks are borne by the company (*vide* additional rates of freight)

All parcels must be packed securely, and accompanied with a written declaration of contents and value, or they will not be received.

The Company are not to be responsible for any delay or Customs' restrictions that may be imposed consequent upon a wrong declaration by shippers of contents and values; and shippers and consignees will be held liable for all expenses arising therefrom, and subjected to a charge of double Freight.

Shipments must be made in accordance with the Company's Regulations at each Agency.

The marks, numbers, and port of destination must be distinctly marked on every package.

Packages exceeding one cubic foot should be in cases, iron-clamped at each end.

Packages should not exceed 100 lbs. in weight, or they may be unavoidably detained in Egypt.

Parcels deliverable in England will be cleared through the Custom-House, at Southampton, and forwarded to their several addresses by the Company, to whom duty and all other charges incurred will have to be paid.

Should the weight of Parcels to Malta, Marseilles, Gibraltar, and Southampton exceed 20 lbs. to the cubic foot, an extra charge of 4 annas per lb. is made on the additional weight.

Parcels are to be applied for to the Company's Agents at the port of delivery.

Parcel Tickets, in which particulars of risk are specified, will be given on payment of Freight.

The following are the PARCEL RATES :—

The Company land all parcels immediately on arrival of the Mail Steamer. All separate cases are delivered to the owners, at the Custom House,—but valuables and small parcels are cleared by the Company and delivered at their Office.

CAUTION TO SHIPPERS—GOODS OF A DANGEROUS NATURE.

The Company will not receive on board of their vessels any Goods of a dangerous or damaging nature. Shippers are required to sign a declaration to that effect.

THE POSTAL CONTRACT WITH THE P. & O. COMPANY.

THE following is a summary of the Articles of Agreement between the Post Master General and the P. & O. Company, which were signed in London on November 19th 1867 :—

Article 1 defines the meaning of the term "mail," as including everything that can be forwarded by post under existing regulations, together with all bags, boxes, &c., used for that purpose.

2. The Post Master General to have power to modify the existing regulations, as to articles transmissible by post, subject, if necessary, to the subsidy being also modified

3. The Company to provide a sufficient number of good, substantial, and efficien steam vessels of adequate power and speed.

4. The vessel to be properly equipped, manned, and officered, and to carry an efficient Surgeon.

5. The Company to land and embark the mails at Bombay, and to keep in readiness a small steamer for that purpose.

6. Vessels to be withdrawn from the service when declared unfit by the Post Master General, the Company being at liberty to show cause to the contrary.

7. The equipments, officers. engineers, and crew of the vessels, while in any British port, to be subject at all times to the inspection of the postal authorities.

8. The average speed at which the mails are to be carried, to be not less than 10 knots per hour between Great Britain and Alexandria, and not less than 9½ knots per hour on the routes east of Suez.

9. The Post Master General to fix the day of the week and the hour of sailing ; the vessels to put to sea immediately the mails are embarked.

10. The postal agents to have the power to delay the departure of the steamer not exceeding 24 hours, if they deem it requisite for the public service.

11. The Post Master General to be at liberty to alter the days and time of departure of the steamers by giving three months' notice to the Company.

12. The Post Master General to have the power to increase or decrease the frequency of the mails, to extend the service to ports not specified in the agreement, and to substitute Brindisi for Marseilles, on giving reasonable notice to the Company. Any alteration in the subsidy thereby rendered necessary, to be mutually agreed upon or settled by arbitration.

13. Any altered time of departure made under Articles 11 and 12 to be deemed the proper days and hours for the time being, and to be duly observed.

14. The Company to be liable to a penalty of £50 for every complete period of 24 hours the delivery of the mails may be delayed at any port beyond the contract time, but the penalty not to be enforced if it can be shown, to the satisfaction of the postal authorities, that the delay arises from causes over which the Company has no control.

15. The Company to have a premium of £25 for every complete period of 24 hours the mails may be delivered at any port before the contract time.

16. The extra days allowed during the monsoon to be taken into account as far as penalties are concerned, but not as regards premiums.

17. The Company to be subject to a penalty of £500 if it fails to provide an efficient vessel ready to proceed to sea at the day and hour fixed by the agreement ; and to an additional £100 for every successive 24 hours which shall elapse before the vessel proceeds to sea. The penalty on any one voyage not to be more than £1,000 in excess of the share of the subsidy applicable to the voyage in which default shall be made.

18. The steamers to carry a naval agent, if required to do so, who will have full authority to insist upon a due and strict performance of the agreement on the part of the Company.

19. West of Alexandria, the mails to be under charge of a Civil officer in the service of the Post Office, and the Post Master General to be at liberty to substitute a Civil for a Naval officer on the routes East of Suez.

20. Suitable accommodation to be provided for such officers, free of charge.

21. The Company also to provide suitable accommodation for any additional officers that may be required for sorting the mails on board.

22. The Company to provide on each steamer a secure and convenient room for the deposit of the mails, and in addition a separate and convenient room for sorting if required to do so.

23. The Postal Agent to be conveyed by the Company between the vessel and the shore at any place where the steamers may call.

24. In the absence of a Postal Agent, the commanders of the vessels to be responsible for the security of the mails, without remuneration.

25. The Company not to carry any letters other than those in charge of the postal agent, or which may be privileged by law; nor any mails on behalf of any colony or foreign country, without the consent of the Post Master General.

26. The Company and its servants at all times punctually to attend to the orders of the Post Master General or his Agents.

27. The Company to convey in any one vessel, when required to do so, any number of Her Majesty's Naval, Military, or Civil officers not exceeding eight, with or without their wives, children, and servants, as first class passengers; any number of Non-Commissioned and Warrant officers not exceeding four, with or without their wives, children, and servants, as second class passengers; any number of seamen, marines, soldiers, or artificers in Her Majesty's service, not exceeding ten, with or without their wives and children, as deck or third class passengers.

28. The Government passengers so conveyed, to be treated in no respects inferior to ordinary passengers.

29. The passage money for Government passengers to be the same as that charged by the Company for ordinary passengers.

30. Returns of the embarkation and disembarkation of all Government passengers to be promptly furnished to the Director of Transport services.

31. Provides how payment shall be obtained for Government passengers.

32. The baggage regulations for Government passengers to be the same as for ordinary passengers.

33. The passage money of Government servants when not ordered to be conveyed at the public expense, to be defrayed by themselves.

34. All officers in Her Majesty's service, not entitled to a passage at the public expense, to have preference over private passengers as regard passages, but no higher rates to be charged.

35. The Company to carry in any one vessel Admiralty packages and stores not exceeding 10 tons in weight or 15 tons of 40 cubic feet each in measurement, at the lowest rate of freight charged by the Company for private goods; packages of a dangerous nature excepted, in accordance with the general regulations of the Company.

36. The subsidy for the whole of the services to be £400,000 per annum, payable in four equal quarterly instalments.

37. If, after taking into account the aforesaid £400,000, the entire revenue of the Company obtained from all sources available for dividend, shall any year exceed £213,000 (or 8 per cent. on the present capital), the Company shall pay to the Post Master General one-fourth of such excess.

38. If, on the other hand, the amount available for dividend shall any year be less than £160,000 (or six per cent. on the present capital), the Post Master General shall increase the subsidy by such a sum of money as will make up the £160,000 aforesaid; provided that the subsidy shall not any one year exceed £500,000.

39. The accounts of the Company to be kept as at the time of making this agreement; and the Company to continue to make provision for the due insurance of their ships and for their depreciation, to the same extent as at present.

40. The Post Master General and his officers to have access to the books of the Company to the same extent as if they were Directors, and any dispute that may arise to be settled by arbitration.

41. Half-yearly accounts to be submitted of premiums earned or penalties incurred.

42. Except otherwise expressly provided, none of the services to be performed by the Company to entitle them to any remuneration beyond the subsidy.

43. The Post Master General to be at liberty to delegate the power invested in him by this agreement to such person or persons he may think fit.

44. The Company to undertake its own arrangements relative to quarantine.

45. The Admiralty to be at liberty at any time during the continuance of the contract, if considered necessary for the public interest, to purchase or charter all or any of the Company's vessels at a rate to be settled by arbitration in case of any dispute. In the event of any such purchase or hire, the mail service to be performed if possible by other vessels of the Company; but in the event of the Company being thereby only able to perform a portion of the service, a reduction to be made in the amount of the subsidy, to be settled if necessary by arbitration.

46. The contract to commence on February 1st, 1868, and to continue in force for twelve years, or longer, subject to 24 calendar months' notice in writing by either of the contracting parties, to be given any time after the expiry of the first ten years.

47. The steamers to complete any voyages that may have been commenced at the termination of the full contract, without extra compensation.

48. All penalties to be considered as ascertained damages, and to be retained by the Post Master General out of any monies to be paid to the Company; or to be enforced as a debt due to the Crown. The payment, however, of penalties not to preclude the Post Master General from treating any neglect to provide a suitable vessel or to perform any voyage within the specified time, as a breach of the agreement.

49. All notices or directions which the Post Master General or his agents may give to the officers, servants, or agents of the Company, to be considered binding on the Company; provided, however, that any notice of the termination of the contract shall be served at the London office of the Company.

50. The Company not to sublet the contract or any portion of it without the consent of the Post Master General, and in the event of doing so, or committing any great or habitual breach of the agreement, the Post Master General to be at liberty to determine the contract without previous notice to the Company, without compensation, and without barring any right or remedy to which he would otherwise be entitled for breach of contract.

51. Any dispute that may arise between the contracting parties to be settled by arbitration.

52. Any such submission to arbitration may be made a rule of any of Her Majesty's Courts of Record on the application of either party.

53. No member of Parliament to be interested in the contract.

54. The agreement not to be binding until approved by the House of Commons. (This approval has since been obtained.)

55. The Company to be subjected to a penalty of £45,000 in case of failure in the due execution of this contract or any part of it.

DATES OF STEAMERS' DEPARTURE.

BOMBAY, KURRACHEE, AND PERSIAN GULF.

WEEKLY TO KURRACHEE; FORTNIGHTLY TO PERSIAN GULF.

The steamers leave Bombay for Kurrachee with the Overland Mails every Monday at noon, during the fair season, and at 5 P.M. every Saturday during the monsoon (May 29th to September 4th). Every alternate Steamer proceeds on from Kurrachee to the Persian Gulf, calling at Guader, Muscat, Bunder Abbas, Linga, Bushire, Fao, and Bussorah, where cargo and passengers to and from Bagdad are interchanged with the Euphrates and Tigris Steam Navigation Company.

The return steamers are timed to reach Bombay 18 hours before the departure of the English mail.

The steamers of the Indus Steam Flotilla for Mooltan, &c., leave Kotree 24 hours after the arrival of the steamer at Kurrachee.

For dates of calling at intermediate ports see the *Times of India*.

CALCUTTA AND BOMBAY LINE.

FORTNIGHTLY.

The steamers leave Bombay and Calcutta every alternate Tuesday, and call at the following ports, completing the voyage in 20 days:—Carwar, Mangalore, Cannanore, Calicut for Beypore, Cochin, Tuticorin, Negapatam, Pondicherry, Madras, Coconada, Vizagapatam, and Bimlipatam.

During the S. W. monsoon (June 1st to August 15th) the steamers do not call at any of the ports on the Malabar Coast except Carwar and Narrakel (near Cochin).

For dates of arrival at and departure from the intermediate ports see the *Times of India*.

This route is the most expeditious and economical for passengers for the Neilgherrie district, Bangalore, and Madras, who can land at Calicut for Beypore, and proceed from thence by rail.

Passengers for Calcutta can take the same route, picking up the steamer at Madras.

Passengers for Rangoon, Akyab or Moulmein can proceed by the steamers and tranship to the Rangoon Mail Steamer, which leaves Madras on the 3rd.

REGULATIONS AND GENERAL INFORMATION.

PASSENGERS.

The rate of Cabin passage money includes Table, but not wines or liquors, which are provided on board, and charged as per scale in possession of the Steward. Bedding, linen, and all requisite Cabin Furniture are provided in the steamers at the Company's expense.

The full amount of passage money is payable on accommodation being engaged. Parties failing to embark after securing accommodation, can have half the passage money returned.

Each adult Cabin passenger is allowed 3 cwt. of personal baggage. Any quantity in excess is charged for at Cargo rates with 25 per cent. added.

Return Tickets, available for one month from date of landing, are issued to Cabin passengers only, at a reduction of one-fifth on the return passage money. Passengers holding Return Tickets, and travelling on board the steamers after this period, will be charged on board with a fifth part of the return passage money, if it be not previously paid on shore to an Agent of the Company.

No berth can be occupied by any passenger without application to the Agents on shore, or the Steward on board.

Passengers' servants must be paid for as Deck passengers if occupying Deck accommodation, or otherwise according to accommodation occupied or engaged. Servants being Deck passengers must not sleep in the Saloon, nor enter the Saloon or Cabins except when in actual attendance on their masters.

The rate of passage for Deck passengers does not include diet, but they can be dieted on board as per scale in possession of the Steward.

One child under three years of age, if with the parent, is carried free. When more than one, each child additional will be charged one-quarter fare. Children above three and under ten years of age half fare. Children are not allowed in the Cabin unless accompanied by an adult Cabin passenger.

Passengers who have not paid passage money on shore to the Agents, will be charged 10 per cent over the ordinary fare when paying on board.

Passages paid for at Singapore or Penang, in Dollars, will be charged at the exchange of 222 Rupees per 100 Dollars.

Packages containing Jewellery, Plate, or other valuables, must be specially booked, and freight paid thereon.

Passengers are strictly prohibited from carrying Gunpowder, Sulphuric Acid, or any other material which might occasion accident on board the steamers.

Passengers must comply with the regulations established on board for the general comfort and safety.

Passengers are requested to note that baggage being under their own charge, the Company will not be responsible for any loss or damage to it.

FREIGHT.

The correct contents of all packages must be stated in Bills of Lading. A wrong description of contents or false declaration of value will release the Company from all responsibility in case of loss, seizure, or detention, and the goods will be charged double freight on the real value, to be paid previous to delivery.

Packages containing Gunpowder, Sulphuric Acid, or any other material which might give rise to accident, are strictly prohibited from being shipped on board the steamers of the Company.

Bills of Lading are only signed on the Company's own forms, which may be had of the Agents at the several ports; these must be presented and delivered up cancelled before delivery of goods can be granted.

All packages shipped on board the Company's steamers must be well packed, have a distinctive mark in English, and the port of destination also inscribed on each in English.

Freight on all packages must be prepaid at port of shipment.

The Company reserves to itself the power to charge by weight, measurement, or value, and is not accountable for damage arising from insufficiency of address or packing; or for damage, leakage, or breakage to re-exported goods.

For general facility the Company reserves to itself power to land cargo at port of delivery into a receiving vessel or stores, charging consignees thereof, according to scales of rates to be seen at the offices of the Agents of the Company.

Specie will not be landed by the Company. It can only be delivered on presentation of bills of lading on board, and will be carried on at consignees' risk if delivery is not taken during the steamer's stay in port.

Carriages are conveyed by special agreement.

Single packages and parcels not exceeding 2 feet in measurement are charged Rs.3 under 1,000 miles; above that distance Rs.5.

Packages weighing more than 3 cwt. (excepting bales and boxes of manufactured goods) are only carried at advanced rates of freight and by special agreement.

The Company will not be liable for any single package of cargo beyond the value of Rs.500 unless additional freight at half specie rates has been paid on value above Rs. 500; and in all cases where claims are made, proof of loss must be furnished.

Although the Company's steamers for the most part trade to free ports, all packages shipped on board must be accompanied by a registered Custom House Pass. Non-compliance with this regulation will subject shippers to detention in having their goods put on board, till a Pass from the Custom House is obtained.

The Company does not guarantee that the steamers shall have room at ports of transhipment, nor that there shall be no delay there; nor is it answerable for delay in the forwarding of cargo, nor for the risk thereof.

When owing to bad weather or other causes, the goods cannot be safely landed at their destination within the time stipulated for stoppage at such port in the Company's mail contract with Government, the Company reserves to itself the right to convey them to the next port on the voyage, or to the final port of call, to be returned thence by one of the Company's steamers having space, at the Company's expense and merchant's risk; and the consignee cannot claim indemnity for such delay nor the consequences thereof.

Goods must be alongside at least 24 hours before the advertised hour of departure, and shippers are requested to see that their receipts for same are in order before leaving the vessel. Most of the mistakes arise through shippers sending their goods at the last moment.

For further particulars apply to the Agents.

THE B. I. S. N. Co.'s POSTAL CONTRACTS.

Calcutta, British Burmah, and the Straits.

This contract expired in September, 1867, and was provisionally continued pending a settlement of the expected changes in respect of the Europe mail service, the only modification being an increase in the contract speed from 7 to 7½ miles per hour, and a reduction of the subsidy from Rs. 17,000 to Rs. 16,000 per mensem. In April, 1868, a new arrangement was made, providing for a fortnightly communication with Chittagong, a weekly communication with Akyab, Rangoon, and Moulmein, and a monthly communication (since changed to once every four weeks) with the Straits. The subsidy paid for this service is now Rs. 21,333 per mensem, of which Rs. 1,083 are paid by the Straits Government.

Bombay, Kurrachee, and the Persian Gulf.

This contract also expired in 1867, and was renewed on the same general footing except that the vessels proceeding to, and returning from, the Gulf were required to touch at Kurrachee, and that power was reserved to require the trips, both to Kurrachee and to the Gulf, to be made once a fortnight instead of twice a month, on payment of a proportionably increased subsidy. This power was made use of on the commencement of the weekly overland mail, and the service is now performed weekly to Kurrachee, every alternate vessel proceeding on to the Gulf. The subsidy paid is Rs. 23,111 per mensem.

Bombay, Calcutta, and Intermediate Ports.

This service has recently been altered from a monthly to a fortnightly one, and the subsidy increased from Rs. 7,500 to Rs. 10,000 per mensem.

Madras, Rangoon, and Intermediate Ports.

A monthly service, the subsidy being Rs. 6,000 per mensem.

THE EUPHRATES VALLEY ROUTE.

The steamers of the "Euphrates and Tigris Steam Navigation Company" run from Busreh to Bagdad in conjunction with the British India Steam Navigation Company's steamers. They leave Busreh on the arrival of the mail from Bombay, and leave Bagdad on the arrival of the Damascus mail from England.

BOMBAY AND BENGAL STEAMSHIP COMPANY.

OFFICE IN BOMBAY—Elphinstone Circle.

A resolution to wind up this Company was passed by the shareholders at a meeting held in November 1867, but arrangements were at once made to avoid any lengthened interruption of the traffic. In conjunction with other Companies, goods are now conveyed from Bombay viâ Egypt to Liverpool, London, Trieste, Marseilles, Brindisi, Venice, Genoa, Barcelona, Havre, and other Continental ports.

The steamers leave Bombay on the 5th and 20th of each month, and Suez about the 1st and 15th.

AUSTRIAN LLOYD'S STEAM NAVIGATION COMPANY.

AGENTS IN BOMBAY—A. C. Gumpert & Co., 30 Meadow Street.

OVERLAND ROUTE VIA TRIESTE.

The Austrian Lloyd's steamers leave Trieste for Corfu and Alexandria on the 5th, 12th, 20th, and 28th of every month at 10 o'clock A.M.; and the return voyage from Alexandria takes place immediately after the arrival of the Bombay and Calcutta mails and passengers from Suez, viz., on or about the 5th, 12th, 19th, and 28th of every month. Besides this direct communication there is an indirect weekly line between Trieste and Alexandria, once via Syria and once via Smyrna.

The fares between Trieste and Alexandria are as follows:—

1ST CLASS Rs. 150: 2ND CLASS Rs. 100; 3RD CLASS Rs. 60.

Reduced fares for Families of not less than three adult persons travelling together:—

1ST CLASS Rs. 123-10 each, 2ND CLASS Rs. 82-8 each.

The above rates include berth, a liberal table and fees.

3RD CLASS, or deck passages, can only be granted to soldiers not above the rank of a serjeant, and to sailors and natives of India attending on passengers as servants. All other European servants must be booked as second class passengers. Children in arms, or under two years, free; under ten years, and not requiring a separate berth, half fare.

An experienced Surgeon is on board of each vessel.

Baggage allowed 1st class 200 lbs. English weight.

Overweight Rs. 5 per 100 „ „ „

JOURNEY THROUGH EGYPT.

The agents of the Company are authorised to issue Railway Tickets for the journey from Suez to Alexandria and *vice versa* at the following rates:—

1ST CLASS Rs. 45; 2ND CLASS Rs. 22-8.

The holder of an Egyptian Railway ticket is entitled to the following privileges, which are the same as those enjoyed by *through* passengers of the P. & O. Co., viz.:—

1. To be landed and embarked at the port of arrival and departure in Egypt, conveyed in suitable carriages to and from the landing places and the Railway Stations, and by Railway in first or second class passenger carriages (according to the class of the ticket) between Alexandria and Suez (or *vice versa*) at the expense of the Egyptian Government.

2. To conveyance throughout from ship to ship, if a *first* class passenger of 336 lbs., or if a *second* class passenger of 168 lbs. of personal *baggage free* of charge. Any quantity of baggage in excess of the above, is charged at the rate of Rs. 5 per cwt.

3. To be conveyed from the Company's ship at Suez to the Company's ship at Alexandria, or *vice versa*, *within the time* limited for the departure of the corresponding ship at either port.

Passengers have to defray their own Hotel and victualling expenses during the transit through Egypt.

Baggage.

Passengers outwards, proceeding via Trieste, and joining the steamers of the Peninsular and Oriental Company at Suez, and passengers homewards who have been conveyed to Suez in the Peninsular and Oriental Company's steamers, can ship their Baggage by the Company's vessels from Southampton to Alexandria, and *vice versa*, subject to the following charge, payable in advance :—

For the regulated allowance of 3 cwt., Rs.5 per cwt. } Exclusive of the charge for transport made
For any excess over 3 cwt., Rs. 10 per cwt. } by the Transit Administration of Egypt.

All heavy baggage not required for the overland route may be delivered to the Austrian Lloyd's Agents in London, Alexandria or Suez for shipment via Southampton. The direct passage between Trieste and Alexandria and *vice versa*, occupies only 4½ to 5 days. The distance between these two ports is 200 miles shorter than that between Marseilles and Alexandria.

Journey through Europe.

Great facilities have been granted by the Austrian Authorities with regard to the Passport system of travellers passing through the Austrian dominions. The passport will have only to be exhibited and vised in future by the Police Authority at the Austrian frontier (Bodenbach and Trieste or *vice versa*).

Passports for British subjects returning from India are obtainable at the Government Secretariates at Calcutta, Bombay and Madras, and at the Office of the British Consulate at Alexandria for the voyage to England via Trieste. Such Passports must be vised at Trieste at the Police Office, and may at once be countersigned by the Consuls of those States through which the traveller passes. Visa may also be obtained at the Austrian and Prussian Consulates at the Presidency towns in India. The Consul in Bombay is Mr. A. C. Gumpert.

At Trieste the traveller to England has a great choice of picturesque and interesting routes occupying from 3 days 6 hours to 5 days to London, at an expence varying from Rs. 70 to Rs. 130. A splendid scenery is offered to the traveller in performing the journey between Vienna and Trieste, especially from Gratz in either direction.

The far famed pass of the Semering Mountain lays between Gloggnitz and Murzzuschlag, on the way between Vienna and Gratz, a distance which is performed in about 1½ hours by express train, and 2 hours by ordinary train. On this short distance the railway train passes through 14 tunnels, stopping at 4 stations, viz. :—Payerbach, Clamm, Breitenstein, and Semmering, and by performing this journey in day time, an opportunity is afforded to the traveller of seeing the stupendous and wonderful engineering operations of this railway and of considering the difficulties which had to be surmounted in carrying the railway over this mountain.

The railway works between Laibach and Trieste also deserve particular attention. Arriving at Adelsberg, a railway station between Laibach and Trieste, travellers should not lose the opportunity of inspecting the wonderful natural grotto, which is close to that station.

Throughout Germany few travel first class. The second class railway carriage in Germany and Belgium is fully equal to first class in England.

If a stay is made at any of the towns en route, the traveller, if unacquainted with German, had better employ a Commissioner, who will see his passport *vised*, and apprize him of the precise hours of departure of the trains, which, according to season, may be subject to alteration. On an average, he may put his hotel expenses down at Rs. 5 a day. Travellers desirous of performing an expeditious journey throughout, and wishing to proceed at once from the various stations on the Continent without stopping, may have *through* tickets issued for long distances. This facility is offered at all the principal places on the Continent.

To travellers who proceed through the Continent without unnecessary stoppages, the following is the expense of the journey from Bombay to London :—

	First Class.
Bombay to Suez by Peninsular and Oriental Steam Navigation Co.'s Boats...	Rs. 600
„ Bombay and Bengal Steam Ship Co.'s Boats	„ 450
Expenses of Transit through Egypt by Rail	„ 45

The Company's steamers leave Marseilles on the 19th of every month at 2 P.M., and after staying a few hours at Messina, arrive at Alexandria, generally, on the 25th, the official date being early on the 26th.

They leave Suez on the 26th or 27th, touching at Aden *en route*, and arrive at Point de Galle about the 11th or 13th of the following month.

At Point de Galle another steamer belonging to the Company awaits passengers for India, and sails a few hours after the arrival of the steamer from Suez, calling at Pondicherry and Madras *en route* to Calcutta.

The steamer arriving from Suez continues the voyage to Singapore, arriving there on the 18th to 20th ; Saigon 21st to 23rd ; and Hong-Kong, port of destination, on the 25th to 28th.

Passengers for Shanghai embark at Hong-Kong on another of the Company's steamers, due there on the 24th, and proceed to their destination shortly after. The passage between those two ports is usually made in four days.

Passengers to and from Batavia are conveyed by a steamer of the Dutch Government between Singapore and Batavia. This steamer runs in connexion with the monthly line of the *Messageries Imperiales*, from Suez to Hong-Kong and from Hong-Kong to Suez.

On the Homeward voyage the dates of arrivals and departures are as follows :—

Leave Shanghai on the 21st, arrive at Hong-Kong on the 24th ;

Leave Hong-Kong on the 26th, arrive at Saigon on the 30th ;

Leave Saigon on the 30th or 1st, arrive at Singapore on the 3rd or 4th ;

Leaving the same day for, and arriving at Point de Galle, on the 9th or 11th, where the steamer of the 3rd from Calcutta, after touching at Madras and Pondicherry, is due on the 9th or 10th.

The steamer from Singapore, after a few hours' stay at Galle, proceeds on to the Red Sea, calling at Aden to coal, and arrives at Suez about the 25th to 27th.

The Company runs a monthly mail to Seychelles, Mauritius, and Reunion, leaving Aden on the 23rd of each month.

ALEXANDRIA TO MARSEILLES.

One of the Company's steamers awaits the Homeward passengers at Alexandria, and leaves there on the 27th to 29th of each month, arriving at Marseilles, after touching at Messina, from the 3rd to 5th of the following month.

Cabin and First Class Deck passengers are provided with a free table, with the exception of liquor, which can be had on board at fixed prices. The former are also found in the usual bed and cabin furniture.

Second Class Deck passengers are not found in provisions.

Passengers booking from Kotree to Mooltan, or *vice versa*, have a preference over passengers for intermediate ports in the choice of cabin accommodation.

Until a Cabin berth has been paid for, the berth will be considered as "disengaged."

Servants—Europeans pay second, Natives third class deck fare.

Passengers not proceeding in the vessel from any other cause except sickness are not entitled to a refund of their passage money.

Passengers can be booked through from Kurrachee to Umritsur and intermediate Stations, and *vice versa.*

The Company do not hold themselves liable for detention or delay of passengers arising from accident, or from extraordinary or unavoidable circumstances; nor do they hold themselves liable for loss, damage, or detention of passengers' luggage.

Passengers are informed that only *cash* is received in payment of Fares and Freights.

Horses, Dogs, and all other animals must be found in food by their owners.

Horses must be embarked a day before that on which the steamer is advertised to sail.

DAYS OF SAILING.

FROM KOTREE.—Twenty-four hours after the arrival of the bi-monthly mail in Kurrachee. FROM MOOLTAN.—On the 11th and 25th days of the month. When the day falls on a Sunday, the Steamer leaves on the following day. There is usually an extra departure between the above-mentioned dates.

The above dates of departure from Mooltan are contingent upon circumstances;—accidents, and want of water in the channel may occasionally keep back the up boat and retard the starting of the down Steamer.

BOMBAY PORT RULES.

CLAUSE 1.—1. No Vessel, if above 200 tons, entering Bombay Harbour, shall run up amongst the shipping until she shall have received permission from the Master Attendant or other duly authorised person, but must anchor within and to the Eastward of the Inner Floating Light; and no such Vessel, anchored within the limits of the Port of Bombay, shall move from one place to another within the Port, between sunset and sunrise, without the special permission of the Master Attendant.

2. A Vessel working out of Harbour, if not clear of it at sunset, will anchor. In the S. W. Monsoon, both Anchors and Cables are to be kept clear should they be required, and the Sheet Cable to be bent to the Anchor.

3. All Vessels above 200 tons, entering or leaving the Harbour whilst a Pilot may be on board, are to ply their National Flag from the time of his boarding to the time of his leaving, from the time of sunrise to sunset, or before and after, as long as the Flags may be visible: and also every Ship will show her number on entering the Port.

CLAUSE 2.—All Vessels above 200 tons, within the Port of Bombay, shall be bound to take up such berth as may be appointed for them by the Master Attendant, the Harbour Master, or their Assistants, and shall change their berths or remove when required by such authority.

The berths of Coasting Craft and small Vessels to be determined under the provisions of Section 59 of Act I. of 1852, by the Customs Authorities, with the consent and approval of the Master Attendant.

CLAUSE 3.—All Vessels in the Port of Bombay shall have their Flying Jib-booms rigged in, and shall, when ordered by the Master Attendant, rig in their Jib and Driver Booms, and strike their Masts or Yards; and any signals made from the Dock-Yard Shear Flagstaff directing the striking of Masts or Yards, or the rigging of Booms, shall be considered to be orders, and obeyed as such.

CLAUSE 4.—Cargo Boats, full or empty, shall not be allowed to swing astern of any Vessel without permission; nor shall anchors be cockbilled. or spare spars allowed to hang alongside or astern of any Vessel. [Two tier of two Boats, two Boats in each tier, may be allowed to hang astern of each Ship; all in excess of this the registered numbers will be taken. and the full penalty the law allows will be enforced against the owners of the said Boats, in accordance with Act XXII. of 1855, Sections XI. and XVI.]

CLAUSE 5.—Vessels taking in or discharging ballast, or any particular kind of cargo within the Port of Bombay, shall be bound to take up such berth as the Master Attendant or the Harbour Master may direct.

CLAUSE 6.—Free passages to be kept to all Piers, Jetties, Landing-places, Wharves, Docks, and Moorings; and all Boats and Vessels shall be bound to move when required to clear such passages. [Boats, whether Ship's Boats or Boats plying for hire, are not permitted to lay alongside any of the Piers or landing-places longer than is actually necessary to embark or land passengers and their baggage, &c., but will anchor or lay off at a distance of at least thirty yards from such Pier or Landing-place, so as not to obstruct the approach thereto. For any infringement of this notice the offender will be subject to a penalty of one hundred rupees, or be punishable in a summary manner on conviction before a magistrate.]

CLAUSE 7.—All Vessels within the Port of Bombay will moor and unmoor according to the orders of the Master Attendant or the Harbour Master, and shall keep a clear hawse.

CLAUSE 8.—On making a written application to the Master Attendant, a vessel may be moved from any mooring or anchorage within the Harbour to any other mooring or anchorage approved by the Master Attendant, on paying the rates specified in Act XXXI. of 1857. All Vessels within the Port of Bombay shall be moored or warped from place to place as required by the Master Attendant or Harbour Master; and no Vessel shall cast off a warp that has been made fast to her, to assist a Vessel mooring, without being required so to do by the Pilot or Officer in charge of the Vessel mooring.

CLAUSE 9.—No Vessel shall use any of the Government Chain Moorings, whether fixed or swinging, without permission of the Master Attendant or the Harbour Master.

CLAUSE 10.—All Vessels occupying Government Moorings, fixed or swinging, shall be liable to pay for the same according to the following scale, but no more:—

For Fixed Moorings.	From 1st Nov. to 30th May.	From 1st June to 31st Oct.
All Vessels up to 199 Tons	Rs. 1 per diem.	Rs. 3 per diem.
Ditto from 200 to 299 „	2 „	4 „
Ditto „ 300 to 399 „	3 „	5 „
Ditto „ 400 to 499 „	4 „	6 „
Ditto „ 500 to 599 „	5 „	7 „
Ditto „ 600 to 999 „	6 „	8 „
Ditto „ 1,000 & upwards.....	8 „	10 „
Swinging Moorings	3 „	4 „

CLAUSE 11.—No boats to ply as Cargo Boats except under license, as provided for by Section 68 of Act I. of 1852.

CLAUSE 12.—1. No boats lying within 50 yards of the Dockyard Stairs or Wharves, or within 50 yards of the Wharf in the basin formed within the breakwater in the vicinity of the Custom House Bunder, or Government Docks, will be allowed to have fire on board.

2. No Vessel shall boil pitch on board, but must do so in a boat alongside or astern.

3. All Vessels taking in Cotton whilst the hatches are opened, and during the stowage of the Cotton, are not on any account to have any lights in the hold or orlop, and the fires to be put out, and all spirits, oil, paints, and spirits of turpentine, are to be placed in a place of security.

4. All Vessels that may require to be steamed, must be moored below the Middle Ground, clear of the Shipping.

CLAUSE 13.—No private Vessels are to hoist Signal Lights at night or to fire any great guns, or muskets, at the hours of sunrise or sunset, or at any other time, without permission, excepting in cases when requiring assistance.

The provisions of Sections 12, 28, 37 and 40 of the said Act No. XXII. of 1865 have been specially extended to the Port of Bombay.

RULES AND REGULATIONS.

1. That the object and duties of the Chamber shall be to encourage a friendly feeling and unanimity among commercial men on all subjects involving their common good; to promote and protect the general mercantile interests of this Presidency; to collect and classify information on all matters of general commercial interest; to obtain the removal, as far as such a society can, of all acknowledged grievances affecting merchants as a body, or mercantile interests in general; to receive and decide references on matters of usage and custom in dispute, recording such decisions for future guidance; and by this, and other means, assisting to form a code of practice for simplifying and facilitating business; to communicate with the public authorities, with similar associations in other places and with individuals, on all subjects of general mercantile interest; and to arbitrate between parties willing to refer to, and abide by the judgment of the Chamber.

2. That all persons engaged or interested in mercantile pursuits desirous of joining the Chamber and disposed to aid in carrying into effect the objects of the same, shall be admitted members by the vote of a majority of not less than two-thirds of those voting at a general meeting, as provided for in Rule 3.

3. That one-fourth of the firms constituting the Chamber shall be held sufficient to form any general meeting when the same has been regularly called together,—one partner representing a firm; but two or more partners of one firm being present, only to count as one member of the Chamber. That seven clear days' notice shall be given before any resolution proposing changes in the Rules of the Chamber be brought forward; and that such notice be given in writing to the Secretary, who shall circulate it for the information of the members of the Chamber.

4. That the Chamber reserves to itself the right of expulsion in case of need, to be decided at a general meeting by a majority of three-fourths of the members present at such general meeting duly convened.

5. The subscription of each firm, or member of the Chamber, shall be Rs.25 per month

6. That the affairs and funds of the Association be managed by a Committee of seven members, consisting of the Chairman and Deputy Chairman of the Chamber, and five members, who shall be elected annually at a general meeting of the Chamber in the month of September, and shall remain in office for one year, but be re-eligible on expiration of office. The Chairman and Deputy Chairman as the case may be, to be *ex-officio* Chairman of the Committee, and in their absence the Committee to elect their own Chairman. Three to be a quorum. In the event of any member of the Committee resigning, or declining to serve, the remaining members of the Committee shall fill up the vacancy.

7. The Chairman, Deputy Chairman, and members of Committee for election must be proposed at least seven days before the general meeting to be convened for the purpose of elections, and their names be published in the rooms of the Chamber for that period and by circular. No two members of one firm shall be on the Committee at the same time.

8. That all questions before the Committee shall be decided by a majority, the Chairman having a second or casting vote in case of an equality of votes.

9. That the Committee shall meet on Friday, or on such other day as may be found by them most convenient of every week, to receive and dispose of all communications and references, and to take under their consideration, generally, all matters embraced in the objects of the Chamber: and that their proceedings be laid on the table for the inspection of all members, subject to such regulations as they may make.

10. That general meetings of the Chamber be held quarterly for the purpose of discussing any measures of public interest which may arise, and that in the interval between the meetings, the Committee of the Chamber be entrusted with the selection of subjects for discussion at those meetings, and give notice of the same to the members beforehand. That a special general meeting shall be called by the Chairman, or by his order, seven days after the receipt of a requisition from any three firms—member of the Chamber; but that a majority of firms represented by one or more members from each firm being members of the Chamber, be required to constitute such general meeting, and that the annual general meeting shall be held in the month of September, on such day as the Committee for the time being shall direct; such meeting to be convened on a seven days' notice. That all general meetings of the Chamber shall be advertised in the newspapers.

11. That the Committee be authorized to provide suitable accommodation for the meeting of the Chamber; to pay all expenses of the establishment; and to control, generally, the management of the affairs of the Chamber.

12. That all monies or funds of the Chamber, as received, be paid into the hands of the Treasurer or Treasurers for the time being, and that the same be available by cheques signed by the Chairman, or in his absence by the Acting Chairman for the time being, and by one other member of the Committee.

13. That a Secretary be appointed by a majority of members, in such way as the Committee for the time being may point out; that it shall be the duty of such Secretary to keep the records and accounts of the Chamber, to collect subscriptions, handing the same over to the Treasurer, to conduct correspondence, and to act generally under the directions of the Committee.

14. That all the proceedings of the Committee be subject to approval, or otherwise of general meetings, duly convened.

15. That any stranger engaged or interested in mercantile pursuits, visiting the Presidency, may be introduced as a visitor by any member of the Chamber inserting his name in a book to be kept for that purpose; but that a residence of two months shall subject him to the rule for the admission of members.

16. *Honorary Members.*—Gentlemen distinguished for public services or eminent in commerce and manufactures, may be elected Honorary Members of the Chamber, and as such shall be exempted from paying subscriptions.

17. That an Annual Report of the proceedings be made, and copies sent to the similar associations in India, China, and elsewhere.

18. That the foregoing Rules be added to, or altered, only by a majority of members of the Chamber,

19. That the firms whose signatures are attached be considered as acknowledging the "Bombay Chamber of Commerce," as now constituted, to represent their public and united interests.

MEASUREMENT BY CALLIPERS.

Rules and Regulations for the Measurement by Callipers upon Shipments to Great Britain of Cotton, Wool, Hemp, and other Screwed and Pressed Bales, at the Port of Bombay.

I. That Callipers shall from time to time be submitted to the Secretary of the Chamber of Commerce, and, if found correct, shall be branded with a Stamp bearing the name of the Chamber, to indicate the same.

II. That if from use or otherwise, any Callipers should get out of order and be objected to, the party objecting shall send the Callipers to the Chamber for examination; and should the objection be valid, the Chamber's Stamp shall be defaced by the Secretary; if, however the objection is found to be groundless, the Secretary shall give a note to that effect, and the party objecting shall be bound by his decision.

III. That any Callipers found incorrect, and on which the Stamp has been defaced, may be re-stamped after adjustment.

IV. That no measurements shall be held good, except such as are taken by Callipers bearing the Chamber's Stamp.

V. That Cotton, Hemp, Wool, and other screwed bales shall be measured as follows, namely,—the greatest length to be first ascertained, and then the bale to be set on either end, as the shipmaster may wish, and cross measurements to be taken at top over the lashings, excepting the knots, and as near the centre of the bale as possible. That an average of 100 bales be struck by ascertaining the actual measurement of any 10 bales, and proportionately, the shipper selecting and measuring one half, and the shipmaster the other half; should, however, any dispute or difficulty arise in the selection of bales, either party to have the option of measuring the whole quantity.

VI. That all produce subject to measurement be measured within the day on which it has been ordered to be screwed, provided the order has been given by the shipmaster or agent of the vessel; and that from 1st June to 15th October the same be measured at the screws during the remainder of the year, if required, on the Bunder, weather permitting. No Cotton, Wool, or other goods, to be measured until a Custom House Pass has been obtained for the same.

VII. That in the event of the shipmaster not attending to measure at such hour as may have been appointed by him, the Agent or Agents of the ship do empower a person to attend on his behalf, whose sanction to the measurement shall be binding upon the shipmaster.

THE INTERNATIONAL CONVENTION.

The parties to the Paris Telegraph Convention of 1865, to which India had expressed a wish to subscribe, assembled at Vienna in 1868, to discuss several amendments that experience had suggested as desirable in the then existing Convention. India was represented on the occasion by Lieut.-Col. Goldsmid. The parties to the Convention pledged their respective Governments to do their utmost to improve the working of their lines, especially with regard to the Anglo-India telegrams; and a minute to that effect was entered on the records of the conference. The Convention, which was signed in July 1868, sanctioned the following routes for Anglo-Indian telegrams:—

ROUTES FROM INDIA TO ENGLAND.

I.—VIA RUSSIA AND NORTH GERMANY.

Persian Gulf Cable.
Persia.
Russia.

VIII.—VIA ITALY AND FRANCE.

Persian Gulf Cable.
Turkey.
Italy.
France.
England (by Cable.)

A new route is also being established by Siemen's Indo-European Telegraph Company via Russia and Persia. The route via Alexandria, and thence by the Malta and Alexandria to the Continent of Europe and Great Britain, can only be made available by means of an agent in Egypt, through telegrams by this route not being accepted. It is, however, a very expensive route, the charge from Bombay to Alexandria being Rs. 26 for 20 words, and from Alexandria to London an additional Rs. 15.

One of the most important topics discussed at the conference was the treatment of cipher messages. The compulsory registration (equivalent to doubling the rate) of "secret" messages was agreed to, but a question by Col. Goldsmid evoked the reply, that commercial code telegrams would not fall within the category of "secret" messages. The Convention further provides that the receiving office shall determine what constitutes an ordinary and what a secret message, the States through which a telegram has to pass being bound by that decision. In accordance with this, the Government of India has determined to treat commercial code messages as ordinary messages so long as no objection is raised by the other parties to the Convention.

The new Tariff, which came into operation on January 1st 1869, is as follows :—

INDO-EUROPEAN TELEGRAPH RULES.

Article I.

The Government of India recognises the right of all persons to correspond by mean of the Indo-European Telegraph.

II.

Messages may be written in English, French, German, Italian, or Latin. The words must, however, be formed of Roman characters.

III.

The sender can prescribe the route he desires his message to follow, by writing the word *via* (followed by the name of the country) immediately after the address.

The stations on the through line are engaged to conform to the directions given, unless the exigencies of service prevent them.

IV. Manner of Writing a Message.

The message to be transmitted must be legibly written in the following form :—

1. The name and address of the person to whom it is to be delivered.
2. Any instructions relative to the route by which it is to be sent, its delivery, acknowledgment of its receipt, or the notice of its registration; or of its having to follow.
3. The message.
4. The signature of the sender (followed by its legalisation when necessary).

Note.—The name of the station from which a message is originally sent, and the date, hour, and minute at which it is deposited for transmission, are added by the office, and transmitted free to the receiver.

V. Sufficient Address.

The address must contain all the information necessary to insure the delivery of the message without difficulty.

The sender in all cases supports the consequences of insufficiency of address. After the message is once sent, he can neither complete nor rectify it, except by sending a new despatch.

VI. Manner of Counting a Message.

1. All that the sender writes to be transmitted enters in the number of words charged for, but signs of punctuation are not counted, unless used with figures, in which case decimal points, commas, and bars of division are each counted as a figure.

2. The maximum length of a word is fixed at seven syllables; the excess is counted as a word.

3. Words joined by a hyphen, or separated by an apostrophe, are counted as so many separate words.

4. Every separate character, whether letter or figure, is counted as a word. The same applies to an underline.

5. Proper names of towns and persons, names of places, squares, streets, &c., titles, Christian names, particles and qualifications, are counted for the number of words employed to express them.

6. When numbers are expressed in figures, in ordinary messages, each group of five or fewer figures is counted as a word. Letters added to figures to form ordinal numbers are each counted as a figure.

7. Messages composed of figures or secret letters, or considered as secret messages, are counted as follows:—

All the characters, figures, letters, or signs employed in the cypher text are added together. The total is divided by five, and the quotient (plus one for the remainder, if there be any) gives the number of words the ciphers represent.

The signs which separate the groups are counted, unless the sender expressly requests that they be not transmitted.

To obtain the full number of words in the message, the address, signature, and any part of the contents in ordinary language, must be added to the above, counting according to the preceding rules.

VII. Prepaid Replies.

Any sender desiring a reply can prepay it. He must add the words "Reply paid" at the end of the message, before his signature. Charge is made for a single rate.

But the sender can add to the notice "Reply paid," "two rates," or "three rates," on depositing the corresponding amount. The sum deposited, however, cannot exceed three times the cost of the original message.

The delivery station pays to the receiver the amount deposited, either in money, telegraph stamps, or by a cheque on the office, leaving it to him to send his answer at any time, by any route, and to any address, he chooses.

If the original message cannot be delivered, or if the receiver formally refuses the amount deposited for the reply, the delivery station informs the sender of it by a telegram, which takes the place of the reply.

VIII. Registered Messages.

The sender of any message has the power of registering it. He writes the words *dépêche recommandée* immediately after the address.

When a message is registered, the different stations employed in its transmission, collate it, as it passes, by repeating it to each other integrally, and the terminal station, immediately after the delivery of the message despatches a telegram to the sender, announcing the exact time at which it reached its destination. If the message cannot be delivered, the telegram indicates the circumstances which prevented it, and gives, if possible, the information necessary to enable the sender to cause his message to reach its destination.

The sender can have the telegram addressed to him at any point of the territory of the States which have adhered to the International Telegraph Convention of 1868.

The charge for registering is equal to the charge for the message.

When a registered message is sent by post, it is registered, and the postal charges are paid by the terminal station.

IX. Cipher Messages.

Government messages may be expressed in figures or secret letters, either wholly or in part. Telegraph offices have no control to exercise over them.

Private messages may also be composed of figures or secret letters. In this case the address and signature must be written in ordinary language. The parts in cipher must consist exclusively of Arabic figures, or of letters of the alphabet, and be placed between parentheses, separating them from the rest of the message.

Registration is compulsory for a message composed of figures or secret letters, or which is considered as a secret message.

The department which accepts the message from the sender is judge of the application of the last clause of the preceding paragraph, especially with regard to the toleration accorded to messages relating to exchange or other commercial subjects. ["As messages in words of ordinary language will be allowed to pass, commercial code messages, if in words to be found in dictionaries, will be accepted as ordinary messages, until refused by other Administrations, parties to the Convention. It is, however, to be clearly understood that no refund can under any circumstances be made on account of the loss of such messages, unless registered"—*Gazette of India, Dec. 19th.*]

X. Messages to follow.

Any sender can cause his message *to follow* the receiver to different addresses in the same State or country.

The addresses must be written at the head of the message, with the words, *to follow* immediately after them.

The charge is calculated to the first delivery station. The latter after presenting the message at its first address, re-transmits it, if necessary, to the second; from the second it is transmitted to the third; and so on to the last address, when requisite.

If the message bears the notice TO FOLLOW unaccompanied by successive addresses, the terminal station, after presenting it at the address given, re-transmits it, if necessary, to the address supplied at the residence of the receiver.

The charges for onward transmission from the first delivery station are paid by the receiver.

XI. Multiple Messages.

A message may be addressed—

1. To several persons in different countries. In this case it is charged for as so many separate messages.

2. To several persons in different localities in the same country, or to one person in different localities in the same country. Charge is made for a single through rate; to this is added as many times the terminal rate [see page 261] of the country as there are addresses in addition to the first.

3. To several persons in the same place, or to one person at several addresses in the same place. Charge is made for a single message, plus four annas for each destination after the first.

XII. Delivery of Messages.

Messages addressed to the residence of the receiver, or *poste restante* within the delivery radius of the terminal station, are at once taken to their address.

Messages addressed to place of residence or *poste restante* beyond the delivery radius, are, according to the instructions of the sender, either sent to their destination by post, or by more rapid means if available.

Messages which cannot be delivered are destroyed at the end of six weeks.

Ordinary messages which have to be sent by post are forwarded as ordinary letters by the terminal station. The postal charges, if any, are defrayed by the receiver, no supplementary charge being made at the sending station.

XIII. Postal Charges.

Applicable to Registered messages, and to messages requesting acknowledgment of receipt.

For each message to be deposited *poste restante*, or sent by post within the territory of a terminal state—4 as.

For each message to be sent by post beyond that territory, but within the limits of Europe—8 as.

For each message to be sent beyond those limits—₹1.

XIV. Acknowledgments of Receipt.

Any sender can request that an official notice of the time at which his message is delivered be transmitted to him by telegraph.

If the message cannot be delivered, this acknowledgment of receipt is replaced by a telegram giving the information indicated in Para. 2 of Art. VIII.

The charge for an acknowledgment of receipt is a single rate. When a message requesting an acknowledgment of receipt is posted, the terminal station registers it, and pays the postal charges.

XV. Combination of Rules.

The facilities given to the public for prepaid replies, registered messages, messages to follow, multiple messages, and acknowledgments of receipt, can be combined.

XVI. Charges on Arrival.

The following charges are collected by the delivery station:—

1. The charge for messages sent from sea by Semaphore.
2. The expense of transport beyond telegraph lines by quicker means than the post.

The sender of a registered message, however, or of a message requesting an acknowledgment of receipt, can prepay this transport by depositing a sufficient sum for the purpose, subject to after-adjustment. The return message states the amount expended.

In every case where charges have to be made on arrival, the message is not given over to the receiver till the payment of the amount due is received.

XVII. Copies of Messages.

The senders and receivers have a right to be supplied with certified true copies of the messages sent or received by them, on giving proof of their identity and furnishing the exact date of the messages, to which their requests refer. A charge of 4 annas is made for each copy.

XVIII. Corrections.

The receiver of any message can request the correction of passages which appear to him to be doubtful. He deposits for this purpose:—

1. The price of a message for the demand.
2. The price of a message calculated according to the length of the passage to be repeated for the reply.

The same power is accorded to the sender in case he has reason to suppose his message has been altered. These charges are returned if the repetition shows that the mutilation of the sense of the message was made by the telegraph.

XIX. Improperly Worded Messages.

Each department on the through lines has the power to stop the transmission of any message which may appear dangerous to the security of the State, or which may be contrary to the laws of the country, or public order, or decency.

XX. Suppression of Messages by Senders.

Any sender after proving his identity can stop, if in time, the transmission of a message deposited by him. If the signalling has not been commenced, the charges are returned, less a booking-fee of 4 annas; if the signalling has been commenced, the

charges received remain to the credit of the department upon whose line the message has entered, and the balance is returned; if the signalling is already finished, the sender's only means of requesting his message to be cancelled is by a telegram addressed to the chief of the terminal station, which is charged for in the usual manner.

XXI. Refunds.

In the case of any message which has not reached its destination through the fault of the telegraph service, or which in consequence of serious delay, or mutilation in transmission, has manifestly not been able to fulfil its object, the full cost of it is returned to the sender by the department which received it, the latter reclaiming, if necessary, from the other departments.

In the case of an interruption on a submarine line, the sender has a right to the refund of the portion of the charge belonging to the distance not traversed, deduction being made, if necessary, of the expense incurred in sending the message by any other mode of transport.

Every claim for reimbursement of charges ought to be made to the original sending department, and be supported as follows: *i. e.*, in case of non-delivery, by a written statement from the terminal or addressee; and in case of mutilation or delay, by the copy actually delivered.

If the sender does not reside in the country where he deposited his message for transmission, he can have his claim forwarded to the original sending department through the medium of another department. In this case, if it is evident that the claim is well-founded the latter is deputed to make the refund.

In case of delay, the claim for reimbursement is absolute if the message did not reach its destination sooner than it would have done by post.

No reimbursement is granted on account of errors made in unregistered messages accepted by toleration under the terms of paragraph 4 of Article IX. of the present rules.

TEN-WORD TELEGRAMS.

In accordance with Article 32 of the Vienna Telegraph Convention arrangements are in progress for the transmission of ten-word messages, to take effect from July 1st, 1869. Over the Continental lines the charge for the transit of such messages will, however, be the same as if they contained 20 words. The tariff for this class of message will be published in due course.

INDO-EUROPEAN TELEGRAPH TARIFF.

The tariff is for messages containing from 1 to 20 words, including Names and Addresses. (See Rule IV. on page 257.)

A message containing from 21 to 30 words is charged for at one rate and-a-half.

A message from 31 to 40 words, at two rates ; and so on.

All charges must be prepaid by the sender (except in the few cases in which the rules especially state the receiver has to pay.)

A similar table shows the working of the line between Kurrachee and Fao. Omitting the months of March, April and May, when communication was interrupted, through the breaking of the Persian Gulf submarine cable, it appears that the average time occupied between Kurrachee and Fao, 1,450 miles, from October 1867 to October 1868, was 1 hour 44 minutes. The time occupied in transmission by the land line between Kurrachee and Gwadur during the same period was 1 hour 10 minutes.

* The Persian Gulf Cable was broken from 12th March to 23rd May 1868.

TELEGRAPH RULES AND RATES.

MANNER OF WRITING MESSAGES.

1 Messages must be in the Roman character, and legibly written.

2. The body of the message must be preceded by the address, and followed by the signature.

3. The address must contain all the information necessary to insure the delivery of the message at its destination.

4. Messages may be written in the ordinary English language, in cypher, in words of concealed meaning commonly called "Code," or in any foreign language written in the Roman character.

5. Messages in ordinary language can contain no unusual combinations, abbreviations, or constructions, nor words of more than seven syllables.

TELEGRAPH RATES.

6. The charge for a message in ordinary English language between any two stations in India or Burmah, will be one rupee for every ten words.

7. The charge for a message in cypher, in words of concealed meaning, or in a foreign language, will be two rupees for every ten words. These messages are always repeated back by the receiving office, to ensure the greatest possible accuracy.

8. A double charge will be levied upon all messages tendered for transmission between the hours of 6 P.M. and 6 A.M.; also on Sundays, and the following holidays :—

Christmas Day, New Year's Day, Good Friday, and the Queen's birthday.

CEYLON MESSAGES.

9. *In addition to the above*, two rupees and eight annas will be charged for each group of 20 words sent to or from any station in Ceylon, and a half-rate, one rupee four annas, for every additional 10 words or fraction of 10 words in excess of 20.

10. These rates do not apply to Indo-European messages.

MANNER OF COUNTING MESSAGES.

11. All that the sender writes in his message to be transmitted, is included in the cost. The name of the telegraph station from whence it is despatched is added free by the department, and need not be written by the sender.

12. The day, hour, and minute of receipt of a message into a telegraph office for transmission is, in every instance, added by the department: they form the concluding words of the text of the message, and are telegraphed free of charge. Senders may, however, date their messages if they think fit; but the sender's date, if inserted, will be charged for, and, to avoid confusion, will, if given at the end, be transferred to the beginning of the text of the message.

13. Words joined by a hyphen are counted as so many separate words.

14. Words separated by an apostrophe are counted as so many separate words.

15. Proper names of towns and persons, names of places and streets, count as one word. Titles, Christian names, particles, and qualifications are counted for the number of words employed to express them.

16. Every separate character, whether letter or figure, is counted as a word. The same applies to an underline.

17. Signs which the instruments express by a single signal (signs of punctuation, hyphens, apostrophes, inverted commas, parenthesis, fresh paragraph) are not counted. But decimal points, commas, and bars of division used with figures are each counted as a figure.

18. Numbers *expessed in figures* are counted at the rate of five figures to a word, plus one word for any excess.

Re-directed Messages.

19. Should the addressee of a message leave the station to which it is addressed, and it be sent on by telegraph to some other station, an additional charge of one rupee for every 10 words of message in ordinary English language, and of two rupees for every 10 words of message not in ordinary English language, must be paid by the addressee for every extra address before the telegram is delivered to him.

Delivery of Messages.

20. *Peons will deliver messages free of charge at any place within* 5 *miles of the telegraph station.* Beyond this distance, messages will be sent either by post *registered* (the fee being prepaid), or by such other means as the sender may arrange, and pay for, at the Booking Station.

21. Any additional words that may be necessary to explain the delivery of a message when its destination is more than 5 miles beyond the nearest telegraph station, will be considered as part of the message and charged for accordingly.

General Instructions.

22. Senders of messages are advised to write their messages in an unmistakeable and distinct hand, and to use the shortest and most familiar words they can select. The more intelligible the message, the greater is the probability of its being correctly transmitted.

23. Every interlineation, reference, erasure or alteration of words should be authenticated by the sender of the message, or by his representative. The sender of a private message can always be called upon to prove that the signature attached to it is genuine

Registered Messages.

24. The sender of any message has the power of registering it.

25. The charge for registering is equal to the charge for the message.

26. When a message is registered, the delivering station transmits by telegraph to the sender, an integral reproduction of the copy sent to the receiver, followed by a double notice of the exact time of delivery, and of the person to whom it was delivered.

27. If it be impossible to effect delivery, this double notice is replaced by an advice of the circumstances which prevented the delivery, and if possible, by the information necessary to enable the sender to cause the message to reach its destination.

28. The return message has priority in transmission over other messages of the same rank.

29. The sender of a registered message can have the return message addressed to him at any station, by giving the necessary instructions, as also when prepaying a reply. The words necessary to convey these instructions will be considered as part of the message, and be charged for accordingly.

Refunds.

30. No refund will be made for a message delivered wholly or partially in an unintelligible state, unless it be registered; but the public are invited to submit complaints to the *Check Office, Calcutta.*

31. If a *registered* message be delayed or mutilated to such an extent as to be manifestly unable to fulfil its object, the whole charge made for it will be returned to the sender.

Length of Messages.

32. No message or messages of more than 200 words in all can be sent at one time by any private individual or firm, and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.

Multiple Messages.

33. A message addressed to several persons or to the same person in localities where delivery is to be effected by different offices, is charged for as so many separate messages.

34. A message addressed to several persons in one locality, or to the same person at several places of residence, with or without re-transmission by post, is charged for as a single message; but a copying fee of four annas, independently of postage, if any, is charged for each destination after the first.

CERTIFIED COPIES OF MESSAGES.

35. The sender and receiver of a message have a right to be furnished with certified true copies of the messages sent or received by them: a fixed charge of four annas is made for every copy furnished.

MESSAGES MUST BE PREPAID.

36. With the following exception, all charges for messages must be prepaid in cash or in stamps.

BEARING MESSAGES.

37. Messages are sent "bearing" from seaports when received by mail steamers or other vessels for despatch, but no message, prepaid or "bearing," will be received for transmission until the name of the vessel has been made known. "Bearing" messages will not be delivered to the addressees until payment has been obtained.

MESSAGES OF AN OBJECTIONABLE NATURE.

38. Telegraph masters are required to refuse to transmit a message which may be of a decidedly objectionable or alarming character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of Government, or to the chief civil officer if at a provincial station.

PROVISIONS TO SECURE SECRECY.

39. To secure secrecy as much as possible, all persons, including officers of the department not actually on duty, are strictly prohibited from entering the signal-room. Breach of the regulation renders an offender liable to a fine of one hundred rupees under Act VIII. of 1860.

40. Violation of secrecy on the part of any person in the department will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the official *Gazette* of the incapacity of the delinquent to serve the Government in any capacity. Breach of this rule renders the offender liable to the further punishment of fine, or to imprisonment with or without labor not exceeding two years, or to both. It is a violation of secrecy to mention the fact that a message has been received or despatched by any particular person or firm.

SERVICE MESSAGES.

41. Service messages from all public functionaries must be paid* for in cash or in stamps prior to despatch: the rates are the same for service messages as those charged to private individuals.

42. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.

"CLEAR THE LINE" MESSAGES.

43. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is, to suspend the receipt and despatch of all other messages until the one for which the line is "cleared" is passed on:—

The Governor-General of India;
The Governors of Madras, Bombay, and Ceylon;
Commanders-in-Chief, India, Madras, and Bombay;
Lieutenant Governors of Bengal, North-Western Provinces, and Punjab;
Secretaries to the Government of India;
Secretaries to the Governments of Madras, Bombay, Bengal, the North-Western Provinces, and the Punjab;
Chief Commissioners of Oudh, the Central Provinces, and British Burmah;
Commissioner of Sind;
Director-General of Telegraphs in India;
The Resident at Hyderabad (Deccan).

The messages so sent are, however, to be paid for in cash or in stamps as other service messages.

---

* The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

UNPAID MESSAGES.

44. No unpaid message, except those specified in the departmental regulations, shall on any account be transmitted. A violation of this rule will subject the signaller or Telegraph Master in charge of the station from which a message is improperly sent, to dismissal from the public service.

OFFICE HOURS.

45. Telegraph stations are divided into three classes—

1st.—Those performing permanent day and night duty;

2nd.—Those performing full day duty;

3rd.—Those of limited day duty.

Stations in the 1st class are always open day and night for the reception and transmission of messages; stations of the 2nd class are open from 7 A. M. till 9. P. M.; stations of the 3rd class from 8 A. M. till 10 A. M. from noon till 3 P. M., and from 4 P. M. till 6 P. M.

46. All offices will be closed to the public between the hours of 8 A.M. and 4 P.M. on Sunday, Christmas Day, New Year's Day, Good Friday, and the Queen's birthday.

EXEMPTIONS IN FAVOUR OF EMERGENCIES.

47. In cases of life and death, or of extraordinary polititical emergency, a message countersigned by the chief civil authority at a station, or by any of the authorities empowered to "clear the line," can be sent from any Office at any time.

D. G. ROBINSON, Col., R.E.,
Director Genl. of Tels. in India.

*** The above rules apply also to the various Railway Telegraphs throughout India, and messages can be sent partly over the Government and partly over the Railway lines of telegraph without additional cost to the sender.

MESSAGES FOR AMERICA.

RULE I.

The tariff from London to America is for a message of ten words, with five free words extra allowed for the address. For every additional word there is an additional charge, which is shown in the tariff tables.

II.

Messages may be written in English, French, Italian, or German. The words employed must be known or dictionary words.

III.

Letters, whether grouped or otherwise, not forming known or dictionary words, are charged each letter as a word.

IV.

The address to the extent of five words being sent free, those words cannot be used for any other purpose than to give the bona fide names of *sender* and the *receiver* of the message, the place from and to which it is sent, and the date of its despatch. If the address should contain less than five words, the deficiency cannot be employed in the text or body of the message.

V.

It is indispensable that the name of the sender and place from which the message is originally despatched be inserted in the address. The date can be added, or not, at the option of the sender.

VI.

Names of countries, principalities, states, islands, cities, and towns, count as one word between Great Britain and the American Continent. For instance, *Nova Scotia*, *South Carolina*, *Prince Edward's*, *New York*, count in each case as one word only.

VII.

F. O. B. when written thus, *fob*, counts as one word; but when the letters are separated thus, *f. o. b.*, they are charged as three words. C. I. F. or *cif*, whether connected or otherwise, is charged as three words.

Twopence, threepence, up to elevenpence, counts as one word in each case between Great Britain and the American Continent.

VIII.

Figures in ordinary messages must be expressed in words, thus 2 *two*, ¾ *three quarters*. The charge will be for the number of words, without regard to the figures they represent.

IX.

Messages may be composed *wholly* of figures grouped or otherwise, thus 1, 4, 8, 6, 5, 7 or 148, 65, 7. In either case each figure is counted as a word.

X.

Underlines, brackets, and inverted commas, are counted and charged as two additional words.

XI. Messages beyond Telegraph Lines.

Messages detained for places beyond the Lines of Telegraph must contain instructions from the sender as to the places from which they are to be posted. Such instructions should be inserted immediately after the receiver's address, and be charged for as part of the message. In addition to the rate to the Telegraph station from which the messages are to be posted, an amount of *one rupee* is charged.

XII. Prepaid Replies.

Replies at full rates can be prepaid, the sender determining the number of words by inserting, and paying for, the following words immediately before his signature :—"Reply————words paid." If a reply of only ten words is paid for, it is sufficient to insert "Reply paid." Should the reply contain more than the number of words specified and paid for, the sender of the original message, requiring the reply, must pay the excess on its receipt. The reply must be presented for transmission not later than eight days after the date of arrival of the original message at the delivery station. Should the reply be presented for transmission after the expiration of the eight days, it must be paid for as a fresh despatch.

XIII. Repeated Messages.

In order to more effectually secure accuracy in transmission, messages may be repeated from the station at which they have been received to the station from which they were originally sent. Repeated messages are charged double the ordinary rates.

The words "*repetition paid*" or *dépêche recommandée*, must be inserted immediately after the receiver's address, and charged for.

XIV. Messages in Code.

Messages constructed for purposes of secrecy, of disjointed sentences, words, or letters, rendering the meaning unintelligable to the Telegraph Companies, will be transmitted with every possible care,—but the Telegraph Companies (whilst being willing to investigate by post complaints respecting errors that may occur in such messages) will not under any circumstances return the charges upon them unless they be "*repeated messages*" as provided for in the preceding rule. If the receiver of a message of the above character should have it repeated, the amount paid for the repetition will not be returned unless the message was originally a "*repeated message*," and had been paid for as such by the sender.

XV. Government Messages.

Numerals or letters in groups of four or less, are charged as one word ordinary rate. Groups containing more than four numerals or letters, and not exceeding eight are charged as two words ; and so on. These cypher messages should consist exclusively of numerals or letters, and be uninterrupted by words. The addresses and signature should be written in ordinary language, and each word be counted as one word. The addresses to the extent of five words are sent free. These rates are for *unrepeated Government cypher messages*, which are forwarded at the sender's risk, and no charges will be returned on account of errors. Double rates must be charged if these messages are required by the senders to be repeated.

XVI. Press Messages.

By *special arrangement* reduced rates may be obtained by the accredited agents of newspapers, or news associations, for political and general news (not commercial) written in plain unabbreviated words.

News sent at reduced rates must be used *exclusively for publication in the Press.*

XVII. Messages to Cuba.

Messages to Cuba must be written in plain ordinary language, code or cypher not being allowed by the Spanish Government.

Messages to places in Cuba other than Havana must be written in the Spanish language, otherwise they are forwarded entirely at the risk of the sender.

XVIII. Messages from India.

Messages from stations in India must be charged the rate from such stations to London, in addition to the rate from London to America.

XIX. Addresses.

The sender is responsible for an insufficient address ; corrections or alterations can only be made by a fresh message, which must be paid for.

XX. Complaints.

All complaints respecting irregularity in the transmission or delivery of messages must be made by the *sender* only.

EDUCATIONAL INSTITUTIONS AND SOCIETIES.

BOMBAY UNIVERSITY.

Incorporated under Act 22 of 1857.

The Senate meets ordinarily once a year, on the fifth Saturday in the First Term in Arts, and at other times when convened by the Vice-Chancellor. A meeting of the Senate can be convened on the requisition of any six of the members. Six members of the Senate constitute a quorum; and all questions are decided by a majority of the votes of the members present, the Chairman, when the numbers are equal, having a second or casting vote. There are four Faculties, namely, Arts, Law, Medicine and Civil Engineering. Every member of the Senate must be a member of one Faculty at least, but any member of the Senate may be a member of more than one Faculty. The Faculties are appointed by the Senate at its annual meeting.

The Executive Government of the University is vested in a Syndicate, consisting of the Vice-Chancellor and seven of the Fellows, who are elected for one year by the several Faculties.

ELPHINSTONE COLLEGE.

Recognised by Bombay University in 1860.

K. M. Chatfield, B.A.	Principal and Prof. of Logic and Moral Philosophy.
J. P. Hughlings, B.A.....	Professor of English Literature and History.
F. J. Candy, M A.....	Do. of Mathematics and Natural Philosophy.
G. Bühler, Ph.D.	Do. of Oriental Languages.
Assistant Surgeon J. B. Lyon.....	Do. of Chemistry.
Mahádev Govind Ranadé, M.A., LL.B.	Assistant Professor.
Abdool Fattah Moolvee	Reader in Arabic.

Elphinstone College arose by a separation, in the year 1856, of the Professorial element from the "Elphinstone Institution," which henceforth became a high school. The Elphinstone Institution had its origin in a meeting of the Bombay Native Education Society on the 22nd August 1827, to consider the most appropriate method for testifying the affectionate and respectful sentiments of the inhabitants of Bombay to the Honourable Mountstuart Elphinstone, on his resignation of the Governorship of Bombay. The result of this meeting was that a sum of money, amounting to Rs. 2,29,656, was collected by public subscription towards the endowment of Professorships for teaching the English language, and the Arts, Sciences, and Literature of Europe, to be denominated the Elphinstone Professorships. This sum afterwards accumulated, to Rs. 4,43,901, and the interest of it is augmented by an annual

subscription from Government of Rs. 22,000. Cowasjee Jehanghier Readymoney, Esq., Justice of the Peace, Bombay, presented Government with Rs. 2,00,000 towards erecting suitable College Buildings for Elphinstone College, to be called the "Cowasjee Jehanghir Buildings."

The following endowments are connected with the Elphinstone College :—

The West Scholarship Fund, subscribed in 1828, in honour of Chief Justice Sir Edward West ; the Clare Scholarship Fund, subscribed in 1835 in honour of the Earl of Clare, Governor of Bombay ; the Gaekwar Scholarship, established by His Highness the Gaekwar in 1850 ; the Bell Prize Fund, subscribed in 1848, as a testimonial to Professor John Bell, of the Elphinstone Institution ; the Sundarji Jiváji Prize Fund, established in 1842 by Bábáji Sundarji in memory of his father ; the Rajáh of Dhár's Prize Fund, given by the Rajáh of Dhár in 1853 ; the Ganpatráo Vithal Prize Fund, given in 1854 by Ganpatráo Vithal of Indore ; there are six Dakshiná Fellowships attached to the College, two of Rs. 120 each per mensem, and four of Rs. 62 each.

POONA COLLEGE.

Recognised by Bombay University in 1860.

W. Wordsworth, B.A. ..... Principal.
R. G. Oxenham, B.A. ..... Professor of English Literature.
Keru Luxumon Chitrey ..... Do. of Mathematics and Natural Philosophy
F. Kielhorn, PH. D. ..... Superintendent of Sanscrit Studies.

On the occupation of the Deccan by the British Government in 1818, it was found that a certain portion of the revenues of the Maratha State had been yearly set apart for pensions and presents to Brahmans (Dakshina). To prevent hardship and disappointment, and to fulfil the implied obligations of the new rulers, the British Government continued these payments ; but as the pensions and allowances fell in, they resolved, while maintaining the same total expenditure under the name of the Dakshina Fund, to devote a portion of it to a more permanently useful end. With this view the Poona College was founded in 1821, as a Sanskrit College exclusively for Brahmans. In 1837 some branches of Hindu learning were dropped, the study of the vernacular and of English was introduced, and the College was opened to all classes. From another portion of the Dakshina Fund, Dakshina Fellowships have been founded, of which four, viz. one Senior Fellowship and three Junior Fellowships, are attached to this College. In 1863 Sir Jamsetjee Jejeebhoy, Bart., offered to Government a lac of rupees to provide suitable buildings for the Poona College.

FREE GENERAL ASSEMBLY'S INSTITUTION, BOMBAY.

Recognised by Bombay University in 1861.

The Rev. John Wilson, D.D., F.R.S. ..... Instructor in Theology, Indian Languages, History, and Elementary Natural History.
„ James Aitken ..... English Literature and Elementary Chemistry
„ Richard Stothert, M.A. ..... General History, Logic, and Moral Philosophy, and Greek.
„ Dhunjibhai Nowrojee ..... Classes for Religious, Moral and Historical Instruction.
Edward Rehatsek, M.C.E. ..... Mathematics, Natural Philosophy, Physical Science, and Latin.

This Institution arose out of an English School for Native youths founded by the Rev. Dr. Wilson in 1832, and originally dependent on local contributions. It was afterwards recognized in 1835 by the Church of Scotland, and in 1843 by the Free Church of Scotland, from which body it received the greater parts of its funds.

GOVERNMENT LAW SCHOOL.

This Institution is due to a subscription raised by the inhabitants of Bombay in the month of November 1852, on the eve of the departure from India of Chief Justice Sir Thomas Erskine Perry, to found a Professorship of Jurisprudence as a memorial of his long connection with Law and Education in India. This endowment yields a monthly income of Rs. 169, to which Government contributes a subsidy of Rs. 100 per mensem, the aggregate being the stipend of the Perry Professor of Jurisprudence. Government also contributes Rs. 600 per mensem for the maintenance of two Professorships of Law. Lectures are delivered on the following subjects :—General and Comparative Jurisprudence ; Contracts and Mercantile Law ; Torts and Criminal Law ; Evidence and Procedure ; and the Principles of Equity.

Richard Tuohill Reid, LL.D. ..... Perry Professor of Jurisprudence, and Government Professor of Law.
C. F. Farran ..... Acting ditto.
John O'Leary ..... Government Professor of Law.

POONA CIVIL ENGINEERING COLLEGE.

Recognised by Bombay University in 1865.

Theodore Cooke, M.A., M.I., F.G.S.	Principal and Lecturer on Chemistry and Geology (Europe).
W. S. Howard	Acting do. do.
Dajee Nilkunt Nagarkar	Professor of Mathematics and Civil Engineering.
Robert Royal	Superintendent Mechanical School.
Samuel Cooke	Professor of Chemistry and Geology.

The Poona Civil Engineering College arose out of a School established in Poona in 1854 for the purpose of educating subordinates for the Public Works Department. The Principal is subordinate to the Director of Public Instruction.

Attached to the College are workshops, where practical instruction is conveyed to the students, and where work of various kinds is executed for Government and the Public.

In July 1863, Cowasjee Jehanghir Readymoney, Esq., offered to Government the sum of Rs. 50,000 to assist in the erection of a suitable building for the College, which was completed in 1868 at a total cost of Rs. 1,08,000.

GRANT MEDICAL COLLEGE.

Grant College was established in the year 1845, under the name of the Grant Medical College as a tribute to the memory of the late Sir Robert Grant, Governor of Bombay. The object of its establishment is to impart the benefit of medical instruction to the Natives of Western India. A moiety of the cost of the building was defrayed by Sir Robert Grant's friends, the remainder by Government. The funds for the support of the College, with the exception of certain endowments for the encouragement of deserving students, are contributed by Government. The Principal is subordinate to the Director of Public Instruction. Lectures are delivered in the English language on every branch of Medical Science; there is also attached to the College a secondary school for the instruction of young men in Medical Science through the Marathi language. The Teachers are Graduates of the College and Licentiates of the University of Bombay. Clinical and practical instruction is imparted in the Jamsetjee Jeejeebhoy Hospital.

Formerly the College conferred upon its students a Diploma or License to practise Medicine, and the designation "Graduate of Grant College," but upon the establishment of the University of Bombay, the College ceased to grant diplomas, and became affiliated to the University as a College for Medical Education.

Surgeon W. G. Hunter, M.D., M.R.C.P.	Principal, and Professor of Physiology.

BOMBAY EDUCATION SOCIETY.

PRESIDENT.—His Excellency Sir W. R. Seymour Vesey Fitzgerald, K.C.S.I., Governor of Bombay.

The Bombay Education Society, instituted in 1815 by the exertions of the Venerable Archdeacon Barnes, has for its principal object the training up of the children of Europeans in the principles of Christianity, and teaching them such knowledge and habits of industry as may render them useful members of the community. Its operations were at first projected on a very extensive scale, but it was soon found desirable to limit them to the education of European children only. In 1825 the school was removed from the Fort to Byculla. The land for this purpose was a free grant from Government, and buildings then calculated to accommodate 200 boys and 150 girls were erected at a cost of Rs. 1.71,238. (The requirements of more modern sanitary principles have rendered it necessary to reduce the number to 140 in each school, and have thereby added greatly to the health of the children.) The Society maintains, besides these two schools, an infant school at Poona. The children belong to two distinct classes; one, orphans who are entirely supported by the funds of the Society; the other, orphans belonging to the "Military Asylum," the cost of whose support is defrayed by Government. On the formation of the Society the Government authorised a monthly grant of Rs. 440, and this contribution the Society has ever since enjoyed. In 1848 the Society purchased the Government Printing Press, and obtained a monopoly of the Government printing for 5 years, which contract has been from time to time renewed; and the profits derived from the Printing Press may be said to have been the mainstay of the Society, but it nevertheless greatly dependent on the charitable public for its support.

MANAGING COMMITTEE.—Rev. G. C. Reynell; H. Birdwood, C.S.; W. Loudon, ; Col. W. S. Hatch, Hon. Treasurer; Dr. G. Bell, Surgeon; Capt. H. P. Walshe, Secretary.

Boys' School.—R. E. Walters, Head Master; John Thomas, 2nd Master; Richard Hildreth, 3rd Master.

Girls' School—Miss Burton, Head Mistress; Miss Steuart, 2nd Mistress; Miss Pudgeon, 3rd Mistress.

Printing Office.—J. Firth, Superintendent; J. Kingsmill, Assistant Superintendent.

ROBERT MONEY INSTITUTION.—ESPLANADE.

The object of this Institution is to impart a sound religious and secular education to the natives of India. There is an admission fee of Rs. 1 and monthly fees of eight and six annas. Principal, the Rev. Thomas Carss, M.A.; Trained Master, Joseph Jackson; and thirteen native assistant masters. Number of pupils 440.

GENERAL ASSEMBLY'S INSTITUTION.—KALBADAVIE.

This School, which was established in connexion with the Church of Scotland's Indian Mission, receives a Government grant-in-aid, and is recognised by the Department of Public Instruction as a High School teaching up to the University standard. W. F. Melvin, Superintendent. Number of pupils, November 1868, 334.

ELPHINSTONE INSTITUTION.—INSTITUTED 1822.

The object of this institution, which was founded by the Hon'ble Mountstuart Elphinstone, is general education in the Arts. Trustees of the Elphinstone Fund :—Sir Jamsetjee Jejeebhoy, Baronet; Venaeckrow Jugonnathjee Sunkersett; Bhau Dajee, G.G.M.C.—Secretary (vacant.)

BOMBAY SCOTTISH EDUCATION SOCIETY.—1866.

Rev. D. C. Boyd and Rev. D. Macpherson, Joint Secretaries.

FORT SCHOOL—8, HORNBY ROW.

It is the object of this School to provide for Pupils of both sexes a systematic and extended course of intruction in all the branches usually taught in first-class educational establishments. Increased accommodation has enabled the Committee to separate the Girls' Department, under Mrs. Macdonald and Miss Mitchell, from the Boys' Department, under Mr. Macdonald and an Assistant Master; both sections, however, still remain under the personal superintendence of Mr. Macdonald. The School has recently been recognised by the Director of Public Instruction as a High School teaching up to the standard prescribed for Matriculation at the University.

THE ABOO LAWRENCE SCHOOL FOR SOLDIERS' CHILDREN.

PATRONS AND VISITORS.

H. E. The Governor of Bombay. | H. E. The Commander-in-Chief of Bombay.

The Right Rev. The Lord Bishop of Bombay.

The object of the above institution is to provide for the orphans and other children of soldiers, serving or having served in Rajpootana and Western India, a refuge from the debilitating effects of a tropical climate, and the demoralizing influence of a Barrack life; to furnish an asylum in a bracing climate, wherein a plain practical education adapted to the

condition of its inmates, may be obtained, and where, by Divine blessing, soldiers' children may be trained to become useful and intelligent members of society and, above all, consistent Christians.

The boys are trained, as far as practicable, for the following employments: Civil Engineering, Subordinate Medical, Electric Telegraphy, Surveyors, Merchants' or Office Clerks. Arrangements have also been made for instructing the elder boys in the Vernacular. The girls are employed in such occupations as will tend to qualify them for becoming the wives of men in such stations as the boys may be expected hereafter to occupy: plain needlework, housewifery, and washing; attention to sick, and management of children, &c.

Mount Aboo is a hill detached from the Aravelli range, and standing about 4,500 feet above the sea, in the small tributary State of Serohi, in Rajpootana. It lies about 50 miles E.N.E. of Deesa in Guzerat, and as far S.S.W. of Erinpoora in Serohi. The School buildings and grounds cover about 4 acres adjoining the Church, and there is accommodation for upwards of sixty children. The climate is very healthy, and the station has been for some years the site of a Sanitarium for European Troops. The average daily temperature throughout the year is 69 deg., and the average fall of rain is 55 inches during the year.

COMMITTEE OF MANAGERS.—Colonel Keatinge, V.C., C.S.I., Rev. A. Miller, Dr. Moore, Dr. Spence, Major Gostling, and Captain E. Impey, Lieut. W. J. W. Muir, Hon. Secretary and Treasurer. School Establishment—A. Wolfe, Head Master; Mrs. A. Wolfe, Head Mistress.

BOMBAY DIOCESAN BOARD OF EDUCATION.—FOUNDED 1866.

MEMBERS OF THE BOARD.—The Lord Bishop of Bombay, *ex-officio, President;* Hon'ble Sir R. Couch; Hon'ble J. Gibbs; G. Foggo; C. E. Chapman; A. T. Crawford; A. R. Scoble; H. M. Birdwood; Ven. Archdeacon Leigh Lye; Rev. F. J. Spring; Rev. C. T. Wilson; Rev. W. Maule; Rev. G. C. Reynell; Rev. T. K. Weatherhead; and Rev. C. Gilder.

Hon. Treasurer, Rowland Hamilton; Hon. Secretary, Rev. G. C. Reynell.

The object of this Society is to advance Christian education amongst the European and Eurasian community. Grants-in-aid are made to schools, but they are not granted for a longer period at one time than five years, it being understood that in every case a local contribution, including school fees of equal amount has to be made. All schools receiving grants-in-aid have, in addition to daily Scriptural instruction for all the children, to make provision for regular instruction in the Catechism and Prayer Book, but from which any child, whose parents or guardians are not members of the Church of England, may be excused, on written application. The following schools receive help from the Board:—

Diocesan School, Byculla.—Head Master; Rev. E. H. DuBois, with four Assistants; Superintendent of Girls' School, Mrs. DuBois, with three Assistants.

Bishop's School, Poona.—Head Master, Mr. Brierly (Deputy Inspector of Army Schools), with two Assistants.

Poona Girls' School.—Mistress, Mr. Wood, with one Assistant.

St. Peter's School, Mazagon.—Mistress, Mrs. Williamson.

Sholapoor European and Eurasian School.—Mistress, Mrs. Ramsay.

INDO-BRITISH INSTITUTION.—SONAPORE.

The object of the Institution, which was founded by Rev. George Candy in 1838, is to promote the Christian education of children, especially those of poor Indo-Britons. Applicants are received from all parts of the presidency. Ordinarily, more than one-half of the children in the schools are clothed, boarded and educated gratis; and but a very small proportion pay the full charge of Rs. 16 per mensem. The institution is in consequence mainly dependent on public charity for its support. Both boys and girls receive a plain English education, to fit them to become useful members of society in their own station of life. The school houses cost between Rs. 30,000 and Rs. 40,000, of which Rs. 15,000 was contributed by the S. P. G., Rs. 10,000 by the S. P. C. K., and the remainder by the public. Subscriptions and donations are much needed.

COMMITTEE.—Rev. F. J. Spring, M.A.: J. A. Shepherd; Rev. W. Maule, S.C.L.; J. Cameron, C.E.; Rev. C. Gilder (Secretary); W. Maidment; J. Ryan, C.E.; Rev. C. T. Wilson; Hon'ble Mr. Justice Warden; J. Fry; and R. Proctor-Sims.

LADIES' COMMITTEE.—Mrs. Westropp, Mrs. Ward, Mrs. Shepherd, Mrs. Spring, Mrs. Loudon, and Mrs. White.

BOMBAY SCOTTISH ORPHANAGE.

SUPERINTENDENT.—R. Duthie.

In the year 1847 an Institution called the "Scottish Female Orphanage" was established in Bombay, primarily for the benefit of the daughters of Presbyterian Soldiers and Indian Navy Seamen. In 1856 a similar institution was established for boys, and styled the "Orphanage for the Sons of Presbyterians." These two Orphanages were united in 1859 under the name of the "Bombay Presbyterian Male and Female Orphanage." This name was altered in the year 1863 to that of the "Bombay Scottish Orphanage." In February 1867 it was again changed to the "Bombay Scottish Orphanage Society." The object of the Society is to provide for the maintenance and education of Scottish Orphans and of such other children as the Society shall consider to have sufficient claim to the benefits of the Institution. The religious and other instruction provided at the Orphanage is, as far as possible, such as is con-

veyed in the Parochial Schools of Scotland, and the Orphanage is under the pastoral supervision of the Ministers of St. Andrew's Church and of the Free Church. Subscribers of Rs. 30 annually are members, and donors of Rs. 300 in one sum are life members of the Society.

CHRISTIAN VERNACULAR EDUCATION SOCIETY.

NORMAL SCHOOL AT AHMEDNUGGUR.

ST. AUSTIN'S CATHOLIC PUBLISHING SOCIETY.

The object of the Society is the promotion and diffusion of useful knowledge in general, and of religious knowledge in particular by the periodical publication of Pamphlets, Essays, Lectures, &c, on moral or religious subjects, and by the publication of works of a larger size in the English or Portuguese languages or in any of the vernacular idioms; which pamphlets or books are distributed either gratuitously or at very moderate rates, as may be deemed most conducive to the furtherance of the end of the Society.

COMMITTEE OF MANAGEMENT.—Rev. I. Ciampi, S. J., President; Rev. J. Pereira and J. F. Vaz, Vice-Presidents; P. A. Rowe, Secretary.

THE POONA CONVENT.

THE CONVENT OF JESUS AND MARY, POONA.

The Convent of Jesus and Mary, Poona, is under the care of the religious ladies of Jesus and Mary, and consists of two distinct divisions—1st, the Female European Orphanage, which is composed for the most part of soldiers' children, and contains 150 on an average; and 2nd, a Day School, which is attended by between 70 and 80 children of better social position, who are generally the children of civilians. The Lady Superior has the entire management of the house, and is assisted by nuns and lay sisters of the Order in the education and care of the children. The most encouraging protection has been afforded to the Institution by Government; the buildings are remarkably well fitted for scholastic purposes, and every effort is made to make the children comfortable, and to fit them to become useful members of society.

ST. JOSEPH'S ORPHANAGE, POONA.

All applications for admittance in the institution have to be made to His Lordship the R. C. Bishop of Bombay, or to the Lady Superior. The children, when once admitted, have to remain at least one year in the Orphanage; and cannot be removed during this period without a special authorizatiou of the Bishop. The parents of the children not belonging to the Army, or not receiving the Government allowance, have to pay Rs. 12 per month for their maintenance. Orphan children, unable to pay that fee, are maintained partly by the Government allowance, partly by the subscriptions for the orphanage, and partly by the Mission. The children are supplied with abundant and wholesome food; they have four meals a day, special care is taken for cleanliness, in dress, lodging and bedding—they are taught vocal music, which is made available for their religious exercises—at all times and places the children are under the maternal and strict vigilance of the nuns, and stimulated to application and good conduct by a sense of their duty and by a noble emulation. Correspondence of the children with their parents being considered as a matter of duty, is constantly insisted upon, and from time to time the Lady Superioress informs the parents of the conduct and improvement of their children. With regard to medical attendance the institution has received the privilege from Government of being under the immediate direction of the Staff Surgeon of Poona, the medicines being provided also by Government; there is suitable infirmary for the sick, and a lay-sister constantly in attendance.

ST. XAVIER'S DAY-SCHOOL, POONA.

The school hours are from 9 to 12 A.M. and from 1 to 4 P.M., and punctual attendance is required, for which the parents are responsible. The Catholic pupils have to attend regularly the religious exercises, both in school and in church, particularly on Sundays. The religious belief of the pupils of any other creed is not interfered with. As to instruction, all the pupils are divided in the four divisions. In every division the pupils are most carefully taught every kind of plain and fancy work according to their capacity. The greatest care is taken concerning the behaviour, politeness, and manners of the pupils; particular and frequent instructions are given on this important matter. The judicious instruction of young females being a matter of so much importance, and so closely connected with their own future welfare and the good of society in general, the Ladies of the Convent in instructing their pupils are not only solicitous for the cultivation of their minds, but also for the formation of their characters, and are therefore careful to instil into their hearts a sound and practical education, as well as those qualities which will fit them for the performance of their social and domestic duties.

ST. XAVIER'S SCHOOL,—CAVEL.

PRINCIPAL: Very Rev. B. Hafely, S.J.—Assistants: Rev. N. Clarke, S.J.; Rev. J. Predeck, S.J.; H. Cotter; B. X. Furtado; J. Mannion; M. D'Silva; and Emile Gallwitz.—Portuguese Teacher: J. De Costa.

ST. MARY'S INSTITUTION.—NESBIT LANE, MAZAGON.

A Boarding School, a Day School, and the R. C. Orphanage.

This Institution is recognised by the Director of Public Instruction as a High School, teaching up to Matriculation Standard. Pupils, who may have passed with credit under the IV. or V. standard, being Europeans or Eurasians, are entitled to receive from Government the special personal allowance of Rs. 30 per mensem, while pursuing their studies at the Institution. Day-scholars are received at a quarterly fee varying from Rs. 3 to Rs. 15. There are two classes of boarders—1st class boarders pay Rs. 96 per quarter in advance; 2nd class boarders Rs. 48. The supply of clothes, &c. is at the charge of the parents. There are at present 193 boarders, and 110 day-scholars at the Institution, of whom 40 in the classical course. The Rev. Jos. A. Willy, S.J., Superintendent of Studies and Professor of Latin; Rev. R. Rive, Vice-President, Professor of Natural Sciences; Rev. Fr. Albert, S.J., Professor of Mathematics; and Rev. L. Secretaries.—Rev. T. K. Weatherhead, and Rev. D. C. Boyd, M.A.

This Society was formed under the name of the "Auxiliary Bible Society of Bombay," for the purpose of co-operating with the British and Foreign Bible Society in promoting the distribution of the Holy Scriptures on the Western side of the Peninsula of India. Conformable to the principle of the Parent Institution, the Bibles and Testaments circulated by the Society are without note or comment: and those of the languages of the United Kingdom, of the authorised version only. Each person contributing to the aid of this Society by an annual donation or subscription, becomes a Member, and is eligible for election to the Committee.

Applications for Scriptures have to be made at the Depository, Esplanade, to the Assistant Secretary, Vincente A. de Cunha.

BOMBAY TRACT AND BOOK SOCIETY.—ESPLANADE.

The object of this Society is to obtain and circulate publications of the Religious Tract Society of London and others of a like character; and more especially to prepare and circulate Christian tracts and books composed on Evangelical principles, excluding those minor points on which Christians may conscientiously differ, and adapted to the wants of the Native mind in Western India and the adjacent countries. All contributors to the Society approving of its objects and principles are considered members.

ST. THOMAS'S CATHEDRAL, BOMBAY.

Rev. F. J. Spring M. A.—Senior Chaplain.
Rev. C. T. Wilson—Junior Chaplain.
TRUSTEES—The Chaplains, Hon. L. H. Bayley, and A. T. Crawford.
ORGANIST (Honorary)—M. Mull.

Services are held or Sundays at 11 A.M , and 6 P.M., and on Wednesday and Friday at 5-30 P.M. The Holy Communion is celebrated on the first Sunday in every month at the 11 o'clock service ; on the third Sunday in the month at 7 A.M. ; and on the Festival days of the Church at 7 A.M.

St. Thomas's Church was built in 1,718 at a cost of Rs. 43,992, raised chiefly by public subscription, Government contributing Rs. 10,000. A century later it was consecrated by Bishop Middleton. Recently the chancel has been extended eastward, and some other addition made. Gas was introduced into the building in 1868, for which Government sanctioned an expenditure of Rs. 3,590.

All the expenses attendant on Divine Worship in the Cathedral are defrayed by Government. No pew rents are levied, and beyond the monthly offertory for the poor, and annual collections for the choir, for the Bombay Education Society and kindred institutions, no demands are made on the congregation. The Cathedral possesses a magnificent organ (built by Messrs. Bishop and Starr, London.) In addition to a monthly choir allowance of Rs. 60, Government contribute Rs. 30 monthly for tuning the organ, and Rs. 110 nominally as salary for the organist, but for the last two or three years, the duties have been performed honorarily, by gentlemen amateurs.

CHURCH OF ST. JOHN THE EVANGELIST, COLABA.

Rev. W. Maule, Chaplain.

Divine Service is celebrated on all Sundays throughout the year, and on Good Friday and Christmas Day, at 11 a.m. and 6 p.m. The Holy Communion is celebrated on the 1st Sunday in the month at 7 a.m. ; on the 3rd Sunday in the month at 11 a.m. ; on Advent Sunday, Easter Day, Whitsunday, Trinity Sunday, and Christmas Day, at 11 a.m. ; on the Feast of the Circumcision, (New Year's Day), the Feast of the Epiphany and Ascension Day, at 7 a.m ; the Offertory is collected from the whole congregation. In Advent and Lent there are Special Services, as follows:—Wednesday, Evening Prayer ; Friday, Litany and Lecture, at 6 p.m. The Choir meet for practice in the Church every Thursday and Saturday at 5·30 p.m. On the evening of the 1st Sunday in the month a collection in made in behalf of the Choir Fund.

The Church is open from sunrise to sunset for all who week retirement for Prayer and Meditation. The Church, commonly called the Memorial Church, originated with the late Rev. George Pigott, M.A., who accompanied the Bombay column at the first invasion of Affghanistan. It cost about £20,000, partly contributed by the public and partly by Government, and was erected "in memory of those Officers and Private Soldiers who fell in the invasion of Affghanistan, in the retreat from Cabool, and in those days of Victory at the Khyber Pass, at Jellalabad, Jugdulluck, and Tezeen, at Kandahar and Ghunzee, and in the re-occupation of Cabool, which restored the supremacy of British power and the dignity of the British name in the East." With the exception of the Minister's salary all the expenses attending Divine Worship in this Church are defrayed by the congregation.

CHRIST CHURCH, BYCULLA.

Rev. George Carew Reynell, M.A., Chaplain.

Divine Service is held on Sundays at 11 A.M. and 6 P.M. ; on the festival days of the Church at 11 A.M. ; and on Fridays and Saints' Days at 7 A.M. The Holy Communion is administered on the second Sunday in every month at the 11 o'clock service, and on the last Sunday in every month at 7 A.M., also on festival days at 7 A.M. Baptisms and Churchings are solemnized on Tuesdays at 4-30 P.M., and on Fridays at 7 A.M.

This Church is partly supported by Government, by whom a Chaplain is allowed, and by whom the clerk, sexton, and menial servants are paid. An allowance of Rs. 50 per mensem is also made towards the cost of repairs, lighting, music, &c., the balance being met by pew rents, which vary from Rs. 3 to Rs. 5 per quarter.

TRINITY CHAPEL.—SONAPORE.

This Chapel, which was opened for Divine Service in 1840, was established in connexion with the Indo-British Mission, its cost (between Rs. 10,000 and Rs. 15,000) being defrayed by the Hon. J. Farish, officiating Governor of Bombay. Services are held on Sundays at 7 A.M., 11 A. M., and 6 P.M., Wednesdays at 5-30 P.M. ; a Marathi service on Sundays at 8 A.M. ; and a Tamil service at 3 P.M. on Sundays.—Officiating Minister, Rev. C. Gilder.

ST. ANDREW'S CHURCH, BOMBAY.

Church of Scotland.

Rev. D. Macpherson, Senior Chaplain.

Services are held on Sundays at 11 A. M. and 6 P.M., and the Lord's Supper is celebrated on the first Sunday of March, June, September and December.

The minister's salary is defrayed by Government, and all other expenses by the congregation.

The Colaba (Bombay) Lunatic Asylum is managed by a Medical Superintendent, under the orders of Government, according to Act XXXVI. of 1858.

Surgeon W. Niven, M.D., Superintendent.

STRANGERS' FRIEND SOCIETY.

This Society was established on the 28th May 1863, for the temporary relief of destitute Europeans, and extinguishing, as far as practicable, European vagrancy in Bombay. The Home, situated at Colaba, has an average number of about 70 residents, who are lodged and fed for two months without charge, efforts being made in the meantime to procure them employment. At the end of the second month they are under the authority of the Commissioner of Police, who is empowered to deport them. In the latter half of 1867 nearly 150 destitute Europeans were in this way sent out of the country. The Society is mainly dependent on public charity for support. Contributions should be forwarded to the Secretary, but books and clothes to the Superintendent of the "Strangers' Home."

Honorary Secretary—William Gordon. | Superintendent of "Home"—M. McCarthy.

SEAMEN'S FRIEND ASSOCIATION.—1838.

The object of this Association is to encourage the performance of Divine Worship, and the regular preaching of the Gospel, in Bombay harbour; to circulate Bibles and Tracts; and to use whatever other means may appear calculated to advance the religious interests of seamen.—Superintendent of Sailors' Home, H. H. Avron.

Honorary Secretary—Lieut. W. L. Searle, I.N.; Honorary Treasurer—W. Gordon.

SHEPHERD'S ALMS-HOUSES.—BYCULLA.

These Alms-Houses were built about 25 years ago with money bequeathed by a Mr. Shepherd of the Indian Navy. They contain nine rooms for widows, orphans, and blind persons; and are in charge of the Rev. G. C. Reynell, Chaplain of Christ Church, Byculla.

SOCIETY OF ST. VINCENT DE PAUL.—ESTABLISHED 1862.

PATRON.—The Right Rev. Dr. Leo Meurin, R. C. Bishop of Bombay.

The object of this Society is to provide the poor with such succour, in kind (not in money), as upon personal inquiry is deemed suitable to their condition. They are visited once a week at their dwellings by the Active Members. The Visiting Members choose for relief, whenever it is possible, those persons who are suffering from pressure caused by the illness or death of some working member of the family. R. A. Dallas, LL.D., Solicitor, High Court, President; J. P. Green, Barrister-at-law, and J. F. Vaz, Vice-Presidents; Dr. M. A. Misquita, Secretary; Nicholas Fernandes, Treasurer; J. M. Gonsalves, Vice Treasurer.

ST. VINCENT'S HOME.—ESTABLISHED 1863.

This Home was established in connection with the Society of St. Vincent de Paul.—Committee: J. F. Vaz, President; M. Gomes, Vice-President; 3 Lady Resident Superintendents; J. M. DeLima, Secretary and Treasurer. There is also a Burial Committee of which the Rev. J. Ciampi, S.J., is Director; its object being to secure decent interment to the friendless Catholic poor, dying in Sir Jamsetjee Jejeebhoy Hospital and elsewhere within the town of Bombay.

ST. ELIZABETH'S HOME.

Established by the Bombay Catholic Association on 21st February 1868.

PATRON.—The Right Rev. Dr. Leo Meurin, S.J., Bishop of Bombay.

This Home is intended for European widows and respectable females in distress. A large airy house at Mazagon was engaged on the 1st July 1868, and since that date it has been occupied by the Nuns of Jesus and Mary, who have charge of the Institution, which, in their hands, has more than answered the expectations of all interested in it. The Home is entirely dependent on public charity for support. A School for girls is attached to this home, and is under the immediate care of the Rev. Mother Madam St. Leo and the Nuns of Jesus and Mary.

ST. VINCENT DE PAUL'S DISPENSARY, BANDORA.

The object of this Dispensary is to afford medical aid to the poor of all classes, and specially to those under the care of the Society of St. Vincent de Paul. Dr. M. A. Misquitta is Medical Attendant, and renders his services gratuitously.

FINANCIAL STATEMENT FOR 1868-9.

BY THE HONORABLE MR. MASSEY.—14TH MARCH 1868.

BEFORE I proceed to the business for which we have assembled this morning, I crave the permission of the Council to make an explanation with reference to the Actuals of 1865-66, which formed part of my Financial Statement in March last. I have been represented as crediting to the income of that year sources of revenue which were fictitious, or which did not properly belong to it. I stated on that occasion that in consequence of the new Budget system, it was necessary to pass through the balance-sheet of account certain balances arising in the adjustment of the old books and the transfer of the management of the public debt to the Bank of Bengal. Upon this adjustment there was a nominal balance of upwards of a million credited to the income of the year; but I distinctly said that this balance represented no real transaction, and was merely a matter of account. In that sense my statement was understood by the Secretary of State; and the Right Hon'ble gentleman has appended a footnote to the corrected edition to his Budget speech to that effect. Again, it was said that I had improperly credited the income of 1865-66 with certain arrears of Railway payments. The fact was that when the regular estimate was prepared, nearly a million of Railway traffic earnings which had been realized had not been paid into the Bombay Treasury; but these payments having been subsequently made, they were, of course, exhibited to the credit of the year in the actual accounts. Again, I was accused—and this time on the authority of the Secretary of State—of having taken credit for the difference between the expenditure of Stores in India and the estimate in the Home accounts, whereas the expenditure on this account in England had exceeded the estimate. But the explanation is very simple. Up to 1865 the practice had been to charge the value of the stores used in India in the annual accounts. The Secretary of State then desired that the accounts should in future exhibit, not the value of the stores consumed, but the sum total of the expenditure in England. But this order was not issued until after the accounts fot 1865-66 had been made up, and was therefore inapplicable to these accounts. I was dealing not with my own estimates, but with the estimates of my predecessor Sir Charles Trevelyan. It was my duty to show the actual results of those estimates in the manner which I have described. These statements were therefore correct in every particular, and it follows that there is no foundation for the charge of ignorance and carelessness which has been made against the Department of Account and Audit and myself. With this explanation, Sir, I proceed to the Actuals of the year 1866-67, that is, the year which expired in March last.

The Council will recollect that this was an incomplete account, in consequence of the alteration in the official year; it was, in fact, a year of eleven months, instead of twelve months. The estimated revenue for that broken year was £41,900,000, very nearly 42 millions, The actual result is, that the estimate of revenue has been slightly in excess: it has been 42 millions some odd thousands. Our estimated expenditure was £44,307,000; our actual was £44,530,000. Our estimated deficit was £2,400,000; our actual deficit turned out to be £2,517,000. The difference between our estimated deficit and the actual result was, in round numbers, £120,000. I stated to the Council last year that the very large deficit which I had to meet was not attributable to any falling off in the revenue, but mainly to accidental causes. It was, in the first place, owing to an over-estimate of Opium, but not a very considerable over-estimate. The deficit under this head was still further increased by the accident that we had calculated upon bringing to the market in Calcutta a greater number of chests than we were by our engagements enabled to do. In fact we were obliged to keep back 5,320 chests of opium, which would have realized £691,600. The deficit was also swollen by other special and temporary causes. We were disappointed in our expectation of repayment of £460,000, advanced to Bombay against the proceeds of the Land Sales. There were losses of nearly £300,000 under Custom and Salt, owing to the depression of trade; and the Home charges were increased by £480,000 on account of the new transport ships and stores for India.

Now, Sir, proceeding to what is of more immediate interest—the estimates of the present year: our estimate for the total expenditure of the year about to expire was £47,340,000; our income was estimated at £46,743,000,—thus exhibiting deficit of £557,500 after defraying all charges, including the charges under the head of Public Works Extraordinary. Early in the year, in anticipation of this result, we en-

deavoured to reduce the expenditure, but this was found impracticable. There was, however, one great item of expenditure, which we thought might be dealt with in a different manner than that which had hitherto obtained. The great grant for Public Works, exclusive of Railway charges, and reproductive works, amounted to five millions and a half. We thought, upon examining that grant, that it was fairly divisible into two classes. There was one portion of the grant which included charges properly debitable to the income of the year. Public Works, repairs and improvements, are always required in a great administration like that of India, and constitute a head of charge that is familiar to the Budget of every civilized country.

But there were included in that grant certain exceptional and extraordinary charges on account of new barracks, which it had been considered expedient to push forward with the utmost rapidity; and therefore instead of spreading the estimate for these works, amounting to eleven millions, over a series of years, so as to make the pressure light upon each succeeding year, we were pledged to compress, in the shortest possible period within which those works could be completed, the whole of that expenditure. The charge, therefore, of eleven millions was extended over five years only. It happened that in the earlier years the expenditure was not very considerable. But the charge expanded as the works proceeded, and we found in March last that the pressure of that service upon our estimates had become of a very formidable character. We had to provide nearly two millions of money on account of barracks during the present year. We had also to provide for the great trunk roads and the leading arterial lines of communication throughout the country. We also had to provide for embankments. We therefore addressed the Secretary of State representing to him that the inclusion of these special charges in the grant for Public Works was calculated to have a serious influence on the state of our finances. Excluding these extraordinary charges, our financial condition was sound and flourishing. There was in fact a very considerable surplus. We therefore asked the Secretary of State to consider the subject, and to sanction a proposal which we made, that the grant for Public Works should be divided into two classes: the one ordinary, the other extraordinary—the ordinary grant being, as heretofore, charged upon the income of the year, the extraordinary portion of the grant being also a charge upon the income of the year when we had a surplus. But if the question lay between new taxation and providing for these works wholly or partially by loan, we put it to the Secretary of State whether it would not be the preferable course to borrow rather than strain the resources of the country by additional taxation for the mere purpose of constructing great works of which posterity would reap the benefit. In connection with the general proposition, we asked the Secretary of State to allow us to borrow a million of money in aid of the barrack expenditure for the present year. In the despatch in which we asked that sanction, we also said that we thought it right that any surplus revenue which might result from this arrangement should be applicable to the payment of the debt so incurred. The Secretary of State assented to these arrangements, so that whereas we had estimated for a deficit of £557,000 without any special aid to our finances, the loan of one million, which we were permitted to raise for new barracks, converted that deficit into a surplus of nearly £450,000.

Well, Sir, the grant for Public Works comprehended two other items. They were works of a reproductive character, which, in the course of years, would ultimately pay for their construction, and, we hoped also, would yield a handsome income. We desired therefore to place these reproductive works, which comprehended chiefly works of irrigation, in a separate class, and to provide for them year by year entirely by loan. That policy found great favour both in this country and at Home, because it was a policy which indicated the intention of Government to enter upon those vast undertakings so essential to the prosperity of the country, on the most extensive scale. It was our desire, indeed, to avail ourselves of every resource which money could afford, which engineering skill could supply, and which the labour market could furnish, to push on these works with all possible speed. A sum of money was therefore appropriated to meet the estimate for these works for the coming year. Coupled with this class of expenditure was another special and temporary charge relating to Public Works. I mean the charge for advances to Bombay on the security of the special Land Fund, the value of which was estimated at a very large figure. The original estimate of this property amounted to between three and four millions, which had been ultimately increased by the authorities of Bombay to eight millions. We were assured that the amount of eight millions would be eventually realised. But it was recently represented to us by the Government of Bombay that, in consequence of the depression of trade, and the special circumstances which affected Bombay, it would be highly inexpedient to force the market and make a sacrifice of property which would ulti-

mately prove so valuable. Well, Sir, that was a very reasonable view of the case, and we decided that the works at Bombay, which were to be constructed upon the credit of this fund, should not be retarded merely because the fund was not capable of immediate realization. We had, during former years, made small advances to Bombay on this account; but we found it inconvenient to draw upon our cash-balances year by year to the extent required, and that the preferable course was to borrow the sums necessary for these advances, and to charge the principal of the money so borrowed against the proceeds of the sales, as they should from time to time be effected. I should add that out of a gross amount of about two millions and a half, which, since the creation of the Land Fund, have been advanced to Bombay, about £730,000 have been repaid. The result was, that in respect of reproductive works, and special advances to Bombay, we had to borrow a sum of about £1,400,000. Now, Sir, those were the arrangements on which we commenced the current year. They resulted, as I have mentioned, in an estimated-surplus of nearly £450,000, exclusive of the loan in India and the expenditure on Irrigation and Special Fund Works; but I must not omit one most important ingredient in this arrangement. Before we addressed the Secretary of State, and asked him to allow us to call in aid the capital of the country for the construction of military works, we had already imposed new taxation to the amount of nearly a million and a quarter, and it was very much upon that ground that we put it to the Secretary of State whether it was desirable to increase taxation merely to supplement what was required for these extraordinary works. Well, Sir, our estimate of gross expenditure under this arrangement was, as I have said, £47,340,000.

I have now to state to you the result of what is called the regular estimate, that is, the result of the actual disbursements of eight months, with an estimate of the disbursements of the remaining four. We estimated, then, for the expenditure of the year ending March last, £47,340,000, excluding Irrigation and Special Fund Works. That expenditure has increased to £48,467,000, the difference being £1,127,000 adverse to the Budget. We estimated our income at £46,780,000; we have realized £48,258,000, the regular estimate being in advance of the Budget by nearly one million and a half. The result is putting the income against expenditure, instead of having a surplus of £450,000, we have in round numbers a surplus of £800,000; but that surplus, I need hardly remind you, is a surplus created by the transaction to which I have referred, namely, the borrowing of a million of money for military works. Our cash-balances were estimated at £10,612,000; they will be £11,126,000, the result being an advance in the cash-balance account of upwards £500,000. Now, Sir, the Council will have perceived that the expenditure of the year has exceeded the estimate by £1,127,000. I am not going into items which have resulted in that increase, because I shall have to occupy the Council for some time. Well, then, taking compendiously the causes of the increase of expenditure—we had estimated on account of guaranteed interest on Railway capital less traffic receipts, that we should be called upon to pay no more than £582,000. That estimate has unfortunately failed to the extent of £615,000, and that failure is attributable very much to the decay of the Cotton trade, but it is much more attributable to the disasters which have happened on the Railway at Bombay, the break-down of the Bhore Ghaut Incline, and the failure of almost all the bridges and great works upon the Great Indian Peninsula line of Railway. These works have to be replaced out of capital, and the interest on that capital is, of course, an additional charge upon the revenue. The traffic of the line has been seriously affected by these disasters, and the balance of this Railway excess is attributable to that failure. Well Sir, the Secretary of State had furnished us with an estimate, which we are bound implicitly to receive, of the expenditure in England. The estimate was £6,271,000. It has turned out to be £6,851,000, nearly £580,000 excess. These two items alone account for the increased charge of the year. In other respects the expenditure is not in excess of the estimate. On the contrary, taking the heads of charge one with another, they have singularly corroborated our budget-estimate.

But now we turn to the more agreeable side of the sheet, where we have certainly cause for congratulation in the excess of income over estimate. We have received nearly a million and a half more than we had calculated upon. Well, the Council will probably at once conjecture the cause to which that excess is principally owing. You will recollect that warned by experience of the last year—even if I had not had before me the experience of former years—to contract within more cautious limits my estimate for Opium. I had estimated Opium in the preceding year at Rs. 1,300 per chest. It did not realize that average. The result was that we were landed in a deficit. I thought therefore the safest principle upon which Opium could be estimated was to take the average of a series of years, and that average gave me an estimate of something under Rs. 1,150 per chest. I took Rs. 1,150. Sir, Opium is the source of

our income more calculated than any other to disconcert our financial arrangements. It is a source which is very obscure. It depends upon a market of which we have very little information. It is subject to the most violent fluctuations; and although we may have carefully estimated other resources, a too sanguine view of the produce of Opium is likely to leave us in a very serious deficit. I was quite prepared, therefore, to find that in estimating the product at Rs. 1,150 per chest, I should be under the mark. It turns out to have been a remarkably good year, and we have received one million in excess of our estimate.

Well, Sir, another source of taxation from which we derived a revenue which has exceeded our estimate is the license-tax. We estimated it at £500,000, it will certainly realize £660,000, and I think that when the year is closed, the receipts will be nearer £700,000. At all events, we have an increased revenue from that source alone of £160,000. Well, then, there was another tax, or, rather, an addition to an existing tax, which has proved productive to the extent, at least, of our estimate. The export of Grain was originally subject to a small duty of half an anna. By successive gradations that duty was raised to two annas, and the experience of years shows that no adverse result was produced by the successive increases of duty. Therefore we thought that as our resources were very limited so far as taxation is concerned, it would be safe to increase the existing tax by a further addition to the duty of one anna per maund. In taking this step, we knew we should have to encounter the censure of political economists, who deprecate any export duty upon a commodity of this character. But we ventured, with the concurrence of the Secretary of State, to impose this small additional duty, which we estimated to increase our Custom Receipts by £160,000. Now the Council will be anxious to know what has been the result of this operation. We received a remonstrance early in the year against this tax from certain grain merchants of British Burmah, who also memorialized the Secretary of State. It was a remarkable fact, however, that the memorialists did not base their opposition to the tax on the ground of its tendency to check the trade, but in the prospect of its decreasing their profits. Well, Sir, I hope that no such consequence has ensued, since our calculation of an increase to the revenue from this source has been fully realized. I hold in my hand a return of the Calcutta Custom House, showing that in the eleven months preceding the increase of the duty, the exports were thirty-five lakhs and a half of maunds; and in the corresponding eleven months, during which the increased duty has operated, the exports have been sixty-four lakhs and a half of maunds. In the face of such facts, I apprehend this Council will not expect me to remit the additional anna on grain. Nevertheless, the operation of the duty will be carefully watched; and at any time, even in the middle of the official year, if there is reason to think that the duty is operating unfavourably to trade, there will be no hesitation on the part of Government to modify the tax. But If I had little apprehension of any such evil effect last year, when the duty was raised, I have less apprehension now.

Well, there was another operation of more extensive, and possibly of a more doubtful character, in which we engaged for the purpose of strengthening our resources. We appointed, early in the last year, a Committee to consider the stamp-duties, or rather to consider that schedule of the stamp-duties which relates to judicial proceedings. That Committee was presided over by a learned Judge of the High Court, assisted by a very able and experienced gentleman, formerly a Member of this Council, and since promoted to the Bench of the High Court. With Mr. Justice Jackson and Mr. Hobhouse was associated Mr. Prinsep, the Registrar of the High Court. The Committee thus constituted prepared a new scale of institution fees, which promised to give us a revenue of £680,000. I must say, in justice to the Committee, that as regards the estimated increase of revenue to be derived from this new scale, they gave a very diffident opinion, and at once admitted that the result of such taxation was doubtful. Some gentlemen, founding themselves on high authority, took exception to this policy of deriving an increased revenue from judicial proceedings. I see opposite to me an honourable friend of mine who, I believe, considered that taxation of this kind was calculated to prevent the people of this country from obtaining that justice to which they are entitled. Well, Sir, I do not desire to give a conclusive opinion on the matter. The new arrangement of the schedule is open to very careful consideration. We estimated the produce of the duty at £500,000. We have not yet got rerurns of our stamp-revenue carefully analysed, so as to enable us distinctly to say to what extent that estimate has been realized; but the general result is, that the stamp-revenue has been increased by about £400,000. So that assuming that our estimate of £500,000 has been excessive, I know no other cause to which to attribute the increase of stamp-duties to the extent of £400,000 than to this increase in judicial stamps. Under these circumstances, and pending further inquiry upon the

subject, nothing has taken place to satisfy the Government that the duty was either impolitic or excessive. I do not, therefore, propose any reduction in the revenue of the succeeding year on this account. The subject is in the hands of a gentleman now present, who is very competent to undertake it; and if the result of the investigation should be that the scale which is now in operation is excessive, the Government will be prepared to consider it. But as at present advised, I have no reason to suppose but that the objections to the tax are very greatly exaggerated, and I hold out no hope whatever to those who are interested in its imposition that it will be repealed. I believe and hope that the result of the inquiries which are now in progress upon the subject will be that the scale, although it may be subject to some few alterations, is, upon the whole, based upon sound principles, and that it has put us in possession of a source of revenue which it would not be expedient to relinquish.

Now, Sir, these are the causes to which the increase of our income during the present year is to be attributed: first of all, the increase in the price of Opium; secondly, the increase in the product of the License-tax; thirdly, the fulfilment of our estimate of the Grain duty; fourthly, the income derived from Stamps.

Sir, we now approach the year for which I am about to estimate—we approach that year with a balance in our hands of £800,000. I have told you that the regular estimate of our expenditure is considerably in excess of our budget-estimate to the amount of £1,127,000. Our ordinary expenditure has amounted to a very high figure, £46,557,000, during the current year. We have estimated for an expenditure of nearly the same amount during the succeeding year, and the whole of our expenditure for the succeeding year, that is, our expenditure, including that debateable grant of Public Works Extraordinary of a non-productive character, will be £48,343,000. I do not know whether I need trouble the Council with a detail of the several heads from which this estimate is calculated. I need hardly trouble you with so small a matter as the increase in our expenditure on account of Abkari of £10,000, nor of even the decrease in our Customs of £23,000. There is an increase on Salt of £88,000, chiefly due to a provision for the purchase of a larger quantity of Salt to meet an increased demand. There is an increase upon Opium of £44,000. We were asked by the Government of Bengal to grant a sum of £200,000 on this account during the coming year; but upon an examination of the estimate, we found that it was capable of reduction to £160,000. The next item is rather an important one. The charge for the Post Office has increased by nearly £100,000, but that charge is attributable to increased salaries in the higher department; the introduction into the service of a better class of persons in the lower grades, and generally to the revision of the establishment, which was much called for. Sir, the department of the Post Office had incurred something like discredit—the deliveries were irregular—frauds were very considerable. We found that the Post Office comprehended in its service men on so low a scale of pay that it was impossible to obtain the services of persons upon whose honesty and integrity we could rely. We considered it good policy, therefore, to revise the whole of our Post Office establishment; the result of the revision is to place it upon a much sounder footing, and I hope it will have the effect of removing those scandals which have hitherto attached to the department. We have been, from time to time, pressed to reduce the charges upon the lowest stamped letters, that is to say, the half anna stamp has been represented to us as not carrying sufficient weight, having regard to the requirements of the country. Well, Sir, the effect of the change which we were asked to make would be a loss of revenue of five or six lakhs of rupees. We did not altogether admit the grounds upon which that sacrifice is demanded. We think, upon the whole, so far as our inquiries have extended, that the result of the extension of such a boon would not be so great as was anticipated. At all events, I think the Council will agree with me that it is not expedient to diminish the revenue of the Post Office by five or six lakhs at a time when we have incurred so much outlay to place the department upon an efficient basis. Therefore the question of an increase in the weight of letters bearing the lowest denomination of stamp is reserved for a future year. The Telegraph is this year a decreased charge to the amount of £85,300. That decrease was owing to over-estimates of last year, and also partially to retrenchments. There is in the general department of the administration an increase of £83,000, which is attributable to establishments generally having undergone revision. Law and Justice show an increase, which embraces, among other things, purchase of material for jail manufacture; while this expenditure had been incurred for materials, it is an outlay of capital which will be reproductive, and probabably the estimate will next year show an increase on the opposite side of the account. Police charges show an increase of £115,000, which is chiefly owing to the remodelling of the Preventive Police in Bengal and the Railway Police in the North-Western Provinces. There are

also increased charges for Municipal purposes, which will be met by receipts. This subject of Police is one which has very much engaged the attention of the Government during the period with which I have had the honour of being connected with it, and we have been involved—I won't say in wrangles but—in hot disputes with the Local Governments and the Municipalities on the question of the adjustment of this charge. We have maintained a principle from which, I hope, we shall not depart, to require every district to maintain its own Police, and the same as regards every Municipality. We have partially succeeded in enforcing that principle, but it is one which cannot be carried into full effect all at once; but we shall persevere in our efforts, and I hope the result will be ultimately that every Municipality will bear its own charge. When I first came to this country, several great towns bore the whole charge of the Police. Other towns bore but an inconsiderable portion of that charge, or none at all. That was a state of things which ought not to be tolerated, and we laid down the principle that all great Municipalities at least should maintain their own Police. But the Government was met with great resistance, and we were driven, as is the usual result, to a compromise. We have adjusted these charges of Police between the Government and the principal Municipalities upon what I think is an equitable footing: and in time I have no doubt this long vexed subject will be placed upon a satisfactory basis. There has been an increase in the charge of Education of £118,000. Well, that is a normal increase: the estimates for Education increase every year. I venture to hope, however, warned by my English experience, that the Government will not yield too readily on this point. In England the charge to the State for the education of the people has swollen within a few years from a small grant of £100,000 to a grant of nearly a million; and yet, when I left England, there was a strong disposition to resist any further augmentation of that charge. Sir, you must adopt a similar policy here. I do not mean to say that our grants should not be even more liberal than in England; but the charge of Education is one of increasing proportion, and unless you deal with it in the same form, although in a liberal spirit, you will find it will encroach upon your resources to an extent which will greatly embarrass the financial operations of future years. Under Allowances under Treaties and Engagements, there is a decrease of £114,400, the higher charge in the present year having been caused by circumstances which I brought to the notice of the Council last year, when I spoke of the case of Prince Azim Jah—a case which I had submitted with the greatest reluctance.

I now turn to Income. We shall on the land revenue have an increase of £360,000 as compared with the regular estimate. This increase is partly made up by the resumption of revenue in Orissa, which had been remitted last year in consequence of the famine. The North-Western Provinces have given us a better estimate than last year, in consequence of the new settlements coming into operation, and there can be little doubt that the general estimate will be fully sustained. There is a slight falling off in contributions from Native States, but it is a variation hardly worth notice. Under Abkari we are pretty much as we were. There is a slight falling of in Madras on account of the failure of some Madras farmers. There is a falling off in the Customs of about £100,000. In the Central Provinces there is a decline in the Sugar trade. In Burmah we have relinquished the frontier duties in connection with the Treaty which has been recently effected with the King of Burmah, by which His Majesty consents, in consideration of our not re-imposing our frontier duties, to the abolition of certain monopolies and duties which were almost prohibitory of trade. That is a concession made at the public expense for the benefit of trade. In Bengal there is a slight decrease of the export duty, amounting to £63,000. In the North-Western Provinces, as in the Central Provinces, where the Sugar trade has been on the decline, there is a decrease amounting to £14,000. In Bombay and Sind there is an increase in the Customs of £10,000. The whole result is that we estimate our Customs Revenue at about £100,000 less than we expected to realize this year. There is a slight diminution on Salt of £7,400. That is a falling off in so large a revenue which is hardly appreciable, and calls for no explanation. It is one of those fluctuations which you must expect from time to time. Sometimes it is one way, and sometimes it is the other; but it indicates nothing whatever as regards the state of trade. We now come to opium, which, I have already stated, has yielded a very large sum in excess of the estimate. We cannot be so sanguine as to expect so large a revenue next year. The estimate for opium last year was fixed upon an average of previous years. Well, Sir, I estimated it at Rs. 1,150; but the high prices of the year, of course, increased the average, and I think that, although I am now going on to propose some increase in the estimates, the Council will agree with me that the estimate I am about to propose is

very moderate. The estimate is, I am glad to say, corroborated by the opinion of the Government of Bengal. Sir, I take opium at Rs. 1,250. I may say with confidence that we shall have received at the close of the present financial year £8,814,000 on account of opium, and an estimate of Rs. 1,250 per chest gives us £8,385,000 for opium during the coming year, that is to say, the Opium Revenue for 1868-69 would be about £430,000 less than the receipts of the present year. Our Stamp Returns, as I have already said, are improved, and I believe the result will be in the coming year nearly the same as the present.

There is an increase on Post Office of £19,000, chiefly an increase of official postage. Under Telegraphs, there is a small decrease of about £20,000. Under Law and Justice our budget-estimate is £1,034,200 ; our regular estimate is £734,000, the increase in the estimate being £300,000, owing chiefly to transfers of peon's fee funds and proceeds of Jail labour. There is a small difference in Police—an increase of £13,000. There is an increase in the estimate for Marine of £35,000, chiefly in consequence of the arrangements connected with the Abyssinian War. There is under Education a general increase of School fees amounting to £1,700. The Miscellaneous Receipts will be £324,000 better than they were last year, owing mainly to transfer of subscriptions and other receipts of sundry Military Service Funds. In the Miscellaneous Military Estimate there is a decrease by £26,600, but this decrease will be eventually converted into an increase on account of supplies made to the Abyssinian Expedition. We are in fact in the position of traders with the English Government. We have a large quantity of Marine stores in stock, and we are making stock advances to the British Government. These advances have already amounted to a considerable figure ; but what that figure is we have not as yet been able to ascertain. Therefore we cannot include it in the estimate of the present year ; but it is an item which will appear in the regular estimate of next year.

Sir, the general result is that the estimate for income is £48,586,900 ; but that income is based on the assumption that there will be no change in our existing sources of revenue. Suppose for a moment that one particular tax, from which we derive a considerable revenue this year, is sacrificed, I will not say to popular clamour, but to public prejudice, we shall, instead of being in a condition of surplus, sink into a deficit of nearly an equal amount—that is to say, a deficit of nearly equal amount, after paying the whole charges which are included in Public Works Extraordinary. Well, Sir, we might meet that deficit by repeating the process of last year, and by borrowing for Public Works. But the circumstances under which we should propose that operation this year are very different from those which justified it last year. Last year we made an effort to increase our income to the extent of one million and a quarter, and the Council may suppose that the resort to additional taxation is a policy which we adopted with the very greatest reluctance. I may, at the risk of appearing to enter into needless repetition, remind the Council that we were still in deficit, and the question was whether we should adjust the balance by still further taxation, or whether, in respect of a particular head of charge, we should adopt exceptional measures. But this year, if we retain the whole of our income, if we part with none of the sources of which we are in possession, without any new taxation whatever, we are in a condition to meet the whole charge of the year. Whatever objections may be made to the license-tax, it is admitted by those who have taken a temperate and rational view of the question, that the tax, taken as a part of a new scheme of taxation, was not imposed upon light grounds. The decision of the Government therefore is to part with no existing source of revenue. The license-tax has been, financially, successful. It has yielded nearly thirty per cent. in excess of the sum estimated ; it has been collected at a very small cost, between four and five per cent. ; and, so far as its alleged vexatious and oppressive character is tested by the number of appeals which have been made against it, these appeals are absolutely insignificant. The tax after the first ebullition of resistance subsided, has been collected with as much ease as any other tax. But at the same time the Government are not disposed to close their ears against the voice of public opinion, and it has been a subject of anxious consideration with us whether we could meet the objections to the tax which have been urged so strongly and so incessantly almost since the period of its introduction, without a sacrifice of our revenue, which we are not prepared to incur. I have said that we cannot part with any existing source of revenue. Well, then, if we part with the license-tax, we must substitute something for it. I will not now review all the representations which have been made to this Government and to the Secretary of State, in a sense hostile to the license-tax. But I will take a paper which purports to have been drawn up by the Committee of the Bengal Chamber of Commerce, not because that paper is better reasoned than others which I have seen, or because I atribute

any undue importance to the source from which it emanated. I quote this paper partly because it is less offensive and intemperate in its tone than others, and partly because it professes to offer to Government substitutes for the tax to which the writer or writers object. The Committee of the Chamber of Commerce propose four alternative taxes. They tell us that we could increase the salt-duties; that we could equalize the salt-duties; that we can impose a tobacco-tax; that we can impose a succession-tax. Now, first of all, let me take the salt tax. I suppose it will not be disputed that the salt-tax is in effect a poll-tax upon the masses of the population. It is very true that there are other people besides ryots and coolies who consume salt, but is it a matter of the slightest importance to any man raised above the class who earn their livelihood by the labour of their hands, whether the tax is one rupee more or less? Then, Sir, before we increase a tax which falls exclusively on the lower classes, we are bound to inquire whether other classes contribute their share to the burdens of the State. But putting that question aside for the moment, let us consider whether the result which has been hitherto assumed as the certain result of a simple increase of the salt-duties, would, as a matter of course, take place? In considering this subject early in the year, we thought it our duty to consult the Local Governments. We have been assured by the Governments of Madras and Bombay that the tendency of increased salt-duties would be to diminish consumption, and that the financial results of any increase of that duty at present would be extremely doubtful. I cannot say I am quite satisfied with the soundness of these conclusions, but the energetic remonstrances we have received from the Presidential Governments are entitled to respect; and with those remonstrances before us, we are bound to pause before we impose an additional duty upon salt. I believe that the direction in which you can derive an increased revenue from salt, is not by merely adding a few annas to the salt-duties of Madras and Bombay, under the delusive notion that you are equaliz; ing the salt-duties by that process; but by bringing to view the whole question-by affording increased facilities for the conveyance of the commodity from the place of its manufacture to the place of its consumption; and by a revision of your Customs' Laws. By a combination of measures of that description carefully considered you will arrive at a point when you may consider the equalization of the salt-duties upon a standard reduced below that of Bengal, which will yield a large addition to the revenue without any corresponding pressure on the classes now subject to the incidence of the tax. Sir, the next head of revenue to which we are desired to turn our attention is a tax on tobacco. This tax upon tobacco, as well as the tax upon salt, is a suggestion which we have not now heard for the first time. But the gentlemen who have pointed out to us this source of revenue have not given us any new information on the subject. They have simply urged some plausible reasons for inducing the Government to adopt their policy. But, the whole question has been considered not in this year only, but in former years. It has been considered by Governments which have preceded this Government, and been handled by very able men. We have, however, reconsidered that question, and being desirous to afford to the public any information which was in our possession, we have published our despatch to the Secretary of State, in which we set forth the reasons which have satisfied us that the possibility of levying a tax upon tobacco, is out of the question. It would be a tax extremely oppressive in its incidence, it would be collected at an enormous cost, and it would fall mainly upon the classes which now pay the salt-duty. If you are of opinion that the labouring classes do not contribute sufficiently to the burthens of the State, you had much better at once increase their salt-duty under its present condition than attempt to impose a new tax of the same description but far more objectionable. Well, Sir, the Budget of the Chamber of Commerce is completed by a succession-tax, which they conceive would solve, in a satisfactory manner, the question as to the best mode of subjecting the wealthier classes to a just assessment to the burdens of the State. This question, also, as I apprehend, has been satisfactorily disposed of by the information which has recently been communicated to the public through the medium of the Government *Gazette*. I need not, therefore, quote the opinions of my colleagues, nor my own, which have been so recently recorded on this subject; but I commend to the consideration of those persons, if any, who are still under the delusion that the succession-duty could be looked to as a source of revenue, instead of an income tax, an attentive perusal of the papers to which I have referred, and more especially of the compendious review of the whole subject contained in the paper drawn up by my Honourable colleague, Mr. Strachey, in 1865. In concluding my remarks on this subject, I cannot do better than quote a short passage from this paper—"Many of the more serious objections which have been made to the income-tax in India apply with at least equal force to a tax upon successions. Among these objections which

apply to both taxes, but which would apply with special force to a succession-tax, one of the most obvious and important is the evident impossibility of making any fair assessment. In the case of the income-tax, this objection may, in a great measure at least, be avoided by substituting a license-tax on certain classes; but no such evasion of the difficulty is possible in the case of a succession duty. It may be added that, whatever may have been the case once, the novelty, and, therefore, the unpopularity of a tax on successions, would, at the present time, be certainly greater than that of the income-tax, while there can be no question that the former, unless carried to an extent which would seriously affect the capital of the country, would be far less productive than the latter. The advantage which has been claimed for a succession-tax over an income-tax, that it is paid once for all, and at the time most convenient to the payer, points in reality to one of its most serious objections. It signifies, in other words, that the tax falls upon capital, and not upon income. This is an objection which does not appear to have been noticed in any of the discussions which have taken place regarding succession duties in India; but it is one which deserves consideration."

Then, Sir, it is not the intention of Government to propose a further addition to the salt-tax, nor at the present time are they prepared with a scheme for the equalization of the salt-duties. They wholly reject a tobacco-tax, and they wholly reject a succession-tax. But there is one other tax to which I must advert, although it is not included in any suggestions with which we have been favoured and is not in favour with the gentlemen of the Chamber of Commerce; but it is a tax which has occupied public attention very much during the present year. There was a time when the public mind of India was almost reconciled to the prospect of my proposing this day the renewal of the income-tax. Sir, I am not here to disparage the income-tax. It is, as it has been described by Mr. Gladstone, "a mighty engine of finance;" but it is an engine of finance which has never yet been resorted to except under emergent circumstances. The income-tax was first proposed by Mr. Pitt in the stress of the revolutionary war. It was submitted to as a tax of necessity; but it was never imposed as a permanent part of the fiscal system of England. It continued during a period when England was engaged, not in a sort of diplomatic war, but in a struggle for her existence as a nation; and the people were prepared willingly and loyally to submit to any tax or any mode of obtaining money which the Ministry of the day thought fit to propose. But the income tax was dropped directly on the conclusion of the Treaty of Peace. It was revived thirty years after by Sir Robert Peel under very special circumstances. It was the object of Sir Robert Peel to carry out a policy of the most extensive and beneficent character. He proposed to liberate the commerce of England from the fetters by which it was cramped, and to afford a full development to enterprise and capital. To carry this policy into effect, it was necessary to make a very large sacrifice of revenue, to give up customs-duties of a considerable amount; and as it would take a certain number of years to restore the gaps in the revenue created by the repeal of these duties, the Minister proposed, for a limited period, the imposition of an income-tax for the purpose of indemnifying the revenues against the loss which they would thus sustain. Well, Sir, it was not without reluctance, even under these circumstances, that an income-tax was brought forward by the Government; and although submitted to by the country, the tax continued in a very mitigated form. No Minister has ever ventured to declare that it is continued as a permanent tax. These, Sir, were the circumstances under which the tax was imposed in England. Under what circumstances was it proposed in India? India was just recovering from the suppression of the mutiny. In making that effort, she had largely added to the debt. She had not only increased the debt, but had created a deficit in the income to the amount of several millions. Such was our position when Mr. Wilson brought forward his income-tax. The circumstances were of that urgent character which in my view justify a measure of such stringency; and it would have been little short of disloyalty to have refused the Government the aid which they required in that hour of need. But Mr. Wilson did not venture to propose the tax as a permanent addition to the finances. He asked the country to submit to it only for a limited period, during which, he calculated, the resources of the country would recover themselves. That period arrived, and the income-tax was suffered to expire. But let me remind you, when this impost is described as a great engine of finance, that an income-tax of three per cent. is computed to produce no more than a million of money here. This is a very small result to compensate for the difficulties which attend the assessment of such a tax. The peculiar objection which is entertained to an income-tax is, not so much the amount exacted under a moderate scale of assessment, but the inquisitorial process to which it is necessary to resort for the purpose of fixing the

amount payable by those classes whose incomes are derived from the profits of professions and trades. This process is not very much to the taste of the English people; but it is specially repugnant to the habits and feelings of the people of India. If, then, you find it necessary to maintain the principles of direct taxation, you should endeavour so to shapé your law that it will not involve the necessity of a scrutiny so odious. In proposing, therefore, to retain the license-tax in a modified form, we have no desire to act in defiance of public opinion. I can assure the Council that not the smallest irritation has ever disturbed my mind with reference to what has passed during the present year in considering the policy of maintaining the license-tax. I look upon it dispassionately as a matter of principle and as a matter of policy. I am quite free to admit that the tax, as in its present form, is open to objections, and is capable of material improvement. But we are in possession of that tax, which has been financially a success; if we part with it, I do not see how it is possible to obtain the revenue which we require by indirect taxation, and if we adopt direct taxation, I see none so desirable as a license-tax. We have therefore determined to propose to the Council the continuance of the Tax on Professions and Trades in a modified shape. The principle upon which the present tax is collected is that of a rough income-tax. It resembles very much the excise license-taxes in England, which existed before the income-tax, and which have gone on during the operation of the income-tax, and still continue. If you insist upon strict equity in your assessment, I have no defence to make for a tax of this kind. The only answer you can make against the objections which are urged against it is that the mean incidence is very light, and that is an answer which has been accepted in England ever since taxes of this description have been imposed. A tax upon professions and trades is, in my opinion, justifiable. Professions and trades are the only classes who contribute nothing to the public revenue. They receive a greater benefit, perhaps, than any other class from an expensive Government like that of India, whose expenditure is incurred in a great measure for the development of trade and commerce. I think, therefore, that in asking the country to submit to the continuance of the tax upon professions and trades, I am asking nothing unreasonable. I may be told, why should you tax trades when you exonerate other classes? Well, the answer is, that the landholders of India already pay largely. It is merely a war of words to say that the land-tax is a rent. The fact remains that the landholders, whose title is indefeasible so long as they pay the tax, contribute twenty millions a year to our revenue.

It may be that the tax is not sufficient; that those who pay it, at least under the old Bengal settlement, have made a very good bargain, but it is a bargain by which we are bound. Therefore, the only mode in which we can reach the landholder is by local taxation. I have stated that there is another reason for encouraging a policy of local expenditure for local purposes. That policy is now in its infancy; but if this country is to proceed in its career of prosperity, that policy must be developed, for it is impossible that the infinitesimal demands of all the provinces of this vast empire can be provided from the imperial revenue. Well, Sir, if that is the case, who would have to bear the burthen of local taxation? It would be the landholder who would be immediately benefited by the improvement which would be effected, and it is to him principally that the tax collector would look for providing the money for such expenditure. Therefore the landholder will not enjoy an immunity from taxation; and the argument for the imposition of an income-tax as regards the fundholder shrinks into very small dimensions. I will not now revive the arguments that at various times have been put forward against taxing the fundholder. In a general scheme of taxation, there can be no exceptions; and this is the answer to every claim for exemption founded on the source from which the income is derived. But a tax upon the fundholder in this country would fall chiefly upon your own countrymen. Sir, I have before me a calculation which has been prepared by a gentleman more competent perhaps than any other man in India to furnish data upon such a subject, and he shows that, out of the rupee-debt of 64 millions, about 27 millions are held by Europeans in India, 15 millions by Europeans in England, and $10\frac{3}{4}$ millions by the Natives of this country; so that, if you want to tax the Natives, do not imagine that you can get at them through the medium of the public funds. Your tax would fall upon your own countrymen and countrywomen, and upon that class which has claims upon your sympathy—the widows and children of those who have expended their health, or sacrificed their lives, in the public service. I shall therefore conclude my statement to-day by asking your permission to introduce a Bill for taxing professions and trades. The first clause of that Bill will repeal the existing law, and substitute provisions which, I trust, will be less objectionable. Under the new Bill, the mean incidence of the tax, instead of being 2 per cent., will not be

much more than 1½ per cent. It will not fall on the lowest class of the population. It will begin with incomes of Rs. 500. The services will be taxed all round upon their salaries at 1 per cent. Without wishing to deprecate any discussion into which the Council may think fit to enter, I suggest that it might be more convenient to postpone any discussion until Friday next, when I shall explain the provisions of the Bill in detail; and when the Bill is in Committee, I shall be prepared to give respectful attention to any suggestions which may be made for the alteration of the schedules, or the general improvement of the measure, so far as these alterations do not involve any loss of estimated revenue. Sir, I shall hope to realize from the amended tax £500,000. We thus lose a very considerable amount of revenue by giving up the tax in its present form, which, as I have said, will produce £700,000, with the prospect, if retained for another year, of yielding £800,000.

The result of the whole is, that we get a revenue of £48,580,000, leaving a surplus of £240,000 after defraying all charges except those for irrigation and special fund works. Our cash-balance will be upwards of ten millions, and although that is a moderate balance, yet it is sufficient for the purposes of the country, and it will probably be increased by the transactions of the year. Well, now the question arises —how we should deal with irrigation works? The Council are aware that irrigation works are placed upon a different footing from other works; they are provided for by loan. I do not suppose, therefore, that I shall be expected to apply any part of the very small surplus which I have named towards providing for this special service. The estimate for irrigation and special fund works for the year is £1,270,000. Are we to borrow the whole of that amount? I may remind the Council that we shall have in hand a surplus of £800,000 at the close of the present year. I have already explained that this is not a surplus in the proper sense of the term, that is an excess of income over expenditure; but is in fact the unexpended balance of a loan: there is also an unexpended portion of the special loan which we borrowed for irrigation works this year. When we proposed to borrow a million for barracks, it was accompanied with the condition that any surplus of the year should be devoted to the reduction of the debt so incurred. Sir, we have no alternative but to perform this promise, and I bring therefore the surplus of £800,000 in aid of the loan for irrigation works, and when I add to that the unexpended portion of the irrigation loan which is now in the cash-balances, the irrigation works for the year are provided for. Thus the result is that the whole of the services are provided for, and upon this Budget there will be no loan whatever. But although there will be no borrowing for the purposes of the Budget, there are heavy loans looming in the future. We are in negociation with the East Indian Irrigation Company for the purchase of their works in Orissa, and if that negociation is completed, we shall enter upon the completion of those works, which have been retarded by want of capital. This will involve a present outlay of nearly a million. The Company have already surrendered the great Soane project, which the Government will immediately undertake. We are about to construct a line of Railway from Lahore to Jhelum with a view to its ultimate extension to Peshawur. We shall probably, also, take over the Calcutta and South-Eastern Railway. All these projects, some of which will certainly be carried into effect, will result in very large loans. In stating that I dispense with any loan for the service of this year, it must not be supposed that I am departing from the policy which we recently adopted. I think that the policy of borrowing for such works as barracks and great arterial roads is a sound and justifiable policy, but it is one which should not be resorted to unless the ordinary income of the year is insufficient to meet the whole charge for works of that description. It is only when the question arises between new taxation and a loan, that the latter is to be preferred. The policy of borrowing for public works is not abandoned; it is only suspended, and will be resumed next year, if—though I do not anticipate such a result—the income of the year should prove insufficient to defray the whole of the services. I need hardly add that, in applying the balance of the loan and the surplus of this year to irrigation works, and thus dispensing with the necessity of borrowing on this account, we do not at all intend to cramp those operations. I should have been very glad, indeed, if I could have laid before the Council a much larger estimate for irrigation works than I am able to do; but the Department of Public Works, warned by experience, is unwilling to commence operations on a great scale without well-considered plans and estimates. Although we have a surplus of £240,000 in the present year, I must remind you that we lose, as compared with the regular estimate of this year, £600,000, that is £450,000 by opium, and £150,000 by the license-tax. Well, then, is that loss to be repaired by new taxation? The answer depends upon two other questions. Can we rely on a permanent increase of income? Is the public revenue, on a review of a series of years, in a state of satisfactory progress as compared with expenditure?

We have been so much in the habit of hearing our financial condition assumed to be that of bare solvency, that it becomes important to inquire upon what foundation that assumption is based. If it is true that our expenditure is progressing in a ratio which cannot be controlled, and that our present income is not expanding in the same proportion, it would be wise to anticipate the approaching period of pressure. Let us see, therefore, in the first place, whether there is that tendency to growth in our expenditure which cannot be repressed without checking the growth of national prosperity or retarding the progress of civilization. Now, in entering upon a calculation of this kind, in which you have to deal with large figures and numerous particulars, you must not go back to a remote date: a review of a long series of years is sure to include disturbing elements, and, therefore, to produce fallacious results. The mutiny may be taken as the dividing line between the old financial system of India and the new. I will not, however, go so far back as the mutiny, but take the last six years as affording the best means for arriving at a correct conclusion of this question. Now, Sir, I take the increase of the year 1865-66, as compared with that of 1861-62. The revenue of 1861-62 was £43,820,000; the revenue of 1865-66 was £47,000,000, the difference being upwards of three millions. From 1865-66 we pass over the broken year of 1866-67, and we come to the regular estimate of this year. Our revenue in this year is £48,250,000, increase over 1865-66 is £1,250,000; and if you add the increase of the revenue of 1865-66 over that of 1861-62, you have a total increase of about 4½ millions in six years.

Let me now turn to the other side of the picture, and look at the progress of expenditure during the same period. The expenditure for 1861-62 was £43,880,000; in 1865-66 it was £45,250,000; and in the year about to close it is, excluding irrigation and special fund works, estimated to amount to £48,467,000. The increase of 1867-68 over 1865-66 is thus £3,217,000, and adding £1,370,000, the excess of the expenditure of 1865-66 over that of 1861-62, the total increase of expenditure is £4,587,000, against a total increase of income during the same period of £4,430,000, the difference of £157,000 being the balance of expenditure over income in the six years.

Thus the Council will see that, while expenditure has been increased by an increase of establishments, by additions to salaries on account of the increased charges of the necessaries of life, by two petty wars and by Extraordinary Public Works, upon which we have expended as much as seven millions of money; on the other hand, the revenue has received no appreciable addition. On the contrary, our resources have diminished; we have parted with customs-duties; we have lost the income-tax, and these losses have been but partially repaired by the taxation of the present year. I therefore confidently submit that these facts do not lead to the conclusion that our income lags behind our expenditure, and does not justify the popular notion that our financial condition is unsound. Your revenue, exclusive of Public Works Extraordinary, shows year by year a large surplus; but that is no reason why you should draw a permanent and fixed line of separation between one class of your expenditure and another. I deprecate the intrusion into our financial system of a very dangerous principle —that, namely, of dealing with any part of our annual charge by loan; although I am prepared to justify the occasional treatment of extraordinary charges in this way. Although the revenues of India may not admit of indefinite expansion, they will attain a further development, and you may soon expect to see them reach 50 millions. Probably my successor will be so fortunate as to witness that satisfactory result. I hope it may be so. But we have nearly exhausted our resources, and the difficulties of adding to them are almost insuperable. Are we singular in that respect? Is India the only country in the world which finds it difficult to increase its sources of income? Why, Sir, let me refer you to the great Powers of Europe. Every European State at this moment, including even England, is pressed by difficulties in strengthening its financial position. Despotic Governments have no greater facilities in this respect than those which are based upon popular institutions. Your income is as large as that of the great Empire of Austria. It is far larger than that of Prussia. It is not much inferior to that of Russia. It is larger than the Revenue of Great Britain itself within living memory. Every other country in the world, even including England, groans under the weight of enormous debt. We have a debt which, though considerable in itself, is comparatively light. Every great Power in Europe, except England and Prussia, is in a state of deficit. Is that the case with India? Why, you are able to provide for the whole of your ordinary charges, and have a considerable surplus. You have in the last six years paid seven millions of extraordinary charge, and still maintained the balance between income and expenditure. If that is not a result upon which we may congratulate ourselves, assuredly it is one which does not justify despondency. In conclusion, however, I would warn you to be careful. Your expenditure has a tendency which, if not kept within bounds,

will outrun your means. Live within your ample income. Deal liberally with all proposals which are for the public good, but exercise a rigorous control over the demands from Local Governments to extend their establishments and schemes for social improvements, which, however good in themselves, it is not the business of the Central Government to provide. Let me warn you also against tampering with your finances. India is no field for sensational or empirical finance. I have heard of schemes of education which would absorb the revenues of India; of roads and railways which would open up unknown sources of commerce; of projects for the advancement of science; and I know not what. I have heard proposals seriously discussed, both here and at Home, any one of which would prostrate your finances at a blow. There is a school of politicians or moralists, which holds that it is wrong to derive a revenue from opium. There is another school which maintains that it is iniquitous to derive a revenue from salt. But if you gave up the opium-revenue, and repealed the salt-duties, how would you repair the loss of twelve millions which you derive from these sources? An income-tax of 25 per cent. would not suffice. But it would be a day of evil omen for India on which the Finance Minister should come down and ask for an income-tax of half that amount. Again, it is asked, why not repeal your customs-duties? My answer to that is our customs-duties are the lightest of any country in the world. Every objectionable duty has been either abolished or reduced, and I have not heard of any complaint worthy of a moment's notice against those which remain. There is, indeed, one small duty which I propose to give up, and that is the import-duty on timber, which is entering largely into consumption; and it is a trade which we wish to encourage. In the like spirit, the Government will be always prepared to remove or lighten any duty which in any perceptible degree checks the prosperity or interferes with the interests of commerce. But do not sacrifice your customs-duties to the idea that you are imitating, when you would be only mimicking, the policy of Sir Robert Peel and Mr. Gladstone. The policy of these Statesmen was as sound and practical as it was grand and imposing; and the customs-duties of India are adjusted on principles strictly in accord with that policy. You may keep what you have got with a safe conscience. There is no part of your income derived from sources of which you need be ashamed; and with proper management—frugal but not penurious—you may, from your vast revenues, provide for every reasonable requirement of the country without imposing new burdens on the people.

THE NEW MILITARY FURLOUGH RULES.

(*Gazette of India, Nov. 14th*, 1868.)

The Right Hon'ble the Secretary of State for India having, with certain modifications, approved generally of the rules relative to the absence on leave of military officers, published in Government General Order No 613, dated 19th June 1868, the following revised rules are published in substitution of those contained in the order above referred to.

These rules will be applicable to all officers who may elect to adopt them belonging to the several Indian Staff Corps or to the Indian Army, and in regard to the period of leave of absence during which appointments may be held, and in regard to the increased allowances, they will also be applicable to officers of the Royal Artillery and Royal Engineers, late of the Indian Army, holding permanent Staff appointments not of a Regimental nature.

The question of the application of these rules to the officers generally of Her Majesty's British forces serving in India, is still under the consideration of Her Majesty's Government.

To obviate confusion or misconception as to the rules referred to, those previously in existence and those now sanctioned will be severally designated as the Furlough Rules of 1796, of 1854, or of 1868.

The term "furlough pay" having now a change and two-fold signification, in all future orders and references "furlough pay" will be understood as the half Indian salary within the prescribed limits, specified in paragraph 5 of these rules, converted at the exchange of 2 shillings for the rupee, whilst "English furlough pay" will represent the rates heretofore allowed to the several grades as English pay under the rules of 1796 and 1854.

I.—The distinction, with respect to allowances. hitherto drawn between furlough on private affairs and sick leave, is abolished, both kinds of leave being included under the general term *furlough*, provision, however, being made for the obtainment of furlough under medical certificate, without all the restrictions applicable to furlough when taken without medical certificate.

II.—Leave taken under the rules now prescribed will not involve forfeiture of appointment, except in the cases herein specially provided for.

III.—The rules now prescribed do not affect the provisions of Act XXXIII. of George III., Chapter 52, Section 70 ; but an absentee cannot retain his appointment and draw absentee allowances, except under the rules now prescribed.* Nor do they affect

---

* The section referred to is quoted below :—

Section 70.—"And be it further enacted that no person who shall have held any civil or military station whatever in India, in the service of the said United Company, being under the rank or degree of a Member of Council or Commander-in-Chief of the forces, and who, having departed from India by leave of the Governor-General in Council, shall not return to India within the space of five years next after such departure, shall be entitled to any rank or restoration of office, or be capable of again serving in India, either in the European or native corps of troops or in the civil line of the Company's service, unless in the case of any civil servant of the Company it shall be proved to the satisfaction of the Court of Directors that such absence was occasioned by sickness or infirmity, or unless such person be permitted to return with his rank to India by a vote or resolution passed by way of ballot by three parts in four of the proprietors assembled in general court especially convened for that purpose, whereof eight days' previous notice of the time and purpose of such meeting shall be given in the *London Gazette* ; or unless in the case of any military officer, it shall be proved to the satisfaction of the said Court of Directors and the Board of Commissioners for the affairs of India, that such absence was occasioned by sickness or infirmity, or some inevitable accident."

the regulations by which general officers commanding Divisions and Brigades can only obtain limited periods of leave without forfeiting their commands.

IV.—Leave of absence will in future be of three kinds, viz :—

1.—Furlough in or out of India.

2.—General leave on private affairs or sick certificate in India, or short leave to sea.

3.—Privilege leave.

Chapter I.

Furlough.

V.—An officer drawing staff pay in addition to pay of rank, proceeding on furlough, will be allowed pay at the rate of 50 per cent. of the salary of his substantive office. But an officer on civil employ and drawing consolidated salary will be allowed 50 per cent of the average salary drawn by him for three years prior to his proceeding on furlough. No absentee shall in either case draw more than £1,200 or less than £250 per annum. The term salary will signify the total amount drawn by an officer, whether as consolidated pay or staff allowances in addition to pay, but will not include any extra or special allowances. It is to be clearly understood, that an officer absent on furlough, who may be transferred to another office during his absence, shall be entitled, for the entire period of his furlough, to pay at the rate sanctioned to him when leaving India, provided that an officer whose term of office shall lapse during his furlough shall cease to draw his half staff salary from the date of such lapse. An officer will also be entitled to the benefit of his promotion to a higher Staff Corps or regimental rank whilst on furlough, subject to the maximum limit.

Note.—Horse allowance is to be excluded—Sec. G. G. O. No. 559, 16th Sept. 1868.

Officers not in staff employ will receive half the Indian pay of their rank, provided that in no case will an officer entitled to furlough receive less than the above minimum of £250 per annum.

Note.—Officers who may be entitled to income allowance from the military fund during absence in Europe will draw their half salary or minimum absentee allowance under the foregoing clause, subject to a deduction equivalent to the amount of such income allowance.

VI.—All grants of furlough on private affairs are subject to the exigencies of the public service, of which exigency the Government is to be exclusively the judge, and to any regulations that may be found necessary for limiting the number of absentees.

VII.—The maximum amount of furlough on private affairs to be taken at any one time, carrying pay and retention of appointment, will be two years.

VIII.—A period of at least three years' service after return from last furlough, except furlough under Rule XI., must be completed before furlough can again be taken unless obtained under medical certificate (see Rules XIII. and XIV.)

IX.—An officer will be eligible for two years' furlough on the completion of eight years' actual service in India, for a third year after a further period of six years' actual service, and for a fourth or fifth year after similar intervals of six years. The grant of furlough to an officer eligible for it will be subject only to the conditions specified in Rules VI. and VII. The fact of having taken furlough on medical certificate will not affect the grant of these furloughs, except as to the conditions laid down in Rules VIII., XIII., and XVI.

X.—An officer eligible for furlough need not take the whole amount to which his service entitles him, but may apply for any portion thereof as an instalment; and in that case the balance will remain at his credit in any future computation of the amount of furlough to which he may be entitled.

Illustrations.

(1)—An officer who has served nine years in India is entitled to two years' furlough. He takes only one year, and after his return remains in India for five years. He is then eligible for two years' furlough as follows :—

Total service in India	14	years.
Furlough due on that service	3	„
Furlough already taken	1	„
Balance for which he is eligible	2	„

(2)—An officer who has served 20 years in India without taking furlough is entitled to four years' furlough. He can only take, however, two years at one time carrying pay, the balance remaining at his credit in any future computation of furlough to which he may be entitled. He can take that balance after completing three years' service from the date of his return from the first instalment.

XI.—Furlough on urgent private affairs for six months with pay equivalent to the British regimental pay of his rank, to be extended to a year, if necessary, may be granted, when the officer is not eligible for ordinary furlough. The said period may form part of the periods of either eight or six years referred to in Rules VIII. and IX.

XII.—Subject to State considerations, there will be no restriction as to the places to which an officer may resort during furlough.

XIII.—Absence on medical certificate for a longer period than two years at one time, or departure on such furlough within three years of the date of return from a previous furlough, except furlough under Rule XI., will involve forfeiture of appointment. Such furlough may, however, be extended to a third year on English furlough pay.

In the event of an officer not being able to return to his duty after an absence of three years, it will rest with the Right Hon'ble the Secretary of State for India in Council to order him to appear before a Medical Board, with a view to placing him on the retired list if entitled to pension, or on the half-pay list. Should the circumstances of the case warrant a further extension of leave, it can only be granted without pay.

XIV.—An officer not entitled to furlough, whose health may necessitate his taking it within three years from the date of last return, may, under the usual medical certificate, obtain such amount as may be duly certified to be necessary for the restoration of his health, but will only receive English furlough pay, and must vacate any appointment he may be holding.

XV.—An officer entitled to furlough, whose health may necessitate his absence from India, will be compelled to take leave as furlough under Rule IX., but without forfeiting any passage-money to which he may be entitled under Military Fund Rules, or if a subaltern, by Regulation when proceeding on medical certificate.

Any extension of this furlough beyond the period to which he may be entitled under Rule IX. will be regarded, in all respects, as furlough on medical certificate. Such extension will not be allowed to take effect, until the officer shall have exhausted the entire amount of his available furlough on private affairs. If the aggregate of two years' leave is exceeded, the officer will after that date come under the provisions of Rule XIV.

XVI.—The aggregate amount of furlough with pay and retention of appointment, whether on private affairs or on medical certificate, that may be granted to an officer during his service, will be limited to eight years.

NOTE.—This rule *has* retrospective effect; and all leave taken out of India counts as part of the eight years.—Sec. G. G. O. No. 663, 20th October 1868.

XVII.—If taken in India furlough will be reckoned from the date of the absentee quitting his station to the date of his return thereto; if taken out of India, from the date of the sailing of the vessel in which he may have embarked to the date of his disembarkation in India.

XVIII.—Preparatory leave to embark for Europe or elsewhere on furlough will be granted for any period not ordinarily exceeding 30 days. Leave to the same limit, to enable him to rejoin on his return from furlough, will be granted from the date of his disembarkation in India.

XIX.—Furlough allowances shall be payable monthly if payment is taken in India, and quarterly if payment is taken in England.

XX.—Advances of furlough pay will continue to be made in India to those officers who desire it, for three months from date of embarkation. Payments in continuation will be made in England on the expiration of six months from that date.

XXI.—The last pay certificate issued to each officer who may be granted furlough, whether on private affairs, or on medical certificate, will specify the rate of the pay and staff salary of his last substantive appointment, and the rate to which he will be entitled in Europe in virtue of Rule V.

XXII.—An officer acting in India for an absentee will be restricted for the entire period of such acting to the half staff salary of the appointment in which he may be acting, in addition to the full pay of his rank, and the half staff salary of his own appointment if he possess one. The staff salary granted to an acting officer will, however, in so such case be less than Rs. 100 per mensem.

NOTE.—An acting Officer will always draw a Staff salary of at least Rs. 100 per mensem provided the Staff pay of the appointment is at least Rs. 100.—Sec. G. G. O. No. 721, 11th November 1868.

XXIII.—The privilege heretofore granted to military officers of counting the proportion of leave noted in the margin as service for pension is retained. The periods of service qualifying for pension remain unaltered.

XXIV.—In computing the furlough on private affairs to which an officer who has already enjoyed some portion of such furlough, will be entitled under these rules, it will

be necessary to deduct the total amount of the furlough, on private affairs of which he may have availed himself during his service, from the total periods to which under Rule IX. he can lay claim. The balance will represent the leave to which he will be entitled on the expiration of not less than three years from his last return to duty.

Illustration.

(1)—An officer, who had obtained under the existing rules two years' furlough after ten years' service, returns to India on the date on which this order is promulgated. He accepts its conditions, and serves four years longer in India. On the expiration of that term, he can take one year's furlough, thus—

Total service in India	14 years.

Already enjoyed	2 ,,
Balance	1 year.

(2)—An officer of four years' service has proceeded on sick certificate to England for 20 months, extended afterwards to two years. He returns, serves six years in India, takes two years' furlough, and returns to India about the time of the promulgation of these rules, which he accepts. He must serve four years before he can take an additional year's furlough, thus—

Total service up to return from furlough	14 years.
Total service in India	10 ,,
Furlough enjoyed on that service	2 ,,
Further period of service to entitle him to one year's furlough	4 years.

Chapter II.

General leave on private affairs and sick certificate in India.

XXV.—An officer will be eligible, as at present, to take leave on private affairs on sick certificate in India for any period not exceeding six months, at the discretion of His Excellency the Commander-in-Chief, or of the Government under which he may be serving. Duting the entire period of his absence on this account, the officer will be entitled, as at present, to his full pay and a moiety of his staff salary. Leave taken under this rule will form no part of the eight years' aggregate furlough. If this indulgence should be taken advantage of for a third year consecutively, the officer will lose his staff appointment.

XXVI.—Leave on sick certificate for a period exceeding six months, capable of extension under renewed medical certificate to a limit of one year, may be granted to any officer, who, in the opinion of a Medical Board, may require it. Leave of this nature taken after the promulgation of these rules, will be held to constitute a part of the maximum period of eight years' leave of absence to which an officer is entitled in his entire period of service, but will not be regarded as furlough, nor will it affect the intervals entitling to furlough laid down in Rule IX. During this leave the absentee will draw a moiety of his staff salary in addition to the pay of his rank.

XXVII.—Short leave, not exceeding three months, on private affairs or sick certificate, may also be taken to sea, on the above condition, but absence from India for any longer period will be treated as furlough.

XXVIII.—All general leave taken in India counts as part of the leave reckoning against service for pension.

Chapter III.

Privilege leave.

XXIX.—Privilege leave may be granted, as at present, for sixty days in each year to all officers in military employ, without deduction from the salaries and emoluments drawn by them. General leave, in extension of privilege leave, can only be granted on the ground of sickness, or some other serious emergency which could not have been foreseen when the officer proceeded on privilege leave. Privilege leave may, however, be converted into general leave with the sanction of the Commander-in-Chief or the Government.

XXX.—In the case of the stations noted in the margin, privilege leave may, as at present, be granted for ninety days, to officers of local corps, or of corps which are usually employed in one or other of the districts named.

Assam, Shillong, Erinpoora, Deolee, Khairwara, Khotra, Bunnoo, Dera Ismael Khan, Dera Ghazee Khan, Rajanpore, Jacobabad.

XXXI.—An officer is at liberty to proceed wherever he may desire on privilege leave provided he can ensure his return before the expiration of his leave.

XXXII.—Privilege leave cannot be taken in continuation of furlough, nor can furlough be obtained in continuation of privilege leave. If furlough be obtained by an officer while absent on privilege leave, the privilege leave will be converted into general leave, the officer for that period sacrificing a moiety of his staff salary.

Military officers in civil employ.

XXXIII.—Military officers in civil or political employ taking leave in India, come as respects periods of leave obtainable and amount of pay to be granted, under the Civil Leave Rules. When they take leave out of India, they come under the Military Leave Rules.

Subsidiary Rule.

XXXIV.—Officers of the Indian Military and Medical Services will be required generally to notify their intention to accept these rules or to adhere to those now existing on the first occasion of their taking furlough or general leave afrer the publication of this order. Such election must be considered final, and under no plea whatever will an officer be subsequently relieved from the choice thus made.

Officers who may determine to abide by existing rules will be allowed to proceed on furlough on the conditions laid down in Rules VII., VIII., and XIII. to the extent to which they may be entitled under the Furlough Regulations of 1854, and on the rates of pay contemplated in those Regulations, but retaining their appointments. The principle laid down in Rule XV. must, however, be applied in those cases.

If an officer under the Furlough Rules of 1796 elects the present rules, his service for pension will be reckoned under the former rules up to 1st July 1868, and thenceforward under the Rules of 1868.

The foregoing rules take effect from the 1st July 1868 as respects retention of appointments and terms under which leave will be granted, but half staff allowances will not be a available for officers now on leave, in cases where the acting officer has already come into receipt of the full staff salary. Nor can officers who have vacated appointments which have since been permanently filled up, have any claim to be restored to them.

RULES REGARDING PROMOTION TO BREVET COLONEL.

Bombay Castle, 24th January 1865.

No. 47 of 1865.—The following General Order by the Government of India, dated 13th Jan. 1865, No. 58, is republished :—

No. 58 of 1865.—The following Military letter from the Right Honorable the Secretary of State for India, No. 377, dated the 25th November 1864, and the Abstract of Rulings therein referred to, are published for general information :—

The principle of the Rules will apply to Officers of the Indian Army holding qualifying appointments as well as to Officers of the Staff Corps similarly situated, and whose promotion to the rank of Colonel is not provided for under paragraph 2 of the Staff Corps Warrant.

India Office, London, 25th November 1864.

Military No. 377.

TO HIS EXCELLENCY THE RIGHT HONORABLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

SIR,—The Secretary of State for War has recently determined on a revision of the computations of qualifying service upon which Officers of Her Majesty's Service have obtained promotion to the rank of Colonel under the Royal Warrant of 1858.

2. An Abstract of the Rulings of the Secretary of State for War, in interpretation of the Warrant, which have governed the revisions in the cases of British Officers, is herewit transmitted, in order that a similar course may be adopted in reference to Officers of Her Majesty's Indian Forces under the Warrant applicable to them.—I have, &c.

(Signed) C. WOOD.

10. Commissioner to the Head Quarters of an Allied Army.
11. Members of the Council of Military Education.
12. Inspector General of Army Schools.
13. Lieutenant Governor or Superintendent of Studies at the Royal Military College.
14. Commandant of the Staff College.
15. Military Superintendent of a Manufacturing Department of the Army.
16. Regimental Majors who are Brevet Lieutenant Colonels in temporary command of Regiments in the absence of the Lieutenant Colonels shall reckon any periods of temporary command which exceed one calendar month.
17. Captain or Major with rank of Brevet Lieutenant Colonel in command of a mixed force amounting to 400 men for a period exceeding one calendar month at a time unless the Officer in temporary command shall be in receipt of the pay of the command owing to the death or removal of the Commandant, when the period (short of one calendar month) for which he receives the pay will be admitted as service of a qualifying nature under Clause 11.

18. Regimental Major who is a Brevet Lieutenant Colonel in command of a Wing of a Regiment serving abroad which may be so divided as to constitute two distinct commands.
19. Deputy Inspector of Fortifications.
*20. Assistant Inspectors of Volunteers if substantive Field Officers.

Lieutenant Colonels after servin g eight years in the following appointments will be promoted to the rank of Colonel:—

1. Equerry to Sovereign.
2. With the rank of Lieutenant Colonel obtained for service in the Field.
3. In a Civil appointment, provided the nature of such be considered calculated to give the Officer such practical experience as may afterwards prove advantageous to the service to which he belongs.
4. Appointment as Commanding Royal Engineers.
5. Assistant Instructors of Volunteers, if Captains, with Brevet rank of Lieutenant Colonel obtained for service in the Field.

* NOTE.—Officers promoted to Brevet Lieutenant Colonel after 26 years' service are also promoted after five years' service—no matter how or where employed.

Notes on foregoing.

All periods of leave of absence granted to an Officer will be considered as part of his service.

The only service which a Captain who is a Brevet Lieutenant Colonel can reckon towards promotion after five years is named in para. No. 17.

Officers appointed to Staff situations at home (not commissioned) will reckon service from date of taking up the Staff duties, and Officers selected for similar appointments abroad will reckon service from date of embarkation to the station until date of disembarkation when returning home. Officers *Acting* in staff appointments which qualify for the rank of Colonel are not permitted to reckon such service unless confirmed in the appointment

LICENSE TAX OFFICERS.

Special Officer—Dosabhoy Framjee.

Commissioner to hear appeals—The Collector of Bombay.

THE BOMBAY MINT.

RULES FOR THE RECEIPT OF BULLION.

Tenders of Gold or Silver Bullion are received at the Bombay Mint between the hours of 10 A. M. and 3 P. M. daily (Sundays and Holidays excepted), provided the parcel of Gold is not less than fifty tolas' weight, and of Silver one thousand tolas' weight, and provided it be of a malleable quality, adapted for coinage.

Silver Bullion or Coin must be tendered by the proprietor in the required form, lithographed copies of which will be supplied on application at the Mint, and in return a Bullion certificate is granted, payable at Her Majesty's Treasury, Bank of Bombay, at sight, after the Bullion has been received and registered, and its actual outturn value ascertained at the Mint.

For Gold the Bullion certificate will be at twenty days' sight.

All Gold and Silver Bullion and Coins that may be tendered to the Mint for coinage may be melted and cast into bars by the Mint pre-melting establishment prior to their being received or assayed. Should the Bullion prove unadapted for coinage, it will be returned to the importer, who must pay the pre-melting fee calculated on the gross weight in tolas.

If Bullion is transferred from the name of one proprietor to another after it has been tendered to the Mint, a fee of two annas per box will be charged ; the minimum fee to be Rs. 5

Should Bullion be withdrawn entirely from the Mint, a fee of Rs. 5 will be charged for the withdrawing order, independent of the 2 annas per box hitherto charged.

It is to be understood that until the Bullion or Coin has been thus delivered at the Mint Scales in the Bullion Receiving Room, it is in the custody, and at the risk, of the importer to whom, however, every facility will be afforded for securing it in the Bullion Strongholds.

On the receipt of the Assay Report, an Account Current, which shall be verified by the Assistant Bullion Keeper, showing the net produce of the Bullion or Coin, with reference to it weight and assay value, after deducting the authorised amount of Mint duty, of refining and pre-melting charges, will be submitted to the importer for his examination and signature. The issue of the Account Current shall constitute "Registry," and twenty-four hours after such issue, provided that within that time the Account Current may have been approved by the importer and returned to the Mint Master, the Mint Master will deliver to the importer a Bullion certificate on Her Majesty's Treasury authorising the holder to receive the amount.

The seignorage on Gold Bullion or Coin shall be at one per cent of the standard value The seignorage on Sicca Rupees shall be one per cent. There shall be no seignorage on short weight Madras, Furrackabad, or Government Rupees. The seignorage on all other descriptions of Silver Coins and Bullion shall be two cent.

The refinage charge on Silver below six dwts. in assay worse than the Indian Standard shall be at the rate of ·04 per cent. per dwt. of worseness. The refinage charge on Gold shall be at the rate of one-half per cent. for every five carat grains of worseness below the Indian Standard.

The pre-melting charge on Gold shall be at the rate of Rupees three and annas twelve per one thousand tolas of Standard Gold, and silver at the rate of one rupee per one thousand standard tolas.

Importers of Bullion or Coin shall be at liberty to withdraw the same after registry within the day following the receipt of the Assay Report, but at no later period, on payment of an assay fee of four rupees for each assay of Gold, and two rupees for each assay of Silver, and the pre-melting charges above mentioned in the event of the Bullion tendered having been pre-melted.
